Benjamin Bragg
Superintendent of Schools
Germantown Central School District
123 Main Street
Germantown, New York 12526

Dear Benjamin Bragg:

Your career and technical education (CTE) program approval application has been approved. Congratulations on the successful completion of the career and technical education program approval process for Carpentry, Classification of Instructional Programs (CIP) code, 46.0201. Use this CIP code for all data collection pertaining to this program. No specialized/integrated academics were requested.

Approval to begin program implementation is granted for the 2023-2024 school year. As long as the approved components and appropriately certified staff remain in place, this program approval remains in effect until June 30, 2028. Technical endorsements may be added to the diplomas of students completing this program beginning with the graduating class of 2024.

This program approval neither constitutes nor implies approval for eligibility decisions for training funds from any source. Requests for approval to access such funds must be directed to the person or agency responsible for those funds.

The Department should be informed of any significant modifications (e.g., changes in technical assessment, teacher, or program content) of this approved program. Staff are available for consultation should you require technical assistance (please refer to your SED program number, 01960). You will be notified if your program is selected for a site visit in the future.

My staff and I hope that the process was a rewarding one for all who participated. We are confident that the program approval process continues to make positive contributions to the value and quality of career and technical education in New York State.

We look forward to sharing information about the achievements of your approved program with others. Best wishes for successful implementation of your program.

Sincerely,

Deborah Reiter
Bureau Chief
