

Germantown Central School District
2021 Purchase Proposal
Prepared by GCSD Technology Committee

Smart Schools Bond Act ~ Revised Purchase Proposal

<u>Product</u>	<u>Unit</u>	<u>Quantity</u>	<u>Price</u>	<u>Extension</u>
75 Inch View Sonic Panels	Each	55	1,889	103,895
65 Inch View Sonic Panels	Each	8	1,743	13,944
Mobile Carts for Panels	Each	27	407	10,989
HP Student Chromebooks	Each	59	256	15,104
Total				<u>143,932</u>

Rationale:

The goal of these purchases is to continue to replace aging student use devices and provide 1 to 1 student devices. It supports the district's goal of updating the technology required to support the education of our students. Aging Lenovo laptops still in use continue to break down, cannot handle the requirements of our software, and are not reliable enough to comply with NYS testing requirements.

The interactive flat panels are projected to be ViewSonic 75 Inch and 65 Inch Panels. The district intends to use the smart bond money to purchase an interactive flat panel for every learning environment. The district's electrical and HVAC infrastructure can accommodate the additional devices

The overall impact of these purchases will benefit our students and staff by creating an educational environment geared toward success. These improvements are intended to enhance engagement and enthusiasm among students, improve teacher-student relationships, and promote 21st-century skills such as technological proficiency, collaboration, and problem solving. These devices will also support remote instruction in instances where it may still be necessary due to COVID19.
