Thursday, Oct 29, 7-9 pm
Will be offered Virtually (Link TBA)

"START SMART"

This free program is provided by the CHP and is aimed at helping newly licensed- and/or soon-to-be-licensed teenage (15-19) drivers become more aware of the responsibilities that accompany the privilege of being a CA licensed driver.

It should be on the "must do" list for young drivers and their parents/guardians.

It covers, with many powerful videos, the dangers of distracted driving, how to stay safe on the road, and what to do in a variety of hazardous road situations.

(Things they don't necessarily teach in Driver's Ed.)

It's informative, enlightening, and often humorous.

Plus, a certificate of completion may save on auto insurance!

(Check with your insurance provider.)

Drive safe. Drive SMART! Join us!

It's open to any teenagers (15-19) & their parents/guardians in Glendale.

(Parents, drag your child to the virtual event if you must!)
