

## Attendance and Tardies

Your attendance and tardies can affect your grade and your citizenship grade. Whenever we are teaching rules, strategies, and play games in P.E., missing class can put you behind. Being late for class can lower your citizenship grade.

1. If you are late three or more times per grading period, which is every five weeks, you will earn an automatic "U".
2. You are late to P.E. if you are not below the gates on either side of the P.E. area.
3. You can also be late to P.E. if you are not sitting in your teacher's designated area by the time the second bell rings.

Please do not wait around the locker room for your friend to finish changing as we find that this adds to the amount of students that end up being late to P.E.
