

April Family Project

In April we celebrate Earth Day. Planting trees and flowers help our Earth by keeping our air clean. Recycling is another means of keeping our Earth clean and safe. Talk about ways your child can keep the Earth a clean and safe place as you work on the project.

Decorate our earth and the plant growing by coloring it in bright colors. You can use paint, colored pencils, crayons, markers, glitter, etc. You may be as creative as you'd like and use all sorts of different art tools to make your earth as unique and special as possible. After you have colored the earth write a few sentences about how you can help our earth.

Please return the finished project before the end of the month. Please write everyone's name on the back that worked on the project for all attached sheets.

Ms. Hartonian

Happy Earth Day!

Take one of your brainstorming ideas and tell how you would help save the Earth.

Handwriting practice lines consisting of multiple sets of solid top and bottom lines with a dashed midline.

Earth

heart
