## CALIFORNIA ACCOUNTABILITY

The state's education officials measure schools' performance using students' test scores. They combine standardized test results and measure progress year to year to calculate each school's Academic Performance Index (API).

<b>Academic Performance Index (API)</b>	<b>909</b>
<b>Growth attained from prior year</b>	<b>+20</b>
<b>Met schoolwide growth target</b>	<b>Yes</b>
<b>Met growth targets for all groups of students</b>	<b>Yes</b>

### API

This graph shows our schoolwide API in comparison with the API for the average high school in the state. Our largest student subgroups' APIs appear below.

## California Standards Tests

This series of tests is based on what California students are expected to know and learn at each grade level.

## FEDERAL ACCOUNTABILITY

The federal accountability standard differs from California's. It requires schools to meet Adequate Yearly Progress (AYP). The AYP includes students' scores and participation rates on the high school exit exam (CAHSEE), along with the graduation rate and the API. If a school doesn't meet one of these criteria two years in a row, it is put in Program Improvement.

<b>Made Adequate Yearly Progress (AYP)</b>	<b>Yes</b>
<b>Number of AYP targets met</b>	<b>18</b>
<b>Number of AYP targets school was required to meet</b>	<b>18</b>
<b>Is the school in Program Improvement (PI)?</b>	<b>No</b>

Each year, schools are expected to help more students score Proficient or higher on the CAHSEE. The dot on the graph to the right marks the percentage of students that had to score Proficient or higher, schoolwide and by subgroup, in 2011 for the school to make AYP (66.7% in English/language arts and 66.1% in math).
