# **College View School**

School Accountability Report Card, 2010–2011 Glendale Unified School District

An annual report to the community about teaching, learning, test results, resources, and measures of progress in our school.

## **College View School**

School Accountability Report Card, 2010–2011 Glendale Unified School District

This School Accountability Report Card (SARC) provides information that can be used to evaluate and compare schools. State and federal laws require all schools to publish a SARC each year.

The information in this report represents the 2010–2011 school year, not the current school year. In most cases, this is the most recent data available. We present our school's results next to those of the average high school in the county and state to provide the most meaningful and fair comparisons. To find additional facts about our school online, please use the <code>DataQuest</code> tool offered by the California Department of Education.

Please note that words that appear in a smaller, bold typeface are links in the online version of this report to more information. You can find a list of those linked words and their Web page URLs at:

http://www.schoolwisepress.com/sarc/links\_2011\_en.html

Reports about other schools are available on the California Department of Education Web site. Internet access is available in local libraries.

If you have any questions related to this report, or would like to request a hardcopy version, please contact our school office.

## **College View School**

School Accountability Report Card, 2010–2011 Glendale Unified School District

# » Principal's Message

College View School is a place where great things happen for kids every day. The school was established in 1977 to provide for the educational needs of students with extraordinary special needs. As research in the field of education has provided more information about teaching students with special needs, College View has updated its programming and philosophy. Now College View boasts research-based educational strategies and innovative programs to help all students reach the highest level of independence and to provide the least restrictive educational environment for Glendale, Burbank, and La Cañada students with severe disabilities.

In the 2010-2011 school year, College View furthered its focus on communication development and began an additional focus on Functional Independent Living Skills for every student. We continued to meet targets for student progress and implement our school-wide formative assessment. The CVCR: College View Communication Rubric, is designed to assist teachers and staff in identifying student's specific communication behaviors and informing instruction and next steps. Functional independent living skills are reflected in every student's IEP.

This is the second year we have participated in Arts Attack, a district-wide elementary arts curriculum; the result of this year-long program was a student art gallery. We also continued our efforts to provide our students with peer interactions. This year, students from Daily High School, Glendale High School, Hoover High School, Jewel City Community School, La Crescenta Elementary and Monte Vista Elementary School came to interact with our students during special events such as our Halloween Carnival, Holiday Assemblies, Traveling Zoo, Wheel-a-Walk-a-Thon and our Garden Project. Every January, College View hosts 12 seniors from Loyola High School who choose to conduct their senior community service project with our students. These young men work one-on-one with our students under the direct supervision of the teacher.

### **School Expenditures**

A combination of state and federal funding is used to cover all aspects of our instructional program. Strong PTA and school foundation support is evident in many of Glendale Unified schools' supplemental activities. All Glendale Unified schools benefit from the support of the Glendale Educational Foundation, which offers enhanced programs in visual and performing arts, science and technology, health and fitness.

### Safety

Safety is a top priority for our school. As parents and buses enter our parking lot they are greeted with numerous high-vision safety cones and pedestrian markers. Buses and individual parent vehicles are greeted by school staff before any student is able to exit. Our closed and secure campus with gated playground helps us keep our students safe while giving them independence within our school.

All students are supervised throughout the day by our instructional staff. Our teachers and staff have been trained in Non-Violent Physical Crisis Prevention Interventions as a response to anxiety and acting out behaviors present in our student population. The purpose of all being trained is for the care, welfare, safety and security of all individuals in our school.

We are very diligent about keeping track of who is on our campus and their reason for visiting. Since we share our campus with CCS (California Children's Services) and the Foothill SELPA, this can be a challenge. Our site visitor policy helps us keep track of the therapists, parents and families, observers, volunteers, and other visitors.

Our school's safety plan is revised annually. We have fire, earthquake and lockdown drills every month throughout the school year and extended school year. We registered for the Great Southern California Shake Out for the second time and along with all other schools, businesses and government buildings in Glendale, we ran a full scale earthquake evacuation drill with all teams assembling. The principal and staff continually work to improve their abilities in the event of an emergency. We teach students to follow the school rules and to follow directions. Our routine practice of safety procedures helps both staff and students to remain calm during real emergencies.

### **Career Technical Education**

There are no traditional CTE classes at College View School. However, we continue to develop and improve our workshop program with our students, ages18-22, to prepare them for transition to a structured program for adults once they leave College View School. In addition, all teachers have been trained in transition planning to better facilitate the long term planning necessary to prepare a student for a more independent life.

### **Buildings**

Our school was built in 1971. We are always continuing our building improvement efforts. It is a clean building, and the grounds are well kept. We have handicapped rest rooms in every classroom. The architecture was specifically designed for our population in 1971. The thoughts and strategies that went into this building have changed as we've gotten better at our jobs. We now know of new techniques and strategies, and we work to update our classroom equipment to meet the students' challenges.

We continually make improvements to our pick up and drop off procedures as well as our parking policies to improve student safety during the busy times of the day. We also monitor parking for people who visit throughout the day.

With the generous help of the Glendale Leadership Foundation in 2009-10, we converted a classroom into a new Therapy Gym, where service providers and teachers can work with students individually or in groups. In 2010-11, we have increasingly updated our equipment including swings, ball pit, bolsters, air mattresses and a bubble tube that assist us in meeting the gross motor, fine motor and sensory processing needs of our special kids. The fun atmosphere is punctuated by our jungle mural complete with our mascot.

With the generous help of Assemblyman Mike Gatto, The Western Growers' Foundation and the Kiwanis Club of Glendale, our school was able to build a wheelchair accessible garden complete with planters, plants and tools. This is an ongoing garden project that will benefit all students for years to come.

Our therapy pool is also being worked on to update safety codes. This work is being done by GUSD.

College View facilitated one Eagle Scout project and one Girl Scout project which improved the condition of our grounds. One Eagle Scout did landscaping to improve the front garden area that is seen upon entering College View. He cleaned up the existing plants/shrubs and planted new greenery. He also cleaned the College View wall that displays our school name and he added white rocks as well as plants. The Girl Scout

project was also a beautification project that enhances the front of our school and the parking lot before entering our building. The Girl Scouts added cedar chips and drought resistant plants as well as decorative stepping stones to a planter.

We have continued fundraising for our Accessible Playground Project; the installation of Phase I took place November 12, 2010. We continue to raise funds toward this project.

Lastly, we have coordinated efforts with the school district to get support for Measure S funding that will directly enhance our school.

### **Parent Involvement**

College View parents are actively involved with caring for their children thus we see our role as assisting both the child and the families in making this task easier. Because of this unique relationship we have a different idea of parent involvement in our school. While we do not specifically ask parents to volunteer, they are welcome to come any time and communicate with teachers. We also have opportunities for parents to volunteer on field trips, special events, and parties.

This year, we have increased our PTA involvement and created a School Site Council (SSC) and English Language Acquisition Committee (ELAC). The PTA has nearly 100 percent membership with a focus on advocacy for our students and families, and support to our instructional programs.

The College View Foundation, under the umbrella of the Glendale Educational Foundation, has built a website to inform parents of our school and the mission of College View as well as to stimulate fundraising opportunities to then improve our playground facilities.

### **MEASURES OF PROGRESS**

### **Academic Performance Index**

The Academic Performance Index (API) is California's way of comparing schools based on student test scores. The index was created in 1999 to help parents and educators recognize schools that show progress and identify schools that need help. It is also used to compare schools in a statewide ranking system. The California Department of Education (CDE) calculates a school's API using student test results from the California Standards Tests and, for high schools, the California High School Exit Exam (CAHSEE). APIs range from 200 to 1000. The CDE expects all schools to eventually obtain APIs of at least 800. Additional information on the API can be found on the CDE Web site.

College View's API was 709 (out of 1000). This is a decline of 2 points compared with last year's API. All students took the test. You can find three years of detailed API results in the Data Almanac that accompanies this report. Based on our 2009-2010 test results, we started the 2010-2011 school year with a base API of 711.

**API GROWTH TARGETS:** Each year the CDE sets specific API "growth targets" for every school. It assigns one growth target for the entire school, and it sets additional targets for ethnic groups, English Learners, special education students, or socioeconomic subgroups of students that make up a significant portion of the

**CALIFORNIA** API ACADEMIC PERFORMANCE INDEX Met schoolwide N/A growth target Met growth target N/A for prior school year 709 Growth attained -2 from prior year Met subgroup\* N/A growth targets

school. N/A - Results not available

student body. Schools are required to meet all of their growth targets. If they do, they may be eligible to apply for awards through the California School Recognition Program and the Title I Achieving Schools Program.

### API, Spring 2011

SOURCE: API based on spring 2011 test cycle. State average represents high schools only.

NOTE: Only groups of students that represent at least 15 percent of total enrollment are calculated and displayed as student subgroups

### **Adequate Yearly Progress**

In addition to California's accountability system, which measures student achievement using the API, schools must also meet requirements set by the federal education law known as No Child Left Behind (NCLB). This law requires all schools to meet a different goal: Adequate Yearly Progress (AYP).

We met all four criteria for yearly progress. As a result, we succeeded at making AYP.

To meet AYP, high schools must meet four criteria. First, a certain percentage of students must score at or above Proficient levels on the California High School Exit Exam (CAHSEE) and the California Alternate Performance Assessment (CAPA): 66.7 percent on the English/language arts test and 66.1 percent on the math test. All significant ethnic, English Learners, special education, and socioeconomic subgroups of students also must meet these goals. Second, the schools must achieve an API of at least 710 or increase their API by one point from the prior year. Third, 95 percent of tenth grade students must take the CAHSEE or CAPA. Fourth, the graduation rate for the class of 2010 must be higher than 90 percent (or satisfy alternate improvement criteria).

If even one subgroup of students fails to meet just one of the criteria, the school fails to meet AYP. While all schools must report their progress toward meeting AYP, only schools that receive federal funding to help economically disadvantaged students are actually penalized if they fail to meet AYP goals. Schools that do not make AYP for two or more years in a row in the same subject enter **Program Improvement** (PI). They must offer students transfers to other schools in the district and, in their second year in PI, tutoring services as well.

| FEDERAL AYP ADEQUATE YEARLY PROGRESS     |     |  |  |  |  |

SOURCE: AYP release of November 2011, CDE.

The table at left shows our success or failure in meeting AYP goals in the 2010–2011 school year. The green dots represent goals we met; red dots indicate goals we missed. Just one red dot means that we failed to meet AYP.

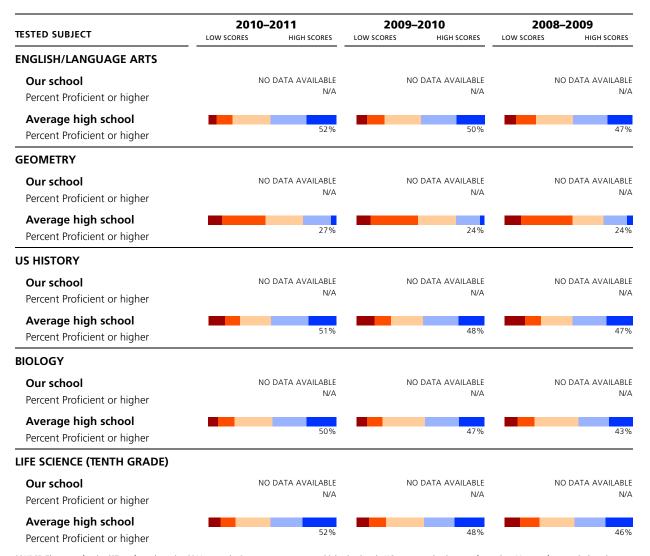

Note: Dashes indicate that too few students were in the category to draw meaningful conclusions. Federal law requires valid test scores from at least 50 students for statistical significance.

### STUDENT ACHIEVEMENT

Here you'll find a three-year summary of our students' scores on the California Standards Tests (CST) in selected subjects. We compare our students' test scores with the results for students in the average high school in California. On the following pages we provide more detail for each test, including the scores for different subgroups of students. In addition, we provide links to the California Content Standards on which these tests are based. If you'd like more information about the CST, please contact our principal or our teaching staff. To find <code>grade-level-specific scores</code>, you can refer to the Standardized Testing and Reporting (STAR) Web site. Other tests in the <code>STAR program</code> can be found on the California Department of Education (CDE) Web site.

### **California Standards Tests**

SOURCE: The scores for the CST are from the spring 2011 test cycle. State average represents high schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile compilete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.

### **Frequently Asked Questions About Standardized Tests**

**WHERE CAN I FIND GRADE-LEVEL REPORTS?** Due to space constraints and concern for statistical reliability, we have omitted grade-level detail from these test results. Instead we present results at the schoolwide level. You can view the results of far more students than any one grade level would contain, which also improves their statistical reliability. Grade-level results are online on the **STAR Web site**. More information about student test scores is available in the Data Almanac that accompanies this report.

**WHAT DO THE FIVE PROFICIENCY BANDS MEAN?** Test experts assign students to one of these five proficiency levels, based on the number of questions they answer correctly. Our immediate goal is to help students move up one level. Our eventual goal is to enable all students to reach either of the top two bands, Advanced or Proficient. Those who score in the middle band, Basic, have come close to attaining the required knowledge and skills. Those who score in either of the bottom two bands, Below Basic or Far Below Basic, need more help to reach the Proficient level.

**HOW HARD ARE THE CALIFORNIA STANDARDS TESTS?** Experts consider California's standards to be among the most clear and rigorous in the country. Just 56 percent of elementary school students scored Proficient or Advanced on the English/language arts test; 62 percent scored Proficient or Advanced in math. You can review the **California Content Standards** on the CDE Web site.

**ARE ALL STUDENTS' SCORES INCLUDED?** No. Only students in grades two through eleven are required to take the CST. When fewer than 11 students in one grade or subgroup take a test, state officials remove their scores from the report. They omit them to protect students' privacy, as called for by federal law.

**CAN I REVIEW SAMPLE TEST QUESTIONS?** Sample test questions for the CST are on the CDE's Web site. These are actual questions used in previous years.

**WHERE CAN I FIND ADDITIONAL INFORMATION?** The CDE has a wealth of resources on its Web site. The STAR Web site publishes detailed reports for schools and districts, and assistance packets for parents and teachers. This site includes explanations of **technical terms**, scoring methods, and the **subjects** covered by the tests for each grade. You'll also find a **guide** to navigating the STAR Web site as well as help for understanding how to **compare test scores**.

WHY ARE ONLY SOME OF THE TEST RESULTS PRESENT? California's test program includes many tests not mentioned in this report. For brevity's sake, we're reporting six CST tests usually taken by the largest number of students. We select at least one test from each core subject. For science, we've selected biology and the tenth grade life science test. For math, we've selected two courses: Algebra I, which students take if they haven't studied and passed it in eighth grade; and Geometry. In social studies, we've selected US History, which is taken by all juniors (eleventh graders). English/language arts summarizes the results of students in grades nine through eleven.

### **STUDENTS**

### Students' English Language Skills

At College View, 61 percent of students were considered to be proficient in English, compared with 91 percent of high school students in California overall.

### Languages Spoken at Home by English Learners, 2010–2011

Please note that this table describes the home languages of just the 49 students classified as English Learners. At College View, the language these students most often speak at home is Armenian. In California it's common to find English Learners in classes with students who speak English well. When you visit our classrooms, ask our teachers how they work with language differences among their students.

### **Ethnicity**

Most students at College View identify themselves as White. In fact, there are about four times as many White students as Hispanic/Latino students, the second-largest ethnic group at College View. The state of California allows citizens to choose more than one ethnic identity, or to select "two or more races" or "decline to state." As a consequence, the sum of all responses rarely equals 100 percent.

# Family Income and Education

The free or reduced-price meal subsidy goes to students whose families earned less than \$40,793 a year (based on a family of four) in the 2010–2011 school year. At College View, 20 percent of the students qualified for this program, compared with 50 percent of students in California.

| LANGUAGE SKILLS             | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |

|-----------------------------|---------------|-------------------|------------------|
| Low-income indicator        | 20%           | 62%               | 50%              |
| Parents with some college   | 79%           | 47%               | 57%              |
| Parents with college degree | 68%           | 26%               | 32%              |

SOURCE: The free and reduced-price lunch information is gathered by most districts in October. This data is from the 2010-2011 school year. Parents' education level is collected in the spring at the start of testing. Rarely do all students answer these questions.

The parents of 79 percent of the students at College View have attended college and 68 percent have a college degree. This information can provide some clues to the level of literacy children bring to school. One precaution is that the students themselves provide this data when they take the battery of standardized tests each spring, so it may not be completely accurate. About 15 percent of our students provided this information.

### **CLIMATE FOR LEARNING**

### **Average Class Sizes**

The table at the right shows average class sizes for core courses. Our average class size schoolwide is seven students. The average class size for high schools in the state is 22 students.

| AVERAGE CLASS SIZES<br>OF CORE COURSES | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |

### LEADERSHIP, TEACHERS, AND STAFF

### **Indicators of Teachers Who May Be Underprepared**

| KEY FACTOR  | DESCRIPTION  | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|---|--|---------------|-------------------|------------------|
| Core courses taught by a teacher not meeting NCLB standards | Percentage of core courses not taught by a "highly qualified" teacher according to federal standards in NCLB       | 23%           | N/A               | 0%               |
| Out-of-field teaching: courses                              | Percentage of core courses taught by a teacher who lacks the appropriate subject area authorization for the course | 8%            | N/A               | N/A              |
| Fully credentialed teachers                                 | Percentage of staff holding a full, clear authorization to teach at the elementary or secondary level              | 93%           | N/A               | N/A              |
| Teachers lacking a full credential                          | Percentage of teachers without a full, clear credential  | 7%            | N/A               | N/A              |

SOURCE: Data on NCLB standards is from the California Department of Education, SARC research file. Information on teachers lacking a full credential provided by the school district.

PLEASE NOTE: Comparative data (county average and state averages) for some of the data reported in the SARC is unavailable.

"HIGHLY QUALIFIED" TEACHERS: The federal law known as No Child Left Behind (NCLB) requires districts to report the number of teachers considered to be "highly qualified." These "highly qualified" teachers must have a full credential, a bachelor's degree, and, if they are teaching a core subject (such as reading, math, science, or social studies), they must also demonstrate expertise in that field. The table above shows the percentage of core courses taught by teachers who are considered to be less than "highly qualified." There are exceptions, known as the High Objective Uniform State Standard of Evaluation (HOUSSE) rules, that allow some veteran teachers to meet the "highly qualified" test who wouldn't otherwise do so.

**TEACHING OUT OF FIELD:** When a teacher lacks a subject area authorization for a course she is teaching, that course is counted as an **out-of-field** section. For example, if an unexpected vacancy in a biology class occurs, and a teacher who normally teaches English literature (and who lacks a subject area authorization in science) fills in to teach for the rest of the year, that teacher would be teaching out of field.

**CREDENTIAL STATUS OF TEACHERS:** Teachers who lack full credentials are working under the terms of an emergency permit, an internship credential, or a waiver. They should be working toward their credential, and they are allowed to teach in the meantime only if the school board approves. About seven percent of our teachers were working without full credentials.

### Districtwide Distribution of Teachers Who Are Not "Highly Qualified"

Here, we report the percentage of core courses in our district whose teachers are considered to be less than "highly qualified" by NCLB's standards. We show how these teachers are distributed among schools according to the percentage of low-income students enrolled.

When more than 40 percent of the students in a school are receiving subsidized lunches, that school is considered by the California Department of Education to be a school with higher concentrations of low-income students. About 70 percent of the state's schools are in this category. When less than 25 percent of the students in a school are receiving subsidized lunches, that school is considered by the CDE to be a school

| DISTRICT FACTOR   | DESCRIPTION  | CORE<br>COURSES<br>NOT<br>TAUGHT BY<br>HQT IN<br>DISTRICT |
|---|--|---|
| Districtwide  | Percentage of core courses not taught by "highly qualified" teachers (HQT) | 6%  |
| Schools with more<br>than 40% of students<br>from lower-income<br>homes | Schools whose core courses are not taught by "highly qualified" teachers   | 7%  |
| Schools with less<br>than 25% of students<br>from lower-income<br>homes | Schools whose core courses are not taught by "highly qualified" teachers   | 5%  |

SOURCE: Data is from the California Department of Education, SARC research file.

with lower concentrations of low-income students. About 19 percent of the state's schools are in this category.

### **Specialized Resource Staff**

The table to the right lists the number of full-time equivalent qualified support personnel who provide counseling and other pupil support services in our school. These specialists often work part time at our school and some may work at more than one school in our district. For more details on **statewide ratios of counselors**, **psychologists**, **or other pupil services** staff to students, see the California Department of Education (CDE) Web site. **Library facts** and frequently asked questions are also available there.

**ACADEMIC GUIDANCE COUNSELORS:** More information about **counseling and student support** is available on the CDE Web site.

### PREPARATION FOR COLLEGE AND THE WORKFORCE

### **SAT College Entrance Exam**

| KEY FACTOR             | DESCRIPTION   | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|------------------------|---|---------------|-------------------|------------------|
| SAT participation rate | Percentage of seniors who took the test                                     | N/A           | 41%               | 37%              |
| SAT critical reading   | Average score of juniors and seniors who took the SAT critical reading test | N/A           | 478               | 498              |
| SAT math               | Average score of juniors and seniors who took the SAT math test             | N/A           | 496               | 517              |
| SAT writing            | Average score of juniors and seniors who took the SAT writing test          | N/A           | 480               | 497              |

SOURCE: SAT test data provided by the College Board for the 2009–2010 school year. County and state averages represent high schools only.

The College Board did not report how many of College View's students took the SAT.

### **College Preparation and Attendance**

| KEY FACTOR   | DESCRIPTION  | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|--|--|---------------|-------------------|------------------|
| 2010 graduates meeting UC or CSU course requirements | Percentage of graduates passing all of the courses required for admission to the UC or CSU systems | N/A           | 45%               | 39%              |

SOURCE: Enrollment in UC/CSU qualifying courses comes from CALPADS, October 2010. County and state averages represent high schools only.

In the 2009–2010 school year, College View did not report whether its students passed the courses required for admission to the University of California (UC) or the California State University (CSU) colleges. This number is, in part, an indicator of whether the school is offering the classes required for admission to the UC or CSU systems. The courses that the California State University system requires applicants to take in high school, which are referred to as the A–G course requirements, can be reviewed on the CSU's official Web site. The University of California has the same set of courses required.

### **Advanced Placement Courses Offered**

High school students can enroll in courses that are more challenging in their junior and senior years, including **Advanced Placement** (AP) courses. These courses are intended to be the most rigorous and challenging courses available. Most colleges regard AP courses as the equivalent of a college course.

| KEY FACTOR               | DESCRIPTION   | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|--------------------------|---|---------------|-------------------|------------------|
| Enrollment in AP courses | Percentage of AP course enrollments out of total course enrollments | 0%            | 5%                | 5%               |

SOURCE: This information provided by the California Department of Education.

The majority of comprehensive high schools offer AP courses, but the number of AP courses offered at any one school varies considerably. Unlike honors courses, AP courses and tests are designed by a national organization, the College Board, which charges fees to high schools for the rights to their material. The number of AP courses offered is one indicator of a school's commitment to prepare its students for college, but students' participation in those courses and their test results are, in part, a measure of student initiative.

Students who take AP courses and pass the AP exams with scores of 3 or higher may qualify for college credit. Our high school offers no AP courses.

More information about the **Advanced Placement program** is available from the College Board.

| AP COURSES OFFERED       | NUMBER OF<br>COURSES |
|--------------------------|----------------------|
| Fine and Performing Arts | 0                    |
| Computer Science         | 0                    |

### AP Exam Results, 2009–2010

| KEY FACTOR               | DESCRIPTION   | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|--------------------------|---|---------------|-------------------|------------------|
| Completion of AP courses | Percentage of juniors and seniors who completed AP courses and took the final exams | 0%            | 30%               | 28%              |
| Number of AP exams taken | Average number of AP exams each of these students took in 2009–2010                 | N/A           | 1.8               | 1.8              |
| AP test results          | Percentage of AP exams with scores of 3 out of 5 or higher (college credit)         | N/A           | 53%               | 58%              |

SOURCE: AP exam data provided by the College Board for the 2009–2010 school year.

Here at College View, zero percent of juniors and seniors took AP exams. In California, 28 percent of juniors and seniors in the average high school took AP exams.

# California High School Exit Examination

Students first take the California High School Exit Examination (CAHSEE) in the tenth grade. If they don't pass either the English/language arts or math portion, they can retake the test in the eleventh or twelfth grades. Here you'll see a three-year summary showing the percentage of tenth graders who scored Proficient or Advanced. (This should not be confused with the passing rate, which is set at a somewhat lower level.)

Answers to frequently asked questions about the exit exam can be found on the CDE Web site. Additional information about the exit exam results is also available there.

|                       | STUDENTS      | PERCENTAGE OF TENTH GRADE STUDENTS SCORING PROFICIENT OR ADVANCED ON THE CAHSEE |     |  |  |  |

| 2008–2009             | N/A           | 73%   | 53% |  |  |  |

SOURCE: California Department of Education, SARC research file.

The table that follows shows how specific groups of tenth grade students scored on the exit exam in the 2010–2011 school year. The English/language arts portion of the exam measures whether a student has mastered reading and writing skills at the ninth or tenth grade level, including vocabulary, writing, writing conventions, informational reading, and reading literature. The math portion of the exam includes arithmetic, statistics, data analysis, probability, number sense, measurement, and geometry at sixth and seventh grade levels. It also tests whether a student has mastered algebra, a subject that most students study in the eighth or ninth grade.

Sample questions and study guides for the exit exam are available for students on the CDE Web site.

|   | ENGLISH/LANGUAGE ARTS |            |          | MATH              |            |          |
|---|-----------------------|------------|----------|-------------------|------------|----------|

| Students receiving<br>migrant education<br>services | N/A                   | N/A        | N/A      | N/A               | N/A        | N/A      |

SOURCE: California Department of Education, SARC research file. Scores are included only when 11 or more students are tested. When small numbers of students are tested, their average results are not very reliable.

### **Dropouts and Graduates**

**DROPOUT RATE:** Our dropout rate for the prior three years appears in the accompanying table. We define a **dropout** as any student who left school before completing the 2009–2010 school year or a student who hasn't reenrolled in school for the 2010–2011 year by October 2010.

Identifying dropouts has been difficult because students often do not let a school know why they are leaving or where they are going. Districts have begun to use Statewide Student Identifiers (SSID), which will increase their ability to find students who stop coming to school.

| KEY FACTOR                  | OUR<br>SCHOOL | COUNTY<br>AVERAGE | STATE<br>AVERAGE |
|-----------------------------|---------------|-------------------|------------------|
| Dropout rate (one year)     |               |                   |                  |
| 2009–2010                   | 24%           | 4%                | 3%               |
| 2008–2009                   | 28%           | 5%                | 4%               |
| 2007–2008                   | 3%            | 5%                | 3%               |
| Graduation rate (four year) |               |                   |                  |
| 2009–2010                   | N/A           | 80%               | 86%              |

| 2007–2008                   | 80%           | 80%               | 86%              |

SOURCE: Dropout data comes from CALPADS, October 2010. County and state averages represent high schools only

This tracking system needs to be in place for the students' full four years in high school to be completely accurate. As a result, the accuracy of this data will be much more reliable beginning with the graduating class of 2012.

**GRADUATION RATE:** The **graduation rate** is an estimate of our school's success at keeping students in school. It is also used in the No Child Left Behind Act to determine Adequate Yearly Progress (AYP). The **formula** provides only a rough estimate of the completion rate because the calculation relies on dropout counts, which are imprecise. The California Department of Education (CDE) cautions that this method is likely to produce an estimated graduation rate that is too high.

**TECHNICAL NOTE ON DATA RECENCY:** All data is the most current available as of November 2011. The CDE may release additional or revised data for the 2010–2011 school year after the publication date of this report. We rely on the following sources of information from the California Department of Education: California Longitudinal Pupil Achievement Data System (CALPADS) (October 2010); Language Census (March 2011); California Standards Tests (spring 2011 test cycle); Academic Performance Index (November 2011 growth score release); Adequate Yearly Progress (November 2011).

While we do our utmost to ensure the information is complete, we must note that we are not responsible for any errors or omissions in the data. Nor are we responsible for any damages caused by the use of the information this report contains. Before you make decisions based on this information, we strongly recommend that you visit the school and ask the principal to provide the most up-to-date facts available.

rev20120112\_19-64568-6099022h/17426

### **High School Completion**

This table shows the percentage of seniors in the graduating class of 2011 who met our district's graduation requirements and also passed the California High School Exit Examination (CAHSEE). We present the results for all students, followed by the results for different groups of students.

These percentages are derived by dividing the number of twelfth grade students who met all graduation requirements and passed both portions of the CAHSEE by the number of students who were enrolled in the twelfth grade as of October 2010.

Students can retake all or part of the CAHSEE up to two times in grade 11 and at least three times and up to five times in grade 12.\* School districts have been giving the CAHSEE since the 2001–2002 school year. However, 2005–2006 was the first year that passing the test was required for graduation.

More data about **CAHSEE results for the classes of 2010 and 2011**, and additional detail by gender, ethnicity, and English language fluency, are available on the CDE Web site.

### Career Technical Education

Some high schools offer courses intended to help students prepare for the world of work. These career technical education courses (CTE, formerly known as vocational education) are open to all students.

| KEY FACTOR  | OUR<br>SCHOOL |
|---|---------------|
| Number of students participating in CTE courses                                   | N/A           |
| Percentage of students completing a CTE program and earning a high school diploma | N/A           |
| Percentage of CTE courses coordinated with colleges                               | N/A           |

# Make Adequacy of Key Resources 2011–2012

Here you'll find key facts about our teachers, textbooks, and facilities during the school year in progress, 2011–2012. Please note that these facts are based on evaluations our staff conducted in accordance with the Williams legislation.

This section also contains information about 2010–2011 staff development days, and, for high schools, percentages of seniors who met our district's graduation requirements.

### **TEACHERS**

### **Teacher Vacancies**

| KEY FACTOR  | 2009-2010 | 2010-2011 | 2011-2012 |  |
|---|-----------|-----------|-----------|--|
| TEACHER VACANCIES OCCURRING AT THE BEGINNING OF THE SCHOOL YEAR                                 |           |           |           |  |
| Total number of classes at the start of the year  | 8         | 8         | 8         |  |
| Number of classes that lacked a permanently assigned teacher within the first 20 days of school | 0         | 0         | 0         |  |
| TEACHER VACANCIES OCCURRING DURING THE SCHOOL YEAR  |           |           |           |  |
| Number of classes where the permanently assigned teacher left during the year                   | 0         | 0         | 1         |  |
| Number of those classes where you replaced the absent teacher with a single new teacher         | 0         | 0         | 1         |  |
|   |           |           |           |  |

### NOTES:

There are two general circumstances that can lead to the unfortunate case of a classroom without a full-time, permanently assigned teacher. Within the first 20 days of the start of school, we can be surprised by too many students showing up for school or too few teachers showing up to teach. After school starts, however, teachers can also be surprised by sudden changes: family emergencies, injuries, accidents, etc. When that occurs, it is our school's and our district's responsibility to fill that teacher's vacancy with a qualified, full-time, and permanently assigned replacement. For that reason, we report teacher vacancies in two parts: at the start of school and after the start of school.

### **Teacher Misassignments**

A "misassigned" teacher is one who lacks the appropriate subject-area authorization for a class she is teaching. Under the terms of the Williams settlement, schools must inform the public of the number of their teachers who are misassigned. It is possible for a teacher who lacks the authorization for a subject to get special permission—in the form of an emergency permit, waiver, or internship authorization—from the school board or county office of education to teach the subject anyway. This permission prevents the teacher from being counted as misassigned.

| KEY FACTOR   | DESCRIPTION   | 2009-2010 | 2010-2011 | 2011-2012 |
|--|---|-----------|-----------|-----------|
| Teacher<br>Misassignments  | Total number of classes taught by teachers without a legally recognized certificate or credential   | 0         | 0         | 0         |
| Teacher<br>Misassignments in<br>Classes that Include<br>English Learners | Total number of classes that include English Learners and are taught by teachers without CLAD/BCLAD authorization, ELD or SDAIE training, or equivalent authorization from the California Commission on Teacher Credentialing | 4         | 2         | 1         |
| Other Employee<br>Misassignments   | Total number of service area placements of employees without the required credentials   | 0         | 0         | 0         |

### NOTES:

### Staff Development

Teachers take some time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. Here you'll see the amount of time we set aside for the past three years for their continuing education and professional development.

| YEAR      | PROFESSIONAL<br>DEVELOPMENT DAYS |
|-----------|----------------------------------|
| 2010–2011 | 3.00                             |
| 2009–2010 | 3.00                             |
| 2008–2009 | 3.00                             |

### **TEXTBOOKS**

The main fact about textbooks that the Williams legislation calls for described whether schools have enough books in core classes for all students. The law also asks districts to reveal whether those books are presenting what the California Content Standards call for.

All of our textbooks except for those in the following subject areas are the most recently approved by the State Board of Education or our Local Governing Agency:

This information was collected on 06/14/2011.

### **NOTES:**

| $\boxtimes$                 | Social Science         | $\boxtimes$  |                        |                      | 0%   |
|                             | Foreign Languages      |  |                        |                      |  |
|                             | Health                 |  |                        |                      |  |
| $\boxtimes$                 | Visual/Performing Arts |  |                        |                      | 0%   |

### Textbooks in Use

Here are some of the textbooks we use for our core courses.

| SUBJECT AND TITLE     | PUBLISHER | YEAR<br>ADOPTED |
|-----------------------|-----------|-----------------|
| ENGLISH/LANGUAGE ARTS |           |                 |
| N/A                   |           |                 |
| MATH                  |           |                 |
| N/A                   |           |                 |
| SCIENCE               |           |                 |
| N/A                   |           |                 |
| SOCIAL SCIENCE        |           |                 |
| N/A                   |           |                 |

### SCIENCE LABS

Many science courses require that students conduct experiments. This gives our students a chance to practice the scientific method, in effect, learning science by doing science. Those courses are what we call lab courses, and, of course, they require equipment and materials. The purpose of the Williams legislation is to inform citizens if our schools have the proper equipment, and enough of it, for students to succeed. This legislation only requires high schools to provide this information.

Please note that there is no state standard for equipping science labs. The next best authority we have to rely on is the policy of our own school board. So you'll see in our report whether our school board has voted to approve a standard for equipping our science labs. If you have further questions about the condition of our science labs, we recommend you speak with your child's science teacher directly.

This report was completed on 6/14/11.

**NOTES:** We do not offer science labs at College View.

| COURSE TITLE | DID THE DISTRICT ADOPT ANY<br>RESOLUTIONS TO DEFINE<br>"SUFFICIENCY"? | IS THERE A SUFFICIENT SUPPLY OF MATERIALS AND EQUIPMENT TO CONDUCT THE LABS? |
|--------------|---|--|
|              |   |  |

### **FACILITIES**

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

**INSPECTORS AND ADVISORS:** This report was completed on 03/08/2011 by Luie Hernandez. The most recent facilities inspection occurred on 12/20/2010.

**ADDITIONAL INSPECTORS:** There were no other inspectors used in the completion of this form.

| AREA                     | RATING    | REPAIR NEEDED AND ACTION TAKEN OR PLANNED |
|--------------------------|-----------|---|
|                          |           |   |

## SCHOOL FINANCES, 2009-2010

We are required by the California Dept. of Education to report financial data from the 2009–2010 school year. More recent financial data is available on request from the district office.

## Spending per Student

To make comparisons possible across schools and districts of varying sizes, we first report our overall spending per student. We base our calculations on our average daily attendance (ADA).

We've broken down expenditures by the type of funds used to pay for them. Unrestricted funds can be used for any lawful purpose. Restricted funds, however, must be spent for specific purposes set out by legal requirements or the donor. Examples include funding for instructional materials, economic impact aid, and teacher and principal training funds.

Next to the figures for the district and state averages, we show the percentage by which the school's spending varies from the district and state averages. For example, we calculate the school's variance from the district average using this formula:

## (SCHOOL AMOUNT – DISTRICT AVERAGE) DISTRICT AVERAGE

| TYPE OF FUNDS                   | OUR<br>SCHOOL | DISTRICT<br>AVERAGE | SCHOOL-TO-<br>DISTRICT<br>VARIANCE | STATE<br>AVERAGE | SCHOOL-<br>TO-STATE<br>VARIANCE |
|---------------------------------|---------------|---------------------|------------------------------------|------------------|---------------------------------|
| Unrestricted funds (\$/student) | \$0           | \$4,059             | -100%                              | \$5,513          | -100%                           |
| Restricted funds (\$/student)   | \$15,409      | \$1,684             | 815%                               | \$2,939          | 424%                            |
| Total (\$/student)              | \$15,409      | \$5,744             | 168%                               | \$8,452          | 82%                             |

#### Compensation for Staff with Teaching Credentials

To make comparisons possible across schools and districts of varying sizes, we report our compensation per full-time equivalent (FTE) certificated staff.\* A teacher/administrator/pupil services person who works full-time counts as 1.0 FTE. Those who work only half time count as 0.5 FTE.

| CERTIFICATED STAFF*              | OUR<br>SCHOOL | DISTRICT<br>AVERAGE | SCHOOL-TO-<br>DISTRICT<br>VARIANCE | STATE<br>AVERAGE | SCHOOL-<br>TO-STATE<br>VARIANCE |
|----------------------------------|---------------|---------------------|------------------------------------|------------------|---------------------------------|
| Salary (\$/certificated staff)   | \$62,498      | \$73,624            | -15%                               | \$71,246         | -12%                            |
| Benefits (\$/certificated staff) | \$17,786      | \$22,954            | -23%                               | \$16,062         | 11%                             |
| Total (\$/certificated staff)    | \$80,284      | \$96,578            | -17%                               | \$87,308         | -8%                             |

<sup>\*</sup> A certificated staff person is a school employee who is required by the state to hold teaching credentials, including full-time, part-time, substitute, or temporary teachers and most administrators.

## Data Almanac

This Data Almanac provides additional information about students, teachers, student performance, accountability, and district expenditures.

## STUDENTS AND TEACHERS

# Student Enrollment by Ethnicity and Other Characteristics

The ethnicity of our students, estimates of their family income and education level, their English fluency, and their learning-related disabilities.

| GROUP                            | ENROLLMENT |
|----------------------------------|------------|
| Number of students               | 127        |
| Black/African American           | 4%         |
| American Indian or Alaska Native | 0%         |
| Asian                            | 9%         |
| Filipino                         | 7%         |
| Hispanic or Latino               | 17%        |
| Pacific Islander                 | 0%         |
| White (not Hispanic)             | 63%        |
| Two or more races                | 0%         |
| Ethnicity not reported           | 0%         |
| Socioeconomically disadvantaged  | 29%        |
| English Learners                 | 54%        |
| Students with disabilities       | 91%        |

SOURCE: All but the last three lines are from the annual census, CALPADS, October 2010. Data about students who are socioeconomically disadvantaged, English Learners, or learning disabled come from the School Accountability Report Card unit of the California Department of Education.

# Student Enrollment by Grade Level

Number of students enrolled in each grade level at our school.

| GRADE LEVEL  | STUDENTS |
|--------------|----------|
| Kindergarten | 2        |
| Grade 1      | 4        |
| Grade 2      | 7        |
| Grade 3      | 5        |
| Grade 4      | 4        |
| Grade 5      | 7        |
| Grade 6      | 1        |
| Grade 7      | 2        |
| Grade 8      | 3        |
| Grade 9      | 4        |
| Grade 10     | 1        |
| Grade 11     | 8        |
| Grade 12     | 79       |

SOURCE: CALPADS, October 2010.

## **Physical Fitness**

Students in grades five, seven, and nine take the California Fitness Test each year. This test measures students' aerobic capacity, body composition, muscular strength, endurance, and flexibility using six different tests. The table shows the percentage of students at our school who scored within the "healthy fitness zone" on four, five, and all six tests. More information about physical fitness testing and standards is available on the CDE Web site.

|             | PERCENTAGE OF STUDENTS MEETING HEALTHY FITNESS ZONES |                          |                         |  |  |  |
|-------------|--|--------------------------|-------------------------|--|--|--|
| GRADE LEVEL | FOUR OF SIX<br>STANDARDS                             | FIVE OF SIX<br>STANDARDS | SIX OF SIX<br>STANDARDS |  |  |  |
| Grade 5     | N/A  | N/A                      | N/A                     |  |  |  |
| Grade 7     | N/A  | N/A                      | N/A                     |  |  |  |
| Grade 9     | N/A  | N/A                      | N/A                     |  |  |  |

SOURCE: Physical fitness test data is produced annually as schools test their students on the six Fitnessgram Standards. This information is from the 2010–2011 school year.

## **Suspensions and Expulsions**

At times we find it necessary to suspend students who break school rules. We report only suspensions in which students are sent home for a day or longer. We do not report in-school suspensions, in which students are removed from one or more classes during a single school day. Expulsion is the most serious consequence we can impose. Expelled students are removed from the school permanently and denied the opportunity to continue learning here.

During the 2010–2011 school year, we had no suspension incidents. We had no incidents of expulsion. To make it easy

| KEY FACTOR                   | OUR<br>SCHOOL | DISTRICT<br>AVERAGE | STATE<br>AVERAGE |
|------------------------------|---------------|---------------------|------------------|
| Suspensions per 100 students |               |                     |                  |

SOURCE: Data is from the Consolidated Application published by the California Department of Education. The numbers above are a ratio of suspension or expulsion events, per 100 students enrolled. District and state averages represent high schools only.

to compare our suspensions and expulsions to those of other schools, we represent these events as a ratio (incidents per 100 students) in this report. Please note that multiple incidents may involve the same student.

## **Teacher Credentials**

The number of teachers assigned to the school with a full credential and without a full credential, for both our school and the district. We also present three years' of data about the number of teachers who lacked the appropriate subject-area authorization for one or more classes they taught.

|                         |           | SCHOOL    |           |           |  |  |  |

## **STUDENT PERFORMANCE**

#### **California Standardized Testing and Reporting Program**

The California Standards Tests (CST) show how well students are doing in learning what the state content standards require. The CST include English/language arts, mathematics, science, and history/social science in grades nine through eleven. Student scores are reported as performance levels. We also include results from the California Modified Assessment and California Alternative Performance Assessment (CAPA).

#### STAR Test Results for All Students: Three-Year Comparison

The percentage of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most current three-year period.

#### **ACCOUNTABILITY**

## **California Academic Performance Index (API)**

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. APIs range from 200 to 1000, with a statewide target of 800. Detailed information about the API can be found on the CDE Web site at <a href="http://www.cde.ca.gov/ta/ac/ap/">http://www.cde.ca.gov/ta/ac/ap/</a>.

## **API Ranks: Three-Year Comparison**

The state assigns statewide and similar-schools API ranks for all schools. The API ranks range from 1 to 10. A statewide rank of 1 means that the school has an API in the lowest 10 percent of all high schools in the state, while a statewide rank of 10 means that the school has an API in the highest 10 percent of all high schools in the state. The similar-schools API rank reflects how a school compares with 100 statistically matched schools that have similar teachers and students.

| API RANK             | 2008–2009 | 2009–2010 | 2010–2011 |
|----------------------|-----------|-----------|-----------|
| Statewide rank       | N/A       | N/A       | N/A       |
| Similar-schools rank | N/A       | N/A       | N/A       |

SOURCE: The API Base Report from December 2011.

## **API Changes by Subgroup: Three-Year Comparison**

API changes for all students and student subgroups: the actual API changes in points added or lost for the past three years, and the most recent API. Note: "N/A" means that the student group is not numerically significant.

|                                  | ACTUAL API CHANGE |           |           | API       |
|----------------------------------|-------------------|-----------|-----------|-----------|
| SUBGROUP                         | 2008–2009         | 2009–2010 | 2010–2011 | 2010–2011 |
| All students at the school       | +159              | -23       | -2        | 709       |
| Black/African American           | N/A               | N/A       | N/A       | N/A       |
| American Indian or Alaska Native | N/A               | N/A       | N/A       | N/A       |
| Asian                            | N/A               | N/A       | N/A       | N/A       |
| Filipino                         | N/A               | N/A       | N/A       | N/A       |
| Hispanic or Latino               | N/A               | N/A       | N/A       | N/A       |
| Pacific Islander                 | N/A               | N/A       | N/A       | N/A       |
| White (non Hispanic)             | N/A               | N/A       | +34       | 714       |

## Federal Adequate Yearly Progress (AYP) and Intervention Programs

The federal law known as No Child Left Behind requires that all schools and districts meet all four of the following criteria in order to attain Adequate Yearly Progress (AYP):

- (a) a 95-percent participation rate on the state's tests
- (b) a CDE-mandated percentage of students scoring Proficient or higher on the English/language arts and mathematics tests (c) an API of at least 710 or growth of at least one point
- (d) the graduation rate for the graduating class must be higher than 90 percent (or satisfy alternate improvement criteria).

#### **AYP for the District**

Whether the district met the federal requirement for AYP overall, and whether the district met each of the AYP criteria.

| AYP CRITERIA                                | DISTRICT |
|---|----------|
| Overall                                     | No       |
| Graduation rate                             | Yes      |
| Participation rate in English/language arts | Yes      |
| Participation rate in mathematics           | Yes      |
| Percent Proficient in English/language arts | No       |
| Percent Proficient in mathematics           | No       |
| Met Academic Performance Index (API)        | Yes      |

SOURCE: The AYP Report as released in the Accountability Progress Report in December 2011.

#### **Intervention Program: District Program Improvement (PI)**

Districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/language arts or mathematics) and for each grade span or on the same indicator (API or graduation rate). After entering PI, districts advance to the next level of intervention with each additional year that they do not make AYP.

| INDICATOR                             | DISTRICT |
|---------------------------------------|----------|
| PI stage                              | 1 of 3   |
| The year the district entered PI      | 2011     |
| Number of schools currently in PI     | 11       |
| Percentage of schools currently in PI | 34%      |

#### **DISTRICT EXPENDITURES**

According to the CDE, "State certification/release dates for fiscal data occur in middle to late spring, precluding the inclusion of 2010–11 data in most cases. Therefore, 2009–10 data are used for report cards prepared during 2011–12."

Total expenses include only the costs related to direct educational services to students. This figure does not include food services, land acquisition, new construction, and other expenditures unrelated to core educational purposes. The expenses-per-student figure is calculated by dividing total expenses by the district's average daily attendance (ADA). More information is available on the CDE's Web site.

| CATEGORY OF EXPENSE   | OUR DISTRICT  | SIMILAR DISTRICTS | ALL DISTRICTS |
|-----------------------|---------------|-------------------|---------------|
| FISCAL YEAR 2009–2010 |               |                   |               |
| Total expenses        | \$212,092,576 | N/A               | N/A           |
| Expenses per student  | \$8,325       | \$8,543           | \$8,452       |
| FISCAL YEAR 2008–2009 |               |                   |               |
| Total expenses        | \$217,571,164 | N/A               | N/A           |
| Expenses per student  | \$8,471       | \$8,823           | \$8,736       |

#### **District Salaries, 2009–2010**

This table reports the salaries of teachers and administrators in our district for the 2009–2010 school year. This table compares our average salaries with those in districts like ours, based on both enrollment and the grade level of our students. In addition, we report the percentage of our district's total budget dedicated to teachers' and administrators' salaries. The costs of health insurance, pensions, and other indirect compensation are not included.

| SALARY INFORMATION                                | DISTRICT<br>AVERAGE | STATE<br>AVERAGE |
|---|---------------------|------------------|
| Beginning teacher's salary                        | \$42,451            | \$42,017         |
| Midrange teacher's salary                         | \$65,170            | \$67,294         |
| Highest-paid teacher's salary                     | \$88,157            | \$86,776         |
| Average principal's salary (high school)          | \$130,744           | \$123,331        |
| Superintendent's salary                           | \$286,847           | \$226,417        |
| Percentage of budget for teachers' salaries       | 41%                 | 38%              |
| Percentage of budget for administrators' salaries | 5%                  | 5%               |

#### SCHOOL COMPLETION AND PREPARATION FOR COLLEGE

#### **Dropout Rate and Graduation Rate**

The dropout rate is an estimate of the percentage of all students who drop out before the end of the school year (one-year rate). Graduation rate is an estimate of the four-year completion rate for all students.

| KEY FACTOR                  | SCHOOL | DISTRICT | STATE |
|-----------------------------|--------|----------|-------|
| Dropout rate (one-year)     |        |          |       |
| 2009–2010                   | 24%    | 2%       | 3%    |
| 2008–2009                   | 28%    | 2%       | 4%    |
| 2007–2008                   | 3%     | 2%       | 3%    |
| Graduation rate (four-year) |        |          |       |
| 2009–2010                   | N/A    | 95%      | 86%   |
| 2008–2009                   | 32%    | 95%      | 84%   |
| 2007–2008                   | 80%    | 94%      | 86%   |

SOURCE: CALPADS, October 2010. District and state averages represent high schools only.

## Courses Required for Admission to the University of California or California State University Systems

Percentage of students enrolled in the A-G courses required for admission to the University of California (UC) or California State University (CSU).

| KEY FACTOR   | SCHOOL | DISTRICT | STATE |
|--|--------|----------|-------|
| Percentage of students enrolled in courses required for UC/CSU admission                           | 0%     | 74%      | 65%   |
| Percentage of graduates from class of 2010 who completed all courses required for UC/CSU admission | N/A    | 50%      | 39%   |

SOURCE: CALPADS, October 2010, for the class of 2010. District and state averages represent high schools only.

#### **College Entrance Exam Reasoning Test (SAT)**

The percentage of twelfth grade students (seniors) who voluntarily take the SAT Reasoning Test to apply to college, and the average critical reading, math, and writing scores of those students.

| KEY FACTOR                           | 2007–2008 | 2008–2009 | 2009–2010 |
|--------------------------------------|-----------|-----------|-----------|
| Percentage of seniors taking the SAT | N/A       | N/A       | N/A       |
| Average critical reading score       | N/A       | N/A       | N/A       |
| Average math score                   | N/A       | N/A       | N/A       |
| Average writing score                | N/A       | N/A       | N/A       |

SOURCE: Original data from the College Board, for the class of 2010, and republished by the California Department of Education. To protect student privacy, scores are not shown when the number of students tested is fewer than 11.
