

Counseling Appointments

The Career Education (CE) counselors at Glendale Community College (GCC) are here for you! CE counselors can assist you with questions about what courses to take with GCC, which major is the right fit for you, creating an education plan, what you can do with an articulated course you've completed, what dual enrollment is, what your career options are, how to create or update your resume and much more!

Use the QR codes or the website links below to book a 30 minute 1-on-1 appointment with one of GCC's CE counselors. Counselors are available for appointments throughout the week. If you are unable to find a time that works for you in the upcoming weeks, reach out to one of GCC's CE counselors to figure out another time that might work.
