Preschool/Early Childhood Education

The Board of Education recognizes the value of high-quality preschool experiences to enhance children's social-emotional development, knowledge, skills, and abilities. The Board desires to provide a supervised, and cognitively rich environment designed to facilitate the transition to kindergarten for three- and four- year old children.

The Superintendent or designee shall collaborate with the local child care and development planning council, the county office of education, other public agencies, organizations, and/or private preschool providers to assess the availability of preschool programs in the community and the extent to which the community's preschool needs are being met. The Board encourages the development of a comprehensive districtwide and/or countywide plan to increase children's access to high-quality preschool programs.

The Superintendent or designee shall provide information about preschool options in the community to parents/guardians upon request.

To receive preschool services, a child and the child's parent(s)/guardian(s) shall be required to provide evidence of residency in California. However, any person identified as experiencing homelessness shall only be required to submit a declaration that the person resides in California. (5 CCR 17745)

Preschool eligibility determinations shall be made without regard to a child's immigration status or that of the child's parent(s)/guardian(s) unless the child or the child's parent(s)/guardian(s) are under a final order of deportation from the United States Department of Homeland Security. (5 CCR 17745)

A. District Preschool Programs

When the Board determines it is feasible, the District may contract with the California Department of Education (CDE) to provide preschool services in facilities at or near District schools, either directly or through a subcontract with a public or private provider.

District preschool programs shall comply with all health and safety laws and regulations, including, when applicable, licensure requirements pursuant to 22 CCR 101156.

The Board shall approve, for the District's preschool program, a written philosophical statement, goals, and objectives that reflect the cultural and linguistic characteristics of the families to be served and address the program components specified in 5 CCR 17701-

Preschool classroom needs shall be addressed in the District's facilities master plan, including an assessment as to whether adequate and appropriate space exists on school sites. As necessary, the Superintendent or designee shall provide information to the Board regarding facilities financing options for preschool classroom and/or facilities available through partnering organizations or agencies.

Because parents/guardians are essential partners in supporting the development of their children, the Superintendent or designee shall involve them in program planning.

The Superintendent or designee shall coordinate the District's preschool program, transitional kindergarten program (TK), and elementary education program to provide a developmental continuum that builds upon children's growing skills and knowledge.

A child's eligibility for TK enrollment shall not impact family eligibility for a preschool or child care program. (Education Code 8205, 48000)

The District's program shall be aligned with the preschool learning foundations and curriculum frameworks developed by the CDE which identify the knowledge, skills, and competencies that children typically attain as they complete their first or second year of preschool. The program shall be designed to facilitate children's development in essential skills related to language and literacy, mathematics, physical development, health, visual and performing arts, science, history-social science, English language development, and social-emotional development.

The Superintendent or designee shall identify dual language learners in District preschool programs, and shall collect and report related data to CDE as required by Education Code 8241.5. The District's preschool program shall include activities and services that meet the needs of dual language learners for support in the development of their home language and English. (CCR 17743; 22 CCR 101218.1)
