

**FUND RAISING BY BOOSTER ORGANIZATIONS**

The Gore Board of Education recognizes the importance of booster organizations in fostering the community school relationship.

The district also recognizes that from time to time these organizations hold fund raising events. All funds raised during these events shall remain the property of the booster organization. If the organization donates funds or property to the district, such funds or property will-lose its organization identity. For planning purposes, the organization will advise the superintendent at the beginning of the school year of its intention to conduct a fund raising activity subject to board approval.

In the event a booster organization fails to form and elect officers for anyone year, any funds in that booster account shall become transferred to that student organization's activity account or the athletic account.
