

**STUDENT TRANSFERS
(REGULATION)**

The rapid growth of the Gore Public Schools has made it extremely difficult to provide adequate classroom facilities for all the students in the district. As a result of this rapid growth, it has become necessary to restrict the number of transfers into the district beginning with the 2014 school year.

1. Beginning with the 2014 school year, student transfers will be granted only to those students who received a regular or emergency transfer for the previous school year or if adequate space is available. Students who received a transfer during the previous school year will be allowed to continue their formal education until graduation or until they have a break in tenure with the schools.
2. Parents who have been granted a transfer to a school age child during the previous school year will be allowed to receive a transfer for a younger child that is not of school age if the non-school age child was listed on the transferred child's transfer form. This is an effort to maintain family integrity.
3. Transfer forms will be initiated by the office of the superintendent for those parents or guardians who have a transfer on file for a school age child. No other transfers will be granted to school age children living outside the legal boundaries of the school district beginning with the 2014 school year.
4. School age children who have been legal residents of the school district and have attended three consecutive years during the time of legal residency will be eligible for a transfer into the district should the parent(s) or guardian(s) relocate outside the legal boundaries.
5. Parents or guardians who seek a transfer from outside the legal boundaries of the school district are responsible for the student's transportation needs or cost.
6. This policy does not affect student transfers for those students who legally reside in the district but who want to transfer to another school in the district.
7. A student who resides in the district but wishes to attend a school in another school district will not be affected by this policy.
8. Notwithstanding the above, employees of this school system will be given the opportunity to transfer their children into this district if they live outside the school district boundaries.
