

# HARTSELLE INTERMEDIATE SCHOOL ROBOTICS AND DRONE COMPEITION TEAMS

## SPONSOR INFORMATION

Who We Are

Hartselle Intermediate School Competes in VEX VIQRC Competitions. This year, our challenge is Rapid Relay! We are looking for sponsors to help us support our journey to multiple competitions which will hopefully include State and Worlds! Our program is growing rapidly and includes both 5th and 6th grade teams.

In addition to expanding our robotics program, we are adding drone compeitions as well! Students will work as a team to fly a drone and navigate this year's course. At one point the pilot will have to fly the drone based solely on the spotter's instructions - they won't be able to see the drone themselves!

### What Will Sponsorship Money Be Used For?

- New Parts/Equipment
  - New parts specifically for this competition
  - Parts that have worn out and need replacing
  - Additional parts needed to build/design highly competitive robots
  - Additional parts needed to support our expanding program and ensure all teams have access to the parts they need
- Travel Costs (Bus, Driver, etc.)
- Event Registration Fees

### Why Support Us?

- Robotics is a combination of teamwork, problem solving, critical thinking, and engineering concepts.
- Robotics is completely student centered. Students design, build, and code their own robots.
- Many students that compete in robotics end up pursuing careers in Engineering.
- The use of drones in professional settings is continuing to grow and expand rapidly.

### What Can We Offer In Return?

- Sponsors of \$50 or more will have a small logo (approx. 1/2 of a sheet of paper) appear on our "Sponsor Wall of Fame" at the competition we plan to host this school year.
- Bronze Sponsors (\$500 or more) will have their logo or name displayed on the Sponsor Wall of Fame (full sheet) and have a small logo/name listed on the HIS Robotics Website.
- Silver Sponsor (\$1,000 or more) will receive...
  - a full size logo/name on the Sponsor Wall of Fame
  - be mentioned on all official communication sent out to teams attending the competition
  - will have their logo on all printed material at the compeition we plan to host
  - will be listed on the HIS Robotics Website as a sponsor
  - a thank you post mentioning you as a sponsor on the HIS Facebook page.
- Gold Sponsors (\$2,500 or more) will receive...
  - all benefits for Silver
  - PLUS a large banner displayed at the competition.
- Gold sponsors will be announced at the competition. If they would like to send a representative to attend our event, we will also ask the representative to stand in recognition as well. If gold sponsors would like to speak at the event, we can offer a 10 minute time slot.

Sponsorships/Donations can be made directly on our [MySchoolBucks](#) HIS Robotics Donation Link or by using the QR code to the right. Please reach out the Cheyenne Moses at [cheyenne.moses@hartselletigers.org](mailto:cheyenne.moses@hartselletigers.org) with any questions about sponsorship!
