#### INDEPENDENT AUDITOR'S REPORT

State Committee for School District Audits Members of the Board of Education Hopkins County School District Madisonville, Kentucky

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hopkins County School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Hopkins County School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements prescribed by the Kentucky State Committee for School District Audits' Fiscal Year 2020-2021 Financial Audit Contract. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hopkins County School District as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension schedules, and OPEB schedules on pages 3 through 7 and pages 54 through 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hopkins County School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements/schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements/schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 12, 2021, on our consideration of the Hopkins County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Hopkins County School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Hopkins County School District's internal control over financial reporting and compliance.

## Amy Smith, Superintendent MANAGEMENT DISCUSSION & ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2021

#### FINANCIAL HIGHLIGHTS

- ➤ The 2020-2021 school year started during the COVID-19 global pandemic with a variable school calendar start date for students of August 26, 2020. The Hopkins County Board of Education responded to challenges by offering in-person, remote, and hybrid model learning. The financial impact of COVID-19 to the school system is unpredictable and outside the control of the District.
- The General Fund had \$58.6 million in revenue, which primarily consisted of SEEK (State Funding), property and motor vehicle taxes, and on-behalf revenue reported for payments made from the state in the name of the school district. There were \$56.2 million in General Fund expenditures.
- On September 21, 2020, the Board of Education approved to keep the property tax rate the same as the previous year at 68.2 cents per \$100 of assessed value for real property and 68.2 cents for personal property for fiscal year 2021. The rate generated an increase of \$770,310 in tax revenue compared to fiscal year 2020. General property tax revenue increased \$422,983, contributing to the largest percentage of change.
- > The Board completed various building and ground projects including Madisonville North Hopkins High School tennis courts, the demolition of the old Career and Technology Center, and new cooling towers at Grapevine Elementary and James Madison Middle School. The new Bus Driver Training Center and Browning Springs Middle School Field House was in the final stages at the end of the year, and the construction of the new Hanson Elementary School continued.
- > The District worked with Huron Consulting Services, Studer Education by developing district scorecards and action plans. Information was gathered and analyzed for district and school level improvement based off a series of surveys involving parents, employees, and students.
- ➤ In October 2020, the Board of Education approved the purchase of four new school buses and in March 2021, four older buses were declared as surplus property and sold through KISTA.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components:

#### 1. Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad review of the District's finances, in a manner similar to private-sector business. Government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities) such as fixed assets and related debt. Governmental activities of the District include instruction, support services, operation and maintenance of facilities, student transportation and operation of non-instructional services.

The Statement of Net Position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

#### 2. Fund Financial Statements

A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS accounting software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Funds of the districts may be divided into three categories:

**Fiduciary funds** - trust funds established by benefactors to aid in student education, welfare and teacher support.

**Proprietary funds** - child care and food service operations are the district's only proprietary funds.

Governmental funds - all other activities in the District are included in the governmental funds.

#### 3. Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$2,944,856 as of June 30, 2021. This is an improvement of \$2,374,696 compared to 2020.

The largest portion of the District's net position is reflected in the investment in capital assets (e.g. land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. Included in the financials for June 30, 2021, is the district's liability for the net pension obligation and the liability for other postemployment benefits.

#### COMMENTS ON BUDGET COMPARISONS

The difference between the original and final budget figures occurred due to:

- 1. Staffing adjustments were made based off Board policy and student enrollment.
- 2. The budget for instructional staff support and district administrative support services was increased due to step up in years of service.
- 3. The budget for district employee benefits was adjusted based on the change in employer portion of benefits, including retirement.
- 4. Due to an uncertainty of revenue adjustments from the State related to grant funds and rising pension issues, the District adopts a very conservative approach to budgeting revenues.
- 5. All Kentucky school districts received CARES Act SEEK Coronavirus Relief Funds in 2020-21. The allocation for Hopkins County was \$1.4 million. The funds were used to reserve general fund operating expenditures, and were not included in the budget process.
- 6. Board policy requires a working budget that includes a minimum reserve of 2%. The 2020-2021 working budget had a general fund contingency set at 7% in the amount of \$5 million.

The following presents a summary of revenue and expenditures for the fiscal year ended June 30, 2021.

#### GENERAL FUND REVENUE

Total General Fund revenues are \$58,556,640. The majority of revenue was derived from State Funding of \$39,217,631 or 67%, Local Funding makes up \$19,251,947 or 33%, and other revenues of \$87,062 are less than 1%. Compared to prior year, Local Funding took a significant decline by \$448,059. SEEK (Support Education Excellence in Kentucky) funding decreased by \$3,572,159 compared to 2020. Due to the COVID-19 pandemic, Hopkins County School received an allocation of federal Coronavirus Relief Funds to reduce any anticipated revenue shortfall for FY 2021.

#### GENERAL FUND EXPENDITURES

Expenditures for general fund totaled \$56,227,245. Approximately 82% of the expenditures were for instruction and administration, some of which was directed by the Site Based Decision Making Councils. Plant operation and maintenance make up 11% of General Fund expenditures and transportation is the remaining 7%.

#### SCHOOL ALLOCATION

Regular instruction accounts for approximately 77% of the school level expenditures. School level expenditures include instruction, student support, instruction support staff, district administration, and school administration. Total instructional expenses are \$43,658,281.

#### DISTRICT SUPPORT SERVICES ALLOCATION

The central support services expenditures include Transportation \$3,631,510, Maintenance and Operation \$6,395,647, and District Administrative and Business Functions \$2,498,868.

#### FUND BALANCE

Beginning fund balance was \$11,161,054, Revenues equaled \$58,556,640, Expenditures were \$56,227,245, and other funding sources (uses) of \$(106,987) totaled to a net change in fund balance of \$2,222,408. This reflects an ending fund balance for Fiscal Year 2020-2021 of \$13,383,462.

#### **BUSINESS TYPE ACTIVITIES**

Food Services ended the year with Total Assets and Deferred Outflows of \$2,749,025 and Total Liabilities and Deferred Inflows of \$5,186,575, which left them with Total Net Position of \$(2,437,550). This negative Net Position is from the recognition of net pension liability of \$3,467,448 required under GASB 68 and OPEB liability of \$1,091,335 required by GASB 75. The Food Service Fund had Total Operating Revenues of \$34,340. This lower operating revenue is related to participation in the Community Eligibility Program for all Hopkins County School children. The offsetting increase in revenue is found under Total Non-operating Revenues, which includes Federal and State Grants amounting to \$2,966,244. Food Service revenue declined \$1.5 million compared to prior year due to the COVID-19 pandemic. Hopkins County Schools made it a priority during this time to feed children in all learning environments.

#### OTHER FUNDS

The Special Revenue Grant Fund contains all of the state and federal grants. There was an increase in revenue for the Special Revenue Fund of \$3,396,435 compared to prior year. FSPK Fund and Capital Outlay Fund are the restricted building funds and serve as the cash source of our bond payments and major building renovations. Construction Fund serves as the accounting record that contains and manages all building and improvement projects. Debt Service fund accumulates and records the bond payments of principal and interest for the fiscal year. Child Care is the fund that manages our daycare and after school operations. One elementary school operates a child care program, and one operates an afterschool program. They are self-supporting and any profits are used at the child care center to fund instructional supplies and personnel.

#### **BUDGETARY IMPLICATIONS**

Kentucky public schools' fiscal year is July 1-June 30. Some federal programs operate on a different fiscal calendar, but are reflected in the district overall budget. Significant issues that will change the future of Hopkins County Schools include the COVID-19 pandemic, pensions, postemployment benefits, and potential State funding cuts. Questions regarding this report should be directed to Amy Smith, Superintendent or Eydie L. Tate, Chief Financial Officer (270) 825-6000 or by mail at 320 South Seminary Street, Madisonville, KY 4243I

#### NOTES TO FINANCIAL STATEMENTS

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 1. Reporting Entity

The Hopkins County Board of Education (Board), a five member group, is a level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Hopkins County School District (District). The Board receives funding from Local, State and Federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not included in any other governmental reporting entity, as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies which may influence operations and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds and account groups relevant to the operation of the Hopkins County Board of Education. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the Board itself such as Band Boosters, Parent-Teacher Associations, etc.

These financial statements present the District and its component units, entities for which the District entity is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the governmental entity's operations and so data from these units would be combined with data of the primary governmental entity. The Hopkins County School District has one blended component unit.

**Blended Component Unit:** 

<u>Hopkins County School District Finance Corporation</u> - In 1989, the Hopkins County, Kentucky, Board of Education resolved to authorize the establishment of the Hopkins County School District Finance Corporation (a nonprofit, nonstock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.180) as an agency of the Board for financing the costs of school building facilities. The Board Members of the Hopkins County Board of Education also comprise the Corporation's Board of Directors.

There are no audited financial statements issued separately for this component unit.

#### 2. Summary of Significant Accounting Policies

#### (a) Basis of Presentation

Government-wide Financial Statements – The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The effect of interfund activity has been substantially removed from these statements.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation, with brief explanations, to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for by using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in the fund balance.

The proprietary fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in retained earnings. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, those revenues are primarily charges for meals provided by the various schools. All revenues not meeting this definition are reported as nonoperating revenues. The District applies all applicable FASB pronouncements in accounting and reporting for its proprietary operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District had the following funds:

#### Governmental Fund Types

- The General Fund is the main operating fund of the Board. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any fund balances are considered as resources available for use. This is a major fund of the District.
- The Special Revenue (Grant) Funds account for proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes.
  - a) The Special Revenue (Grant) Fund accounts for proceeds of federal, state and local grants that are legally restricted to disbursements for specified purposes. Unused balances are returned to the grantor at the close of the specified project periods. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally-funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major fund of the District.
  - b) The District Activity Fund is used to account for funds to support co-curricular and extracurricular activities not raised or expended by student groups.
  - c) The School Activity Fund is used to account for funds raised and expended by student groups to support co-curricular and extra-curricular activities at the schools. These funds are accounted for in accordance with the Uniform Program of Accounting for School Activity Funds.
- 3) Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by a proprietary fund)

#### 2. Summary of Significant Accounting Policies, continued

#### (a) Basis of Presentation, continued

- a) The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as capital outlay funds and is restricted for use in financing projects identified in the District's facility plan and for the corresponding debt service.
- (b) The Facility Support Program of Kentucky (FSPK) Fund accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan and for the corresponding debt service.
- (c) The Construction Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction. This is a major fund of the District.
- 4) The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs; and for the payment of interest on general obligation notes payable, as required by Kentucky Law.

#### Proprietary Fund Type

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the Board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The District has two enterprise funds: the School Food Service Fund and the Child Care Fund.

- The School Food Service Fund is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U.S. Department of Agriculture (USDA). Amounts have been recorded for in-kind contribution of commodities from the USDA. The School Food Service Fund is a major fund.
- 2) The Child Care Fund is used to account for child care activities in its three licensed child care centers.

#### Fiduciary Fund Types

Fiduciary Funds account for assets held by the District in a trustee capacity (trust funds) or as an agent on behalf of others (agency funds). The Private Purpose Trust Fund is used to account for one separate scholarship- the Mary Florence Long Scholarship. All resources of this fund may be used to award scholarships in the areas specified in the trust arrangements.

The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. This fund is used to account for assets that the government holds for others in an agency capacity. The District has no agency funds.

#### (b) Basis of Accounting

The government-wide financial statements, as well as the proprietary fund and fiduciary fund financial statements, are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### NOTES TO FINANCIAL STATEMENTS

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 2. Summary of Significant Accounting Policies, continued

#### (b) Basis of Accounting, continued

Governmental fund financial statements are reported using the modified accrual basis of accounting, whereby revenues are recognized when they become both measurable and available. Revenues are considered to be "available" when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Expenditures are generally recognized when the related liability is incurred.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include; (1) timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, (2) matching requirements, in which the District must provide local resources to be used for a specified purpose, and (3) expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from nonexchange transactions must also be available before they can be recognized.

#### (c) Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. A capitalization threshold applies to tangible property costing \$5,000 or more and has a useful life of more than one (1) year, all computers regardless of value, and theft sensitive items that maybe identified by the District. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

Description	Estimated Lives
Buildings and improvements	25-50 years
Land improvements	20 years
Technology equipment	5 years
Vehicles	5-10 years
Food service equipment	10-12 years
Furniture and fixtures	7 years
Other	10 years

#### (d) Cash and Cash Equivalents/Restricted Cash/Investments

The Board considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents. Cash is restricted in the capital projects funds per state

#### (d) Cash and Cash Equivalents/Restricted Cash/Investments, continued

requirements, in debt service funds per debt agreements and in the District Activity Fund and Student Activity Fund per fund requirements. (See Notes 4 and 5)

Cash balances of the District's funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to the various funds based on the fund's average cash balance. Funds with negative cash balances are not charged interest.

As security for deposits of the District, any bank doing such business is required to pledge securities in an amount to exceed funds on deposit by the District. In addition, the District's accounts are insured, subject to FDIC and NCUSIF coverage terms and limitations. (See Note 4)

State statutes authorize the District to invest in obligations of the U.S. Treasury, U.S. Agencies, certain federal instruments, commercial bank's certificates of deposit savings and loan deposits, repurchase agreements, and the Commonwealth of Kentucky Investment Pool.

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments, which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The district does not have any investments that are measured using Level 1, Level 2 or Level 3 inputs.

#### (e) Accounts Receivable

An allowance for doubtful accounts is provided for accounts receivable in the Food Service Fund. Accounts receivable are reported net of this allowance, which was \$1,360 as of June 30, 2021.

#### (f) Inventories/Commodities

Supplies and materials are charged to expenditures when purchased at the fund statement level, with the exception of the proprietary funds, which records inventory using the accrual basis of accounting. Similarly, due to the economic resources measurement focus, bus garage supply inventories are reported as an asset on the District-wide Statement of Net Position. Inventories are valued at cost or at their estimated fair value at the date of donation, using the first-in, first-out method. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses, and changes in net position as an expense with a like amount reported as donated commodities revenue. For the purposes of the statement of cash flows, a federal grant received does not include noncash commodities received in the amount of \$146,973.

#### **NOTES TO FINANCIAL STATEMENTS**

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 2. Summary of Significant Accounting Policies, continued

#### (g) Accrued Liabilities/Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. Bond discounts and premiums are netted against the bond principal and are amortized on a straight-line basis over the life of the bonds.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, accumulated sick leave, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

#### (h) Net Position and Fund Balance

#### **District-Wide Financial Statements**

Net position on the Statement of Net Position include the following:

Net Investment in Capital Assets – The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Capital Projects/Debt Service – The components of net position that report the financial resources restricted to pay for construction activities (capital projects) or related debt service.

Restricted Other Purposes – The component of net position that is restricted for other purposes.

Unrestricted – The difference between the assets and liabilities that is not reported in Net Investment in Capital Assets or Net Position Restricted for Capital Projects/Debt Service.

#### Governmental Fund Financial Statements

In July 2010, the District adopted Statement of Governmental Accounting standards No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. Accordingly, in the fund financial statements, governmental funds report fund balances as nonspendable, restricted, committed, assigned, or unassigned fund balance. Also, the District has established the order of assigned, committed and restricted when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Nonspendable fund balances are those amounts that cannot be spent because they are either: (1) generally, amounts that are not expected to be converted to cash, such as inventories or prepaid amounts or (2) amounts that are required to be maintained intact, such as the principal of a permanent fund. The nonspendable fund balance is \$22,624 as of June 30, 2021.

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

#### **NOTES TO FINANCIAL STATEMENTS**

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 2. Summary of Significant Accounting Policies, continued

#### (h) Net Position and Fund Balance, continued

Committed fund balances are those amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, which, for the District is the Board of Education. The Board of Education must approve by majority vote the establishment (and modification or rescinding) of a fund balance commitment.

Assigned fund balances are those amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. The Board of Education allows program supervisors to complete purchase orders which results in the encumbrance of funds. Assigned fund balance also includes (a) all remaining amounts (except for negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed and (b) amounts in the general fund that are intended to be used for a specific purpose.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

#### (i) Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and as nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### (j) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### (k) Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue.

#### (I) Compensated Absences (Accrued Sick Leave)

The Hopkins County School District allows employees to accumulate and carry over sick days from year to year. The amount of total days that may be carried over from year to year is unlimited. Upon retirement from the school system, employees will receive an amount up to thirty percent (30%) of the value of

#### **NOTES TO FINANCIAL STATEMENTS**

#### 2. Summary of Significant Accounting Policies, continued

#### (I) Compensated Absences (Accrued Sick Leave), continued

accumulated sick leave. Sick leave benefits are accrued as a liability using the vesting method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. It is deemed probable that benefits will be paid to employees with more than twenty years of experience. Separation of employment for any reason other than retirement results in the employee forfeiting all accumulated sick and personal leave.

The entire accrued sick leave liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of accrued sick leave is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "accrued sick leave" in the general fund. The noncurrent portion of the liability is not reported.

#### (m) Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of materials or services. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances at year-end are re-appropriated in the next year. An assignment of fund balance equal to outstanding encumbrances is provided for at each year-end. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying combined financial statements.

#### (n) Bonds and Related Premiums, Discounts, and Issuance Costs

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premiums or discounts. Bond issuance costs are expensed when bonds are issued. In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Discounts related to debt issuance are reported as other financing uses. Issuance costs are reported as debt service expenditures.

#### (o) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System Non-Hazardous ("CERS") and Teachers Retirement System of the State of Kentucky ("TRS") and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the pensions. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Plan investments are reported at fair value.

#### (p) Other Postemployment Benefits-(OPEB)

For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County Employees Retirement System Non-Hazardous ("CERS") and Teachers' Retirement System of the State of Kentucky ("TRS") and additions to/deductions from CER's and TRS's fiduciary net position have been determined on the same basis as they are reported by CERS and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

#### **NOTES TO FINANCIAL STATEMENTS**

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 2. Summary of Significant Accounting Policies, continued

#### (q) Deferred Outflows of Resources and Deferred Inflows of Resources

#### **Deferred Outflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then.

Deferred outflows related to pensions and OPEB are reported in the statement of net position. A deferred outflow from pension's and OPEB's results from System contributions made subsequent to the measurement date, difference between expected and actual experience, net difference between projected and actual investment earnings on pension and OPEB plan investments, changes of assumptions, and changes in proportion and differences between employer contributions and proportionate share of contributions. This amount from System contributions made subsequent to the measurement date are deferred and will be recognized as a reduction of net pension liability and net OPEB liability in the year ending June 30, 2021. The other components of deferred outflows are deferred and will be recognized as a reduction of pension and OPEB expense over the next several years.

Deferred outflows from a bond refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

#### **Deferred Inflows of Resources**

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows related to pensions and OPEB are reported in the statement of net position. A deferred inflow from pension's and OPEB's results from net differences between expected and actual earnings on pension and OPEB plan investments and the changes in proportions in differences between employer contributions and proportionate share of contributions. This amount is deferred and will be recognized as a reduction of pension and OPEB expense over the next several years.

#### (r) Prepaid Expenses

Payments made that will benefit periods beyond June 30, 2021 are recorded as prepaid expenses using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which the services are consumed.

#### (s) Recently Issued Accounting Standards

The following recently issued accounting standards are expected to impact the financial statements of the District in future periods:

GASBS No. 87 Leases

In June of 2017, the GASB issued Statement No. 87 to improve accounting and financial reporting for leases by governments, by establishing standards for leases that previously were classified as operating leases. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset, thus requiring lessees to recognize a lease liability and an intangible right-to-use lease asset, and lessors to recognize a lease receivable and a deferred inflow of resources. The Statement is effective for reporting periods beginning after June 15, 2021. The District is currently evaluating the impact that the standard will have on its financial statements.

#### (t) New Accounting Guidance

During the fiscal year June 30, 2021, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 84 – Fiduciary Activities. GASB Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with who a fiduciary relationship exists. The implementation of GASB Statement No. 84 required the District to reclassify their fiduciary Trust and Agency fund to special revenue funds (See Note 22).

#### 3. Property Taxes

Property taxes collected are recorded as revenues in the Fund for which they were levied. Each year, property taxes are levied on October 1, based on assessments as of January 1 prepared by the Hopkins County property valuation administrator. The taxes are payable on November 1. The tax rates placed in effect are 68.2 cents per \$100 of assessed valuation on real estate and 68.2 cents on personal property, of which 5.8 cents is for participation in the Facility Support Program, and 54.7 cents per \$100 of assessed valuation on motor vehicles.

#### 4. Deposits and Investments

At June 30, 2021, the carrying amount of the District's deposits was \$38,653,299 and the bank balance was \$40,176,050. Of the bank balances, \$967,469 was insured by federal depository insurance, \$39,193,090 was covered by collateral held by the pledging bank's agent and \$15,491 was federally insured by the National Credit Insurance Fund.

The District's deposits at June 30, 2021 consisted of the following:

Less: Amount representing interest	(19,877)
Present Value of Net Minimum Lease Payments	\$ 225,179

#### 9. Defined Contribution Plans

The District makes available various 401(k) and 403(b) defined contribution pension plans for all regular full-time and part-time employees. These Plans are administered by independent third party administrators. Employees are allowed to contribute any amount to the Plans up to the Internal Revenue Code maximum allowable amount. The District does not contribute to the Plans, but retains authority to amend or terminate these plans. During the year ended June 30, 2021, employees of the District contributed \$212,515 to 401(k) plans and \$129,256 to 403(b) plans.

#### 10. Deferred Compensation Plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Section 457. The Plan, available to all employees, permits them to defer a portion of their salary until future years. This deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. GASB Statement No.32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, allows entities with little or no administrative involvement and who do not perform the investing function for these plans to omit plan assets and related liabilities from their financial statements. The District, therefore, does not report these assets and liabilities on its financial statements. The District does not contribute to these plans. Employees of the District contributed \$104,820 to these plans during the year ended June 30, 2021.

# 11. Pension Benefits – Teachers' Retirement System of the State of Kentucky

<u>Plan description</u> - Teaching-certified employees of the Hopkins County School District are provided pensions through the Teachers' Retirement System of the State of Kentucky (TRS)—a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the state. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <a href="https://trs.ky.gov/financial-reports-information/">https://trs.ky.gov/financial-reports-information/</a>.

Benefits provided - For members who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, members become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, members must either:

- 1) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
- 2) Complete 27 years of Kentucky service.

Participants that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university members with an account established prior to July 1, 2002 receive monthly payments equal to two (2) percent (service prior to July 1, 1983) and two and one-half (2.5) percent (service after July 1, 1983) of their final average salaries for each year of credited service. New members (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service less than ten years. New members after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, members who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3.0% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for members hired on or after that date.

Final average salary is defined as the member's five (5) highest annual salaries for those with less than 27 years of service. Members at least age 55 with 27 or more years of service may use their three (3) highest annual salaries to compute the final average salary. TRS also provides disability benefits for vested members at the rate of sixty (60) percent of the final average salary. A life insurance benefit, payable upon the death of a member, is \$2,000 for active contributing members and \$5,000 for retired or disabled members.

Cost of living increases are one and one-half (1.5) percent annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

Contributions- Contribution rates are established by Kentucky Revised Statutes (KRS). Non-university members are required to contribute 12.855% of their salaries to the System. The Commonwealth of Kentucky, as a non-employer contributing entity, pays matching contributions of the amount 13.105% of salaries for local school district and regional cooperative employees hired before July 1, 2008 and 14.105% for those hired after July 1, 2008. For local school district and regional cooperative members whose salaries are federally funded, the employer contributes 16.105% of salaries. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the member's request.

The Hopkins County School District's total payroll for the year was \$37,521,080. The payroll for employees covered under TRS was \$28,395,711. For the year ended June 30, 2021, the Commonwealth contributed \$9,193,764 to TRS for the benefit of our participating employees. The District's contributions to TRS for the years ending June 30, 2021, 2020 and 2019 were \$1,151,496, \$1,087,616 and \$816,999, respectively, which represent 100% of the required contributions for those employees covered by federal programs.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

Because the State, as a non-employer contributing entity, is required by Kentucky Revised Statutes to contribute 100% of the District's contractually required contributions, the District reports no pension liabilities, pension expenses, deferred outflows of resources, or deferred inflows of resources related to TRS.

The portion of the TRS net pension liability that was associated with the District recognized at June 30, 2021, was as follows:

District's proportionate share of the net pension liability

State's proportionate share of the net pension
liability associated with the District

Total

\$ 118,293,068

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2020, the measurement date, the State's proportion of the TRS net pension liability associated with the District was 0.8346% percent which was a decrease of 0.0166 from its proportion measured as of June 30, 2019 (0.8512%).

For the year ended June 30, 2021, the District recognized on-behalf pension expense and revenue of \$8,562,293 for contributions provided by the State.

<u>Actuarial Assumptions</u>—The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases, including inflation	3.50% to 7.30%
Long-term Investment rate of return, net of pension plan investment expense & inflation	7.50%
Municipal Bond Index Rate:	
Prior Measurement Date	3,50%
Measurement Date	3.50%
Year FNP is projected to be depleted	N/A
Single Equivalent Interest Rate, net of pension plan investment expense & inflation:	
Prior Measurement Date	7.50%
Measurement Date	7.50%
Post-Retirement Benefit Increases	1.50% annually

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale BB to 2025, set forward two years for males and one year for females.

## 11. Pension Benefits – Teachers' Retirement System of the State of Kentucky, continued

# Actuarial Assumptions, continued

The actuarial assumptions used in the June 30, 2019, valuations were based on the results of an actuarial experience study for the period July 1, 2010, to June 30, 2015, adopted by the TRS Board on September 19, 2016.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

Asset Class	TargetAllocation	Long-Term Expected Real Rate of Return
U.S. Equity	40.0%	4.6%
International Equity	22.0%	5.6%
Fixed Income	15.0%	0.0%
Additional Categories	7.0%	2.5%
Real Estate	7.0%	4.3%
Private Equity	7.0%	7.7%
Cash	2.0%	-0.5%
Total	100.0%	-

<u>Discount Rate-</u> The discount rate used to measure the total pension liability (TPL) as of the Measurement Date was 7.50%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 67. TRS assumed that Plan member contributions will be made at the current contribution rates and that employer contributions will be made at Actuarially Determined Contribution rates for all fiscal years in the future. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The change in the discount rate from 7.50% used in 2018 disclosure report is considered a change in actuarial assumptions or other under inputs under GASB 68.

Sensitivity of the District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate—The following presents the State's proportionate share of the net pension liability associated with the District using the discount rate of 7.50% as well as what the State's proportionate share of the net pension liability associated with the District would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease	Current Discount Rate	<b>1% Increase</b>
	6.50%	7.50%	8.50%
State's proportionate share of net pension liability associated with the District	150,455,084	118,293,068	91,214,259

<u>Plan Fiduciary Net Position</u>- Detailed information about the TRS fiduciary net position is available in the publically available financial report.

<u>Payable to the Pension Plan</u>- Because the State is required by statute to contribute 100% of the District's contractually required pension contributions, the District reports no payable for such pension contributions at June 30, 2021.

## 12. Other Postemployment Benefits – Teachers' Retirement System of the State of Kentucky

#### Other Postemployment Benefits (OPEB)

Plan Description – Teaching-certified employees of the District are provided OPEBs through the Teachers' Retirement System of the State of Kentucky (TRS)—a cost-sharing multiple-employer defined benefit OPEB plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the state. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <a href="https://trs.ky.gov/financial-reports-information">https://trs.ky.gov/financial-reports-information</a>.

The state reports a liability, deferred outflows of resources and deferred inflows of resources, and expense as a result of its statutory requirement to contribute to the TRS Medical Insurance and Life Insurance Plans. The following information is about the TRS plans:

#### Medical Insurance Plan (MIP)

<u>Plan description</u> – In addition to the pension benefits described in Note 11 Kentucky Revised Statute 161.675 requires TRS to provide post-employment healthcare benefits to eligible members and dependents. The MIP is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the medical plan may be made by the TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

<u>Benefits provided</u> - To be eligible for medical benefits, the member must have retired either for service or disability. The MIP offers coverage to members under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. TRS retired members are given a supplement to be used for payment of their health insurance premium. The amount of the member's supplement is based on a contribution supplement table approved by the TRS Board of Trustees. The retired member pays premiums in excess of the monthly supplement. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the TRS Medicare Eligible Health Plan.

<u>Contributions</u> – In order to fund the post-retirement healthcare benefit, seven and one half percent (7.50%) of the gross annual payroll of members is contributed. Three and three quarters percent (3.75%) is paid by member contributions and three quarters percent (.75%) from State appropriation and three percent (3.00%) from the employer. The State contributes the net cost of health insurance premiums for members who retired on or after July 1, 2010, who are in the non-Medicare eligible group. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

At June 30, 2021, the District reported a liability for its proportionate share of the collective net OPEB MIP liability and the related deferred outflows or deferred inflows.

#### 12. Other Postemployment Benefits – Teachers' Retirement System of the State of Kentucky, continued

#### Life Insurance Plan (LIP)

<u>Plan description</u> – TRS also administers a life insurance plan as provided by Kentucky Revised Statute 161.655 to eligible active and retired members. The LIP is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the life insurance plan may be made by the TRS Board of Trustees and the General Assembly.

<u>Benefits Provided</u> – TRS provides a life insurance benefit of five thousand dollars payable for members who retire based on service or disability. TRS provides a life insurance benefit of two thousand dollars payable for its active contributing members. The life insurance benefit is payable upon death of the member to the member's estate or to a party designated by the member.

<u>Contributions</u> – In order to fund the post-retirement life insurance benefit, three hundredths of one percent (.03%) of the gross annual payroll of members is contributed by the State. Employers do not contribute to the LIP.

At June 30, 2021, the District did not report a liability for a proportionate share of the collective net OPEB LIP liability, nor any related deferred outflows or deferred inflows, because the State of Kentucky provides the OPEB LIP support directly to TRS on behalf of the District, and the District does not contribute to the LIP.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs- At June 30, 2021, the District reported a liability of \$11,265,000 for its proportionate share of the collective net MIP OPEB liability that reflected a reduction for state MIP OPEB support provided to the District. The collective net MIP OPEB liability was measured as of June 30, 2019, and the total MIP OPEB liability used to calculate the collective net MIP OPEB liability was based on a projection of the District's long-term share of contributions to the MIP OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the District's proportion was 0.446369 percent, a decrease of 0.006117 from its proportion measured as of June 30, 2019 of 0.452486.

The amount recognized by the District as its proportionate share of the OPEB liabilities, the related State support, and the total portion of the net OPEB liabilities associated with the District were as follows:

District's proportionate share of the net OPEB liability	<u>MIP</u> 11,265,000	\$ <u>LIP</u> -
State's proportionate share of the net OPEB liability associated with the District	9,024,000	 273,000
Total	\$ 20,289,000	\$ 273,000

For the year ended June 30, 2021, the District recognized MIP OPEB expense of \$631,471 and on-behalf MIP revenue of \$631,471 for support provided by the State. For the year ended June 30, 2021, the District recognized on-behalf LIP OPEB expense of \$13,139 and revenue of \$13,139 for support provided by the State. At June 30, 2021 the District reported deferred outflows of resources and deferred inflows of resources related to the MIP OPEB from the following sources:

<u>Actuarial assumptions</u> – The total MIP and LIP OPEB liabilities in the June 30, 2019 actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return, net of OPEB plan investment expense & inflation: MIP 8.00% LIP 7.50% Projected salary increases 3.50% to 7.20%, including inflation Inflation Rate 3.00% Real Wage Growth 0.50% Wage Inflation 3.50% Healthcare cost trend rates, MIP only: Under 65 7.25% for FY 2020 decreasing to an ultimate rate of 5.00% by FY 2029 Ages 65 and Older 5.25% for FY 2019 decreasing to an ultimate rate of 5.00% by FY 2022 Medicare Part B Premiums 6.49% for FY 2020 with an ultimate rate of 5.00% by 2031 Municipal Bond Index Rate 2.20% Discount Rate: MIP 8.00% LIP 7.50% Single Equivalent Interest Rate, net of OPEB plan investment expense & inflation: MIP 8.00% LIP 7.50%

Mortality rates were based on the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB and set forward two years for males and one year for females is used for the period after service retirement and for dependent beneficiaries. The RP-2000 Disabled Mortality Table set forward two years for males and seven years for females is used for the period after disability retirement.

The remaining actuarial assumptions (e.g. initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2019, valuation were based on a review of recent plan experience done concurrently with the June 30, 2019 valuation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

<u>Discount rate-</u> The discount rates used to measure the total MIP and LIP OPEB liabilities were 8.00% and 7.50%, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the MIP employer contributions will be made at statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liabilities.

Sensitivity of the District's proportionate share of the collective net MIP OPEB liability to changes in the discount rate. The following table presents the District's proportionate share of the collective net MIP OPEB liability, calculated using the discount rate of 8.00%, as well as what the District's proportionate share of the collective net MIP OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

# 13. Pension and Other Postemployment Benefits- County Employees Retirement System

<u>Plan Description</u> - Substantially, all other employees (classified personnel) are covered under the County Employees Retirement System (CERS), a cost-sharing, multiple-employer defined benefit pension / OPEB plan administered by Kentucky Retirement Systems (KRS). CERS covers members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in CERS. Kentucky Revised Statute Section 61.645 assigns the authority to establish and amend benefit provisions to the Board of Trustees of Kentucky Retirement Systems (Board). KRS issues a publically available financial report that can be obtained at <a href="https://www.kyret.ky.gov">www.kyret.ky.gov</a> or by writing to Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601 or by calling 1-502-696-8000.

<u>Benefits Provided</u> - CERS provides for retirement, disability, and death benefits to system members through its Pension Fund, as well as other postemployment benefits (OPEB) for hospital and medical insurance through its Insurance Fund.

Retirement benefits may be extended to beneficiaries of members under certain circumstances. Retirement benefits are determined using a formula which considers the member's final compensation; benefit factors set by statute which vary depending upon the type / amount of service, participation date, and retirement date; and years of service. Plan members with a participation date prior to September 1, 2008 are eligible to retire with full benefits at any time with 27 or more years of service credit, or at age 65 with at least 4 years of service credit. Plan members with a participation date on or after September 1, 2008, are eligible to retire with full benefits at age 57 if the member's age and years of service equal 87, or at age 65 with at least 5 years of service credit.

Other postemployment benefits provided by CERS consist of prescribed contributions for whole or partial payments of required premiums to purchase hospital and medical insurance.

<u>Contributions</u> – State statute requires active members to contribute 5% of creditable compensation. For members participating on or after September 1, 2008, an additional 1% of creditable compensation is required. This amount is credited to the Insurance Fund and is non-refundable to the member. Employers contribute at the rate determined by the KRS Board to be necessary for the actuarial soundness of the systems, as required by KRS 61.565 and KRS 61.752.

The District's actuarially determined contribution amounts, based on annual creditable compensation for the years ended June 30, 2021, 2020 and 2019 were \$2,120,512, \$2,197,583, and \$1,932,113, respectively, equal to the required contributions for each year.

The District's proportion of the liabilities was based on a projection of the District's long-term share of contributions to the plan relative to the projected contributions of all participating entities, actuarially determined. At the June 30, 2020, measurement date, the District's pension and OPEB proportion was 0.356580% and 0.356477, an increase of 0.002538 and 0.002527 from its proportion measured as of June 30, 2019, of 0.354042% and 0.353950%.

Salary increases, average	3.30%
Investment rate of return, net of investment expense & inflation	6.25%
Healthcare cost trend rates (OPEB)	Initial trend starting at 7.00% for Pre-65, or 5.00% for Post-65, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 12 years for Pre-65, or 10 years for Post-65

Mortality rates were based on the following assumptions and assume a margin for future mortality improvement:

Pre-retirement mortality: RP-2000 Combined Mortality Table projected with Scale BB to 2013. Male mortality rates are multiplied by 50% and female mortality rates are multiplied by 30%.

Post-retirement mortality (non-disabled): RP-2000 Combined Mortality Table projected with Scale BB to 2013. Female mortality rates are set back one year.

Post-retirement mortality (disabled): RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013. Male mortality rates are set back four years.

The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return

## 13. Pension and Other Postemployment Benefits- County Employees Retirement System, continued

#### Actuarial assumptions, continued

<u>Discount Rate</u> - The discount rates used to measure the total pension / OPEB liabilities at the measurement dates and changes since the prior year were as follows:

	<u>Pension</u>	OPEB
Discount rate, June 30, 2019 Increase (decrease)	6.25%	5.68% (.34)%
Discount rate, June 30, 2020	6.25%	5.34%

The discount rate of 6.25% used to measure the total pension liability was based on the expected rate of return on pension plan investments. The discount rate of 5.34% used to measure the total OPEB liability was based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 3.13%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2020.

The projection of cash flows used to determine the discount rates assumed that local employers would contribute the actuarially determined contribution rates of projected compensation over the remaining 25 years (closed) amortization period of the unfunded actuarial accrued liability.

Sensitivity of the District's Proportionate Share of the Net Pension and OPEB Liabilities to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension / OPEB liabilities, as well as what the District's proportionate share of the net pension / OPEB liabilities would be if they were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	District's porportionate share				
	1% Decrease	Current Discount Rate	1% Increase

#### 14. Contingencies

The District receives funding from federal, state and local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if based upon the grantor's review, the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or to refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantor's satisfaction that the funds provided are being spent as intended and the grantor's intent to continue its programs.

As shown in Note 7, the Kentucky School Facilities Construction Commission (KSFCC) is assisting the District with the repayment of the Bond Series 2011A(36%), 2013 Ref(100%), 2014 (100%), 2016 Revenue Refunding (100%), 2017C Revenue Refunding(35%). In the unlikely event the KSFCC defaults on their portion of the bond series, the District is responsible to repay the amount in full. KSFCC's portion as of June 30, 2021, was \$12,000,909.

#### NOTES TO FINANCIAL STATEMENTS

#### FOR THE YEAR ENDED JUNE 30, 2021

#### 15. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To obtain insurance for workers' compensation, the District bought a commercial insurance policy. The District pays an annual premium for coverage. Contributions to the Workers' Compensation Fund are based on premium rates established by such fund in conjunction with the excess insurance carrier, subject to claims experience modifications and a group discount amount. The District purchases unemployment insurance through the Kentucky School Boards. Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## 16. Deficit Operating/Fund Balances

The following funds have operations that resulted in a current year deficit of revenues under expenditures and other financing uses resulting in a corresponding reduction of fund balance net position. These deficits were funded by available resources at the beginning of the year. The following net positions primarily have a deficit fund balance as of June 30, 2021 due to the adoption of GASB 68 and GASB 75.

	_ 0	Operations		et Position
Food Service Fund	\$	626,802	\$	2,437,550
Child Care Fund	\$	30,672	\$	147,586
District Activity Fund	\$	46,088		
Debt Service Fund	\$	496,462		
Student Activity Fund	\$	76,771		

#### 17. COBRA

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the school district at risk for a substantial loss (contingency).

#### 18. Interfund Balances and Transfers

The composition of interfund balances as of June 30, 2021, is as follows:

Due from Fund	Due to Fund	Purpose	Amount
Special Revenue Fund	General Fund	Pooled cash account deficit	\$ 878,561
			\$ 878,561

The following transfers were made during the year ended June 30, 2021:

#### Effect of COVID-19 Pandemic

On March 11, 2020, the World Health Organization ("WHO") recognized COVID -19 as a global pandemic, prompting many national, regional, and local governments to implement preventative or protective measures. As a result, COVID-19 and the related restrictive measures have had a significant adverse impact upon many sectors of the economy. We believe the ultimate financial impact of the COVID-19 pandemic on the District is likely to be determined by factors which are uncertain, unpredictable, and outside of the control of the District. The situation surrounding COVID- 19 remains fluid, and if disruptions do arise, they could materially adversely affect future revenues.

# 20. On-Behalf Payments

The Commonwealth of Kentucky made payments on-behalf of the District as follows for the year ended June 30, 2021. The amounts are included in the General Fund and Debt Service Fund, as "Intergovernmental-State" revenues and in the Food Service Fund and Child Care Fund as "State grants." These amounts are budgeted. In the General Fund, the retirement and technology payments are recorded as additional instruction expense and the health insurance, life insurance, administration fee and health reimbursement account payments are allocated to the various expense functions based on a ratio of employees. In the Debt Service Fund, the payments are recorded as principal and interest expenditures. In the Food Services Fund and Child Care Fund, all of the payments are recorded as additional employee benefits.

#### 21. Subsequent Events

Management has evaluated subsequent events through November 12, 2021, the date on which the financial statements were available to be issued.

#### 22. Prior Period Adjustment

During the fiscal year ended June 30, 2021, the District adopted GASB Statement 84, *Fiduciary Activities*. As a result, School Activity Funds are reflected as a special revenue fund in the accompanying statements. Based on the new criteria, the custodial (former agency) has a restated beginning fund balance versus an amount held in custody liability. The effects of beginning net position and fund balance are as follows:

Net Position (Deficit), at July 1, 2020	\$ 2,497,822
Balance of School Activity Funds at July 1, 2020	716,071
Net Position (Deficit), restated at July 1, 2020	\$ 3,213,893

Balance of School Activity Funds at July 1, 2020	716,071
Fund Balance, restated at July 1, 2020	\$ 14,348,772

#### 23. Litigation

The Board is currently subject to ongoing litigation, the Hopkins County Board of Education denies any liability and discovery is in the initial stages of the case. However, it does appear at this point that any adverse outcome would not materially impact the Hopkins County Board of Education.

# SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR BUDGETARY PROCESS

#### FOR THE YEAR ENDED JUNE 30, 2021

#### **Budgetary Process**

Budgetary Basis of Accounting: Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations lapse at fiscal year-end.

As required by KRS 160.470, on or before January 31 of each year, the District commences budget preparation for the following fiscal year. Before May 30, a tentative working budget is presented to the Kentucky Department of Education. A final working budget must be prepared and adopted no later than September 30. The budget is periodically amended and adopted by the Board of Education during the fiscal year with a final budget adopted by the Board prior to June 30.

The appropriated budget is prepared by fund unit, function, program, level, object and project. The legal level of budgetary control is the fund level.

#### Reconciliation between the Budgetary Basis of Accounting and GAAP

There were no material variances between the GAAP prescribed basis of accounting for governmental funds and the budgetary basis used by the District.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

State Committee for School District Audits
Members of the Board of Education
Hopkins County School District
Madisonville, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the audit requirements prescribed by the State Committee for School District Audits' Fiscal Year 2020-2021 Financial Audit Contract, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hopkins County School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Hopkins County School District's basic financial statements, and have issued our report thereon dated November 12, 2021.

# Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hopkins County School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hopkins County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hopkins County School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Hopkins CountySchool District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. In addition, the results of our tests disclosed no instances of material noncompliance of specific state statutes or regulations identified in the State Committee for School District Audits' Fiscal Year 2020-2021 Financial Audit Contract.

We noted certain matters other than significant deficiencies and material weaknesses that we have reported to management of the Hopkins County School District in a separate letter dated November 12, 2021.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

State Committee for School District Audits Members of the Board of Education Hopkins County School District Madisonville, Kentucky

# Report on Compliance for Each Major Federal Program

We have audited Hopkins County School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Hopkins County School District's major federal programs for the year ended June 30, 2021. Hopkins County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Hopkins County School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code Of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hopkins County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Hopkins County School District's compliance.

# Opinion on Each Major Federal Program

In our opinion, Hopkins County School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

#### Report on Internal Control Over Compliance

Management of Hopkins County School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Hopkins County School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose

of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hopkins County School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Kentucky State Committee for School District Audits Members of the Board of Education Hopkins County School District Madisonville, Kentucky 42431

In planning and performing our audit of the financial statements of the Hopkins County School District for the year ended June 30, 2021 we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit, we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. A separate report dated November 12, 2021, contains our report on significant deficiencies and material weaknesses, if any, in the District's internal controls structure. This letter does not affect our report dated November 12, 2021 on the financial statements of the Hopkins County School District.

We appreciate the opportunity to bring these comments to your attention. We have already discussed many of these comments and suggestions with various District personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

#### **CURRENT YEAR MANAGEMENT LETTER POINTS**

#### **Purchasing (Activity Funds)**

Finding: We noted instances of purchase orders not being prepared properly.

Criteria: The "Redbook" and KDE guidelines.

Cause and Effect: Improper use primarily involved the following: (1) some purchase orders were prepared and dated subsequent to the vendor's invoice and (2) purchase orders were not utilized in accordance with Redbook. Purchase orders are to be used as documentation that a purchase is authorized, not merely an additional form to be attached to an invoice indicating approval. Except for purchases made on the same day, purchase orders should pre-date the vendor's invoice. Not only does the proper use of purchase orders aid in the control of school expenses, it also protects purchasers from the possibility of being denied reimbursement of purchases for school purposes. Instances of noncompliance were noted at one school. (MNHHS, WBES)

Identification of a Repeat Comment: This is a repeat comment from the immediate previous audit, Purchasing (Activity Funds).

Recommendation: We recommend that purchase orders be utilized and properly completed.

Views of Responsible Officials and Planned Corrective Action: On July 27, 2021, the district provided annual Redbook training for the school finance secretaries and principals. Proper use of forms was discussed in detail including purchase orders. The Chief Financial Officer plans to meet with each school finance secretary and principal to discuss all audit findings related to school activity funds. The Finance Officer has regular meetings with all district and school finance staff to review any Redbook questions or issues. The requirement to use purchase orders is a well-known district policy.

#### Required Forms/Procedures

Finding: We noted instances where it appeared that these forms were either not completed or completed improperly and/or where required procedures were not followed.

Criteria: The KDE "Redbook" requires the use of specific forms (or reasonable facsimiles) for certain activities such as: (1) Fundraising, (2) Inventory Control, (3) Donation Forms, (4) Ticket Requisition Forms and (5) Multiple Receipt Forms. It also requires additional procedures and controls.

Cause and Effect:

#### **FORMS**

Fundraising - Some either not used or used incorrectly fundraising worksheet and approval form. (MNHHS, JMMS, WHS, HCCTC, EES, WBES, PES, HES, HCCHS)

Inventory Control - Some either not used or used incorrectly. (MNNHS, BSMS, SHMS, HCCTC)  $\,$ 

Donation Forms - Some either not used or used incorrectly. (MNHHS, SHMS, PES)

Ticket Forms - Some either not used or used incorrectly. (MNHHS, HCCHS)

Multiple Receipt Form - Some either not used or used incorrectly. (SHMS, HCCTC, JSES, HCCHS)

Gift Card Log - Some either not used or used incorrectly (PES)

Transfer Form - Some either not used or used incorrectly (JMMS, SHMS, HCCTC)

#### Required Forms/Procedures, continued

#### **PROCEDURES**

Inappropriate expenditures from Activity Funds (MNHHS, BSMS, SHMS, WHS, HCCTC, EES, WBES, SES, JSES, PES, HES, HCCHS)

Instances of checks noted containing only one signature. (MNHHS, JMMS)

Instances where the store account cards were kept out for extensive periods of time. (BSMS, SHMS, WBES)

Instances of money going into teacher generated accounts inappropriately. (EES, JSES)

Instances of external booster organization not being insured (WBES)

Identification of a Repeat Comment: This is a repeat comment from the immediate previous audit, Required Forms/Procedures.

Recommendation: We recommend that the principal and secretary at each school review the "Redbook" and comply with its requirements regarding the use of these forms and procedures.

Views of Responsible Officials and Planned Corrective Action: On July 27, 2021, the district provided annual Redbook training to school finance secretaries and principals. The Chief Financial Officer plans to meet with all school finance secretaries and principals to review all audit findings in detail. Proper use of forms and Redbook procedures were examined during Redbook training. The Chief Financial Officer will analyze each school audit issues and necessary corrective action plans. District finance staff is available throughout the year to assist with Redbook procedures. The Chief Financial Officer has regular meetings with all district and school finance staff to review any Redbook questions or issues.

#### Receipts

Finding: We noted instances where teachers/sponsors were not turning in receipts daily to the finance secretaries that were collected from the students or deposit slips were not signed in a timely manner. (SHMS, EES, JSES)

Criteria: The "Redbook" and KDE guidelines.

Cause and Effect: Lack of enforcement in requiring compliance.

Identification of a Repeat Comment: This is a repeat comment from the immediate previous audit, Receipts.

Recommendation: We recommend strict adherence to the policies of the "Redbook". The principals must stress to the teachers/sponsors that the policies must be followed.

Views of Responsible Officials and Planned Corrective Action: On July 27, 2021, the district provided annual Redbook training for school finance secretaries and principals. The Redbook training included the requirements that receipts must be turned in daily and deposit slips must be signed timely. The Chief Financial Officer will have a meeting with all school finance secretaries and Principals to review all audit findings. The importance of turning in all funds daily will be emphasized, and deposit slips requiring a signature will be reviewed. District finance staff is available throughout the year to assist with Redbook procedures. The Chief Financial Officer has regular meetings with all district and school finance staff to review any Redbook questions or issues.

#### **Booster Clubs/PTAs**

Finding: We noted instances of noncompliance with Booster Clubs/PTAs reports. (MNHHS)

Criteria: The KDE "Redbook" requires Booster Clubs/PTAs to submit the names of club officers and a budget to the principal at the beginning of the school year. In addition, an annual financial report shall be submitted to the principal by June 30 reporting receipts from admissions, fundraisers, dues, concession sales, and other categories; expenditures by payee, and beginning and ending balances.

Cause and Effect: Lack of effort in requiring compliance.

Identification of a Repeat Comment: This is a repeat comment from the immediate previous audit, Booster Clubs/PTAs.

Recommendation: We recommend the principals increase their efforts in obtaining the required information from Booster Clubs, PTOs and PTAs.

Views of Responsible Officials and Planned Corrective Action: On March 17, 2021, the Chief Financial Officer held a meeting at Madisonville North Hopkins High School and each finance secretary was provided with a list of required items for Booster Clubs. On July 27, 2021, the district provided annual Redbook training to school finance secretaries and principals and a portion of the training focused specifically on external support booster clubs. The importance of obtaining the required Booster Club information was shared at that training, and booster club representatives were invited, and many were in attendance.

#### **Activity Fund Account Balance**

Finding: We noted instances where activity fund balances were negative after figuring in Accounts Payable. (HCCHS)

Criteria: Redbook requires that each individual activity fund balances maintain a positive balance, specifically at the close of the fiscal year.

Cause and Effect: Lack of bookkeeping information, or lack of attention paid to fund balances.

Identification of a Repeat Comment: This is not a repeat comment from the immediate previous audit, Activity Fund Account Balance.

Recommendation: We recommend that the school treasurer pay special attention to fund balances after factoring in accounts payable to ensure the balances remain positive.

View of Responsible Officials and Planned Corrective Action: On July 27, 2021, the district provided annual Redbook training for the school finance secretaries and principals. The Redbook regulation that all school activity accounts must have a positive balance (after accounts receivable and accounts payable) as of June 30 was shared at that time. The Chief Financial Officer plans to meet with each school finance secretary and principal to discuss all audit findings. The topic of year end balances will be explained at that time.

Recommendation: We recommend that purchase orders be utilized and properly completed.

Views of Responsible Officials and Planned Corrective Action: On July 27, 2020, the district provided annual Redbook training virtually via Zoom with Ron Flannery to the school finance secretaries and principals. On October 21, 2020, the Finance Officer and staff held a zoom meeting with finance secretaries and discussed all audit findings related to school activity funds. Proper use of forms was discussed in detail and the Finance Officer emailed sample forms completed correctly to school finance staff for future reference including the purchase order. District finance staff is available throughout the year to assist with Redbook procedures. The Finance Officer has regular meetings with all district and school finance staff to review any Redbook questions or issues.
