# Fix for Adobe Problems in Internet Explorer 8

Below are instructions that will open adobe reader documents linked from a browser in a new window. This has eliminated the issues that we have experienced with opening adobe reader links in Internet Explorer.

1. Close all open windows.

2. Open Adobe Reader. (Start – All Programs – Adobe Reader)

3. Click Edit and Open Preferences.

4. In the column on the left, click the Internet section.
5. At the top, uncheck the box that says "Display PDF in browser"
