

RECOMMENDED SMART CLASSROOM SETUP

Recommended by Hopkins County Technology Staff

<p>Teacher Desk</p>	<p>Teacher desk location is an exact science in designing an “intelligent classroom” since so many peripherals are connected to the teacher workstation. The teacher desk is not moved. It is also essential that the teacher understand how to re-assemble the setup in case the devices are ever disconnected. We recommend that the teacher label cords and make appropriate documentation as needed.</p>
<p>Purchasing</p>	<p>All items with the exception of the wireless keyboard/mouse and desktop speakers must be purchased through the technology department. Contact Dee McQueen and provide your school MUNIS funding codes. This ensures the assets are properly inventoried and tagged.</p>
