## Schoology Home Page: Your Parent account compared to your child's Schoology information

Having a Parent account in Schoology is actually like having two accounts:

1. Your personal account, with your own name and information;
2. Your Child Activity view. From here, you can view Schoology from your child's perspective, and see what he or she sees, and receive updates about his or her activity.

Start by clicking on the arrow in the upper-right corner, next to your name, and then select your child's name to switch into his or her account. The check mark in this drop-down menu indicates which account you are currently viewing.

# Student Activity View

## Viewing Your Child's Activity

Click on the arrow in the upper-right corner of your account and select your child's name to view his or her activity.

From the home page, you can quickly view specific information about your child's Schoology activity:

The screenshot shows the Schoology interface for a child's activity. At the top, there is a navigation bar with 'COURSES', 'GROUPS', and 'GRADES' tabs, and a 'Child Name' dropdown menu. The main content area is divided into several sections: 'Student Activity - Enrollments' (1), 'Recent Grades/Attendance' (3), 'Overdue' (4), and 'Upcoming' (5). The 'Enrollments' section contains a table of courses with columns for 'Grade' and 'Attendance'. The 'Recent Grades/Attendance' section lists graded assignments, tests/quizzes, discussions, and attendance. The 'Overdue' section shows a list of course materials not turned in by the due date. The 'Upcoming' section shows a list of upcoming assignments and events. The 'GRADES' section is highlighted in blue and contains links for 'Grade Report' (A), 'Mastery' (B), and 'Attendance' (C). A red dashed line connects the callouts 1 through 5 to their respective sections.

COURSES	Grade	Attendance
AP Physics: Summer Session 1	97%	-
Pre-Calculus Honors: Section 7	92%	-
Economics/Finance: Section 6	87%	-

2. Toggle into **Enrollments** in the same area to see a list of the courses your child is currently enrolled in, along with his or her grade. If the teacher or administrator has chosen not to display the grade while the course is in progress, you will see a blank value (as in the grade column above). Click on an individual course to see grades received on assignments, tests, and discussions from that course. Depending on the permission settings in place at your school, you may not be able to view content posted by other members of the course.
3. The **Recent Grades/Attendance** area lists graded assignments, tests/quizzes, discussions, and attendance marks for the student. To view the graded items and attendance marks, click the item you'd like to view.
4. The **Overdue** section displays a list of course materials your child did not turn in by the due date.
5. The **Upcoming** section displays a list of your child's upcoming assignments and events.
6. **Courses:** You can see a list of your child's current courses. Click the course name to navigate to the course profile as your child views it. Depending on the permission settings in place at your school, you may not be able to view content posted by other members of the course.

Depending on the permission settings in place at your school, you may not be able to view content posted by other members of the group.
8. **Grades:** Depending on the settings in place at your child's school, this menu provides access to view the following:
  1. **Grade Report:** Review your child's grades for all courses.
  2. **Mastery:** If your child's school aligns materials to standard and learning objectives, you can check your child's progress in this area.
  3. **Attendance:** Review your child's attendance for all courses.
9. **Calendar:** Click to view a calendar of past and upcoming events and assignments. To find out more information regarding a particular event, place your cursor over the title. A clue tip displays with the event type (assignment, test/quiz, event), the event's course or group, and the student name. Click the event to display profile information in a pop-up window.

- Check to make sure students are entering the Course Access Code into the correct area in Schoology:
- If students are signing up for a new account, make sure they are following [these steps](#).
- If students already have a Schoology account and want to join another course, make sure they are following [these steps](#).
- Ensure that students are entering Course Access Codes via the processes demonstrated above. If students attempt to enter a Group Access Code in the area in Schoology to join a course, they will receive an error (and vice-versa).
