THEY MAKE OUR SCHOOL LIFE POSSIBLE

Five of our Kingsburg civic minded men comprise our Board of Trustees. This hardworking group sees to it that the Kingsburg High School has the necessary supplies, equipment, and staff. They receive no compensation for their services and we welcome this opportunity to express our appreciation for the time and effort they have given in the interest of this school.

FELICITATIONS

The education of youth is America's most pressing problem of today.

Another year has passed. We are aware of its going but not, perhaps, of its significance. We are not only entering a new year, but a new era—an era of unforeseen activity and power—an era in which man may destroy his own civilization with the very power created by him unless he be guided by the ideals of a true democracy, and a democracy is only possible through education.

A glimpse of the past, and the realization that henceforth we are to live in the presence of such tremendous power as has been released during the past year, should provoke the most serious and profound thinking in the history of mankind.

You, as students of Kingsburg Joint Union High School, and members of this great civilization, must prepare yourselves to assume your reasonable share of this responsibility. Let us, therefore, accept that fact and order our thinking and our actions to the realization that our hopes for the future must be anchored to the ideals of right and justice to all mankind.

It is then the task and privilege of every individual to conduct himself in such a manner that this generation, and each succeeding generation, will profit by the experiences of the past. May you thus have some small part in bringing to this nation and to the world that enduring peace so desired by all.

The power of education for destruction has been demonstrated during the past four years. It can likewise be a powerful force for peace if properly directed. It can provide the tools and means by which the problems of tomorrow may be solved.

May we not destroy but preserve mankind.

CLASS OF '46

A Scrapbook—that's an odd theme for an annual, but in the case of the "Class of '46" perhaps it isn't so far from being appropriate. First we were called "Depression Babes." Then our years at K.H.S. were spent as a "War Class." And as we leave, the faculty has termed us "Original."

During the past four years many important events have taken place. As one looks at these events, in a glance of retrospect, a well balanced and interesting scrapbook is found, with pages being made up of activities, classes, and bound by the guiding hands of faculty and administration.

Of what does the scrapbook of the "Class of '46" consist? Let's see. As Frosh, in '42, we were the first class to enter K.H.S. under the full strain of World War II. As Sophomores, we won scrap drives, gave the Juniors a good race in Inter-class competition, and enjoyed the feeling of beginning to get dry behind the ears. During the school year of '44-'45, as mighty Juniors, upper classmen at that, we won the inter-class competition, started a school paper, gave a super show—"Stardust," and a Junior-Senior Banquet along the theme of "Circus."

The Senior year was different, and once again "original," in that "dress-up" day was abandoned in lieu of a trip to the mountains. Other activities we have enjoyed were such events as our sponsorship of the Motorcycle Baseball Game, Senior steak bake, Senior ditch day, and the Jr.-Sr. Banquet. As a conclusion to our book, Commencement was held on June 14, and there we now stand.

What lies ahead is for fate and the class of '46 to work out together. For their tireless effort we, the Class of '46 thank our parents, teachers and administration for a swell time and for the knowledge gained. Again, thanks.

When one is allowed to reminisce (as it has been suggested I do in this musical message) one is then accused of showing old age. Nonetheless, I take a certain amount of pride (Pardonable, please!) in thinking back on the "Good Old Days" of musical experiences here in K.H.S. While memory dwells on trips far and near, programs, concerts, radio broadcasts, shows, soloists, ensembles, the "Band-jo-rees," music played and sung to be heard and enjoyed, these are not, to me, the real "Good Old Days." Rather has it been the contact with you boys and girls which makes me say, "Good." While the teaching of music as a technique has nearly always been challenging, often it has been irksome. However, teaching the blowers

of horns, the beaters of drums, and the singers of songs has always been satisfying, and nearly always certain of an inward sense of accomplishment which is, after all, the real reward.

Let's leave off harping on the old and let's consider a fanfare for the future. All of education, and to me music particularly, faces thrilling, new horizons.

Let's remember our Viking heritage, one of exploration of new lands, pioneering in new problems, and homesteading with new ideas.

Let's tune up for the "Great New Days."
