

HEALTH OFFICE MEDICAL NOTE TO KCCS PARENTS/GUARDIANS

MEDICATIONS

If your child is prescribed any medication to be taken during school hours (Inhalers, Epipens, or any medications, including over-the-counter meds, including cough drops), please provide the school with the medication and proper documentation from the doctor. Obtain the form, "Parents and Physician's Authorization for Administration of Medication in school", from the school nurse (your doctor may have a similar form). **Parents must complete part (B) and the doctor completes part (A).** Your doctor may also send an Asthma Action Plan or Allergy Action Plan. Return all forms to the nurse with the medication. **Parent/Guardian must bring the medication to the nurse. Students are not allowed to carry any meds, unless the doctor writes, "The student may self-carry/self-administer".** All completed forms can be faxed to the school # 716-895-2058. **Absolutely NO medication will be allowed/or given in the school unless this procedure is followed.**

PHYSICALS and IMMUNIZATIONS

NYS Public Health Law, Section 2164 requires that the parent/guardian provide the school with **an immunization record or the student will not be permitted to attend/stay in school for 14 days or until proof of process, or the immunizations are received/record provided.** Please provide the school with a recent official copy (from the health care provider, health department or a NYSIS record). The school also requires a copy of a current physical. You may give us a copy or ask the doctor's office to fax us a copy to # 716-895-2058.

INJURIES, HOSPITALIZATIONS, CONTAGIOUS or PROLONGED ILLNESSES

Please provide the school with **medical documentation** stating the student can return to school and noting restrictions (if any) on the **'FIRST' day the student returns to school. A doctor's note is required to excuse any absences after 2 days. Students are NOT allowed to wear any type of injury equipment or items (ace wraps/bandages, slings, braces, boots, crutches, etc without a medical note to the nurse.**

Your cooperation will help us to provide your child with their much needed medical support while in school. Please feel free to contact me if you have any questions regarding KCCS Medical requirements,
Nurse L. Marshall
KCCS Health Office,
