

HS Q&A ZOOM MEETING 9/16/2020

Q: If Tri-Tech opens before Ki-Be will there be transportation to Tri-Tech?

A: That's a great question. This will be something we look into and figure out.

Q: Will Ki-Be be opening Oct 1st?

A: We don't have any date set in stone at this point but it would be closer to Nov. 1st if anything just because we need to prepare for exactly what that looks like.

Q: How will transitions look?

A: We don't know exactly how that will look but ultimately we will be going off of the Health Departments recommendations.

Q: Do you have an update on hotspots?

A: Right now we are waiting the shipment to come in. You will be contacted when we get them in the office.

Q: Regarding coming back to school what exactly will that look like?

A: We don't have a plan set in stone right now but what most schools are starting with K-2, 3-5, Middle, and then HS doing A&B. We don't have an exact timeframe of how long that will last either. Families will come together on the A&B schedule no matter what. Ex: If families have elementary kids and HS they will go on the same days and be home on the same days.

Q: Are teachers no longer recording the virtual class?

A: Yes they are not able to record voice/video of students because of FERPA.

Q: Are any families worried about sending their kid to school?

A: There was a couple concerns from parents because it is Flu season.

Q: How is the schools air filter quality?

A: Everyone has been required to put in Mars10 filters just like all of the other districts.
