**Part IV: Diagnostic Assessments**

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students’ specific knowledge, skills, and understanding in order to build on each student’s strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

5. Please select the **academic** diagnostic assessments predominantly used in each grade level in your LEA to monitor, assess, and target supports for student learning. The list below is not exhaustive and contains places to include diagnostics not listed.

**Part VII: Monitoring Student Progress**

13. Describe how your LEA will consistently apply the selected equity analysis and diagnostic assessments to evaluate and monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and well-being.

For example:

“Our district uses an equity analysis process every three months to monitor progress, adjust strategies and identify student learning gaps.”

Our district will use the equity analysis tool twice yearly to ensure access to pprograms and compare it to our academic testing results for more specific emphasis within sub-groups of the population. We are a district of poverty, so interventions will be needed across the board, however specifically identified groups will have access to core + more as we adapt our master scheduling.

## Part VIII: Supports for Strategies/Interventions

14. Of the strategies/interventions your LEA has implemented or is planning to implement, identify **up to three** in which your LEA has the knowledge, skills, and capacity to mentor another LEA.
