

Our Mission

Project LEARN exists to help at-risk children become successful and to provide the education and encouragement to their parents to become partners as well as strong and informed advocates in their children's education.

Teach the Parent, Reach the Child!

Our Parents

Thank you to Project LEARN program because it teaches us that nothing is impossible. With your help and our effort, we can achieve our goals.

-Jacqueline E. Hernandez de Sierra

Project LEARN has given me the opportunity to keep learning because this is my second language and sometimes as a mother it is difficult, but this will help us overcome and help our children.

-Ana Saldana

Empowering Families

Project LEARN is a family based literacy program which provides educational opportunities to eligible families to help parents become advocates and school partners in their children's education.
