

Welcome to our tenth and final
topic of the Mental Health
Matters Series:
Coping Skills

**COPING SKILLS
MATTER**

practice
mindfulness

exercise and move
your body

write down your worries

allow all feelings

recognize
unhelpful thoughts

COPING SKILLS

use progressive
muscle relaxation

practice deep
breathing

talk it out with a
trusted support

practice having a
growth mindset

Teaching and modeling coping strategies
early and often is essential

Provide time and space to ***regularly practice*** coping strategies

It is ***never too late*** to ***add new*** coping strategies
