School Improvement Plan

School improvement plans are a catalyst for both alignment and focus. While all schools need goals and plans, those do not need to be exclusively "test output" goals as there are many considerations (head and heart goals) when seeking to positively impact achievement. That said, whether you are focused on academic or "other" goals via your site plan, you should include "measurable" components; this allows for a baseline, or growth, to be measured. Did the action lead to growth? To address that inquiry, it takes some form of measurement.

As the school year progresses, a natural "evolution" occurs; thus, it is perfectly understandable that your school improvement plan will also evolve throughout the year. Each year on June 15th, there should be a "snapshot" of your school improvement plans along with progress placed in the yearly folder for archival purposes. Your new school improvement plan should then begin on June 16th on a new document, but can simply be a continuation of your work.

In the Spring of 2021, Dr. Engel shared the School District of La Crosse Strategic Plan for Educational Equity. This document connects board policy, results policies, and theories of action that lead to closing the achievement gap while raising the achievement for each and every student.

<https://www.lacrosseschools.org/wp-content/uploads/2021/04/Strategic-Plan-for-Educational-Equity.pdf>

The Strategic Plan was then crafted into a needs assessment that each school can use to monitor their current status and use to develop specific goals aligned to the overall Strategic Plan for Educational Equity.

The link below takes you to a folder where school site plans are housed, so colleagues can learn and grow from each others' great work. The previous year's plans are there for reference and can provide longitudinal data.

2022-23 Goals, Objectives and Intervention Strategies

SMARTIE Goal 1:	Goal Statement: We will increase student engagement in literacy so that students demonstrate proficiency on their end of year benchmarks for their grade level as an independent reader, as measured by DRA2. From spring of 2022 to spring of 2022-23 we will increase by 25% the number of students who are achieving EOY benchmarks.
Why was this goal selected?	Our school has been working on addressing our Literacy Instruction for the past two years. With COVID, and an abrupt shift to online teaching and learning, some of our best practices in literacy that we were moving towards implementation to fidelity needed to be adjusted. As a result, the goal remains with a focus for staff implementation early on to address gaps in learning as it relates to reading instruction.

<p>SMARTIE Goal 2:</p>	<p>Goal Statement: We will increase students number sense and fact fluency in grades K-5th so that 80% of students are proficient with their number sense routines as measured by iReady in F/W/S for students in grades K-5 during the 2022-23 school year</p> <p><i>K -5: Use of iReady assessment F/W/S and implementation of daily Number Sense routine for math warm up and activities during Math workshop rotations</i></p> <ul style="list-style-type: none"> • <i>Baseline of _____</i>
<p>Why was this goal selected?</p>	<p>Our staff has been implementing Math Workshop for the past 3 years and successfully has been able to differentiate math instruction to meet student needs. With COVID during the 2019-20 school year students lost direct instruction from March 18- until the end of the year missing core math concepts. In 2020-21, students learned remotely for half of the year and we noticed deficits in their math understanding, specifically their number sense and fact fluency.</p> <p>We also wanted to focus on iReady; however, since this is the first year we are implementing this assessment we are unclear on what the data will indicate to us so therefore we identified Reflex as our progress monitoring tool for this year for students in grades 2-5 and the Number Sense Assessment for students in grades K and 1st. Our goal is to move towards use of iReady in future years aligned to the standards.</p>

<p>By how much? (<i>specific, measurable, attainable/ambitious</i>)</p>	

When will the change occur? <i>(specific, measurable, relevant, time-bound)</i>	As math workshop is re-introduced in classrooms and rotations are taught, students will independently engage in math fact fluency practice as one of their daily rotations. In addition a math number sense routine and protocol for a math warm will be taught building wide in October or be implemented in addition to the math scope and sequence. All classrooms will implement this protocol in conjunction with current math programming and future math programming.
How will it be measured? <i>(specific, measurable)</i>	We will utilize iReady as our baseline assessment and then our Progress Monitor for students in grades K-5 at least 3 times per year. We will utilize the Number Sense Assessment for students as needed as an additional formative assessment to plan small group instruction.
How will the process or outcomes address equity and inclusiveness? <i>(inclusive, equitable)</i>	We will ensure high levels of learning for all students provided by all staff

SMARTIE Goal 3:	<p>Goal Statement: We will implement the components of Cornerstone 3 within the ICS framework so that as a building we can focus on student engagement and our implementation of Co-Plan to Co-Serve in order to Co-Learn for all teachers and students. In addition during the 2022-23 school year we will revisit our Responsive Classroom/SEL implementation focusing on the first 6 weeks of school to ensure routines and procedures so that students can engage in learning and SEL practices throughout the year.</p>
Why was this goal selected?	<p>Our Equity journey started as a building 5 years ago as we engaged in the Equity Institute and began to focus on Cornerstone 1 focusing on bias, belief and our experiences. The following year we focused on Cornerstone 2 as we overhauled our universal PBIS system utilizing the Responsive Classroom Approach building wide. We then began to dig deeper into Cornerstone 3 focusing on learning UDL and also developing our Co-planning to Co-serve systems. COVID then interrupted our progress. During the spring of 2020, we revisited our journey and engaged in building wide C3 training. During the 2022-23 school year we are focused on starting the year out re-establishing a multi-tiered systems of support and new co-planning C3 time in our schedule again for the 2nd year. This dedicated time in the schedule will ensure opportunities to co-plan so that teachers can co-serve. Lastly, we will again revisit our RC and PBIS expectations, plans and routines in the fall so that we can lay the necessary foundation to ensure engagement in learning and all new staff are trained on universal expectations. We will also implement the Second Step roll out universally for SEL instruction.</p>
Alignment to District Equity Plan (check all that apply)	<input checked="" type="checkbox"/> Educators <input checked="" type="checkbox"/> Curriculum <input checked="" type="checkbox"/> Systems of Support <input checked="" type="checkbox"/> Leadership <input type="checkbox"/> Community Collaboration
What will change? (<i>specific</i>)	<p>Time dedication to C3 planning for all staff will occur weekly in the schedule in addition to PLCs and common plan time. In addition, use of C3 conversation guide to facilitate meetings and then use of the Team Shared drive to capture next steps.</p>
For whom? (<i>specific</i>)	<p>All staff</p>
By how much? (<i>specific, measurable, attainable/ambitious</i>)	<p>*</p>

When will the change occur? <i>(specific, measurable, relevant, time-bound)</i>	We will begin our new C3 time the 3rd week of school. We will focus on our Responsive Classroom implementation and our plans for our first 6 weeks at inservice. We will implement our Second Step at the start of the 2nd 6-day cycle.
How will it be measured? <i>(specific, measurable)</i>	*C3 implementation will continue to be measured by the co-planning grade level rubrics, continuing from 2021-22 *Responsive Classroom and PBIS implementation will be measured by ODR's and minors *Second Step implementation will be measured by surveys throughout the 2022-23 school year
How will the process or outcomes address equity and inclusiveness? <i>(inclusive, equitable)</i>	We will ensure opportunities for all staff to co-plan so that they can co-serve instruction so that all students can co-learn in their classroom environment.

2. Schoolwide Reform Strategies

Based on the information analyzed in the comprehensive needs assessment, goals and strategies were created with stakeholder input to generate the school improvement plan (SIP). We conducted an additional Needs Assessment, following the Community Schools Model for our Hintgen/Huber project and then also did this building wide to determine next steps (see above).

3. Instruction by highly qualified teachers

The School District of La Crosse takes pride in hiring only highly qualified teachers. This means they all are fully trained, certified, and often experienced in the position they teach. Our faculty consistently has a high percentage of advanced degrees, and we do a good job of retaining some of the top staff in the state and the nation. Life events, such as retirement, childbirth, or illness, sometimes cause a need for a long-term substitute teacher. When this happens we always make every effort to hire a highly qualified substitute. All are certified teachers and most are licensed in the area in which they are substituting. In rare cases it may be impossible to find a teacher with a particular certification, such as special education. This may result in the district asking the Wisconsin Department of Public Instruction for an emergency license for such a teacher.

4. High quality and on-going professional development

Staff strategically plan for, access, and utilize professional development aligned to the School Improvement Plan. In addition to options at the building level, staff also participate in district staff development as well as off-site opportunities. Specifically our building-based and

district-level staff development focused on racial identity development, culturally responsive practices, Professional Learning Communities, and trauma informed practices.

PROFESSIONAL STAFF RECRUITING/HIRING

The School District of La Crosse realizes that a sound educational system cannot be built and maintained without definite procedures for recruitment of personnel.

1. The quality of the educational program in any school system is dependent upon the employment and retention of high caliber professional personnel.
2. All currently employed professional personnel share a common responsibility for the procurement of the type of staff needed. They are expected to help in every way possible and specifically by making the system aware of outstanding prospects at every opportunity.
3. Teacher recruitment is the responsibility of the Director of Human Resources. Principals and Supervisors will assist as needed.
4. Consideration will be given to those applicants seeking permanent rather than temporary employment.
5. All professional personnel selected for employment must be recommended by the superintendent or their designee and approved by the Board of Education.
6. The district will recruit from and encourage applications from all segments of the population.
7. Application forms and hiring practices shall be annually reviewed relative to the employment of minorities.

Reviewed and revised by the Superintendent's Advisory Team: 03/13/13

Board of Education Informed: 03/15/13

6. Strategies to increase parental involvement:

Use of Needs Assessment to plan for F/W/S engagement events building wide. Continue monthly Huber Family Engagement Events on the 3rd Thursday of the month. During the 2022-23 school year, PTO is aiming to also hold monthly family events on a variety of topics/levels and opportunities for different types of engagement.

7. Plans for assisting preschool children in transition:

All pre-school and 4K teachers are equipped with a rubric of skills and standards necessary for Kindergarten readiness. Each early childhood teachers provide a detailed report for Kindergarten teachers to examine associated with each student entering our Kindergarten classrooms. These individual reports provide a plethora of qualitative and quantitative data that serves as a guide for Kindergarten teachers as they support the transition of each student into the Kindergarten learning environment. All Kindergarten sites host a Kindergarten Open House prior to each school year. The purpose of the open house event is to provide an opportunity for students and parents/guardians to meet and converse with Kindergarten teachers- and other staff- as well as an opportunity to explore the school building and individual classrooms. Finally, the School District of La Crosse invites all early childhood teachers and administrators to our annual, district-wide professional development events. By, including our local childcare and pre-school partners in our district's professional development, as it pertains to equity, social justice, best practice and more, we are empowered to speak a common language with our students and families which leads to increased trust and achievement for all students.

8. Measures to include teachers in decisions regarding the use of academic assessments.

Teachers at Hintgen Elementary use a variety of informal, formative, and summative assessments to help determine student progress. Teams meet during professional learning communities (PLC's) to make instructional decisions regarding students. In addition teachers have an opportunity to meet 30 min. Per 6 day cycle in a C3 co-planning session with teachers to focus on universal strategies for all and design instruction through a UDL lens in collaboration with Title, Spec. ed staff, and ELL staff. Lastly, aligned ot our multi-tiered system of support we engage in benchmarking conversations and make decisions based on our data to determine students who need interventions 4 x per year academically and ongoing for behavior through our Tier 2 PBIS team.

9. Extra support given to students having difficulty mastering proficient and advanced levels of academic achievement.

A Response to Intervention (RtI) framework is employed to help provide additional assistance to students that have not yet mastered the state standards. The needs for tier 2 and tier 3 outweigh our resource capacity. Therefore, a focus on the universal instruction of tier 1 is an emphasis. However, we have a robust tier 2 and tier 3 inventory. These interventions are categorized by academic areas of concerns. Our benchmarking process occurs 4x a year where teacher teams meet, analyze student data and determine next steps which could result in a Tier 2 academic intervention. Our PBIS Tier 2 team meets bi-weekly and determines student who meet data rules and matches interventions to the needs. Student Management Teams (SMT) meet to determine the appropriate interventions for a student when students are not responding to Tier 2, and Tier 3 is necessary. These students are progress monitored and the progress is kept in our student information system. Students identified in need work in small intervention or individually to work towards mastery of grade level standards.

At the universal classroom level, we provide training to our teachers in Universal Design for Learning (UDL). Teachers are working towards better instructional practices to proactively design lessons to personalize learning for students. All of our new teachers are required to attend training on UDL. There is a focus on school culture. The focus on culture aligns to the emphasis on relationships, safety, engagement, and equity which will lead to the closing of gaps and better overall student outcomes by positively changing the classroom environment. We are a PBIS school. There are coaches in every building that work with their building teams to improve the culture and climate of each school.

10. Coordination and Integration of Federal, State and Local Funds and Services

Title I funds are coordinated to focus on the improvement of students in literacy and math. In partnership and collaboration, special education and ELL funds are used in conjunction with Title I funds to work towards closing the achievement gap, provide assistance to students having difficulty mastering the standards and meeting goals, and provide instructional support to students as needed.

Some of the expenditures with Title I funds include:

- Title I Reading and Math Intervention teacher (1.0 FTE) and Title 1 Behavior Support Teacher (1.0 FTE)
- Family Engagement activities (see examples of family nights in #6)
