

# Welcome to Kindergarten 2024-2025

SCHOOL DISTRICT OF  
**LA CROSSE**

This will be an exciting year of learning, growing, and staying healthy. School Nurses will be visiting the school frequently and can be easily reached for emergencies.

Trained health assistants and secretaries will also work with the daily medical cares of the children. Please contact your child's school if your child has special health concerns or medical needs. By working together we can keep your child safe and healthy at school.

## When should your child stay home because of illness?

**FEVER:** greater than 100 degrees

**VOMITING:** return 24 hours after vomiting

**DIARRHEA:** return 24 hours after diarrhea

**RASH:** rash that is open and draining or a rash with a fever

**STREP THROAT, IMPETIGO:** return after 24 hours of treatment with antibiotic

**SCABIES, RINGWORM:** must be treated before returning to school

**CHICKEN POX:** child may return to school 5-7 days after onset of rash, with all sores dry and scabbed over

 Please contact your child's school if you have any questions regarding the above.

 Please notify your child's school if your child is absent due to illness or injury.

**If your child has a serious illness or injury that affects school participation, please notify your school principal or school nurse so a plan can be implemented to meet your child's needs.**

**ILLNESS OR INJURY AT SCHOOL:** Students who become ill or injured at school will be seen in the health room by trained staff. If your child is unable to return to class, a parent will be contacted. **For your child's comfort please make arrangements to pick them up as soon as possible.**

## **MEDICATIONS:**

Please give medications at home whenever possible. If medication is needed during the school day, the following is necessary.

### Prescription Medication

- (1) A doctor's signature with written instruction.
- (2) Written consent from the parent for the school to give the medication.
- (3) Medication is in a properly labeled prescription bottle.

### Non-prescription Medication

- (1) Written consent from the parent with instructions for the school to give the medication.
- (2) Medication must be in the original container.

\* Students may not carry medication at school with the exception of prescription inhalers and epinephrine auto injectors with a doctor's written permission.

\* Parents/guardians are requested to please deliver medication to the school office.

*School Medication/  
Procedure forms are  
available at your  
school office, school  
website or local clinic.*

### REMINDER:

 A new medication form is needed each time the medication is changed.

 A new medication form is needed for each school year.

## ENROLLMENT FORM AND EMERGENCY INFORMATION

It is important for us to reach you if your child is ill or injured at school. Please complete the Annual Health Update Form and enrollment form from school, listing parent's name with work and home phone numbers, along with two local emergency contacts. Call your child's school with any changes throughout the school year.

### HEALTH AND SCREENING PROGRAMS

#### Physical Examinations:

It is recommended that Kindergarten students have physical, dental and vision examinations prior to school entrance.

#### Vision Screening:

School District Nurses, along with parent volunteers and the Lions Club, provide a vision **screening** program at your child's school for students in Preschool, Kindergarten, 1, 3 and 5. Your help would be greatly appreciated—call your child's school office if you are interested in volunteering to help with vision screening.

## IMMUNIZATIONS

**"IT'S THE LAW" s.252.04 Wis. Stats.**

This law requires students through grade 12 to be immunized according to their age/grade by the beginning of the school year.

### Immunization is a shared responsibility:

- Parents are required to have their children immunized on schedule and keep accurate records. If a student is unable to receive immunizations for medical, religious or personal conviction reasons, a waiver must be signed and given to the school.
- Schools are required to keep records and review annually the Immunization Law.
- When students do not meet the requirements of the law, parents are notified by a **legal notice**.

### Helpful Hints:

Keep a copy of your child's immunization record. Notify your child's school each time your child receives an immunization. Call your school office if you have any questions.

## Wisconsin Optometric Association Parent's Guide to Good Vision and Healthy Eyes!

### Vision Facts

- **80%** of all learning during a child's first 12 years of life is obtained through vision.
- Vision disorders are the **4<sup>th</sup>** most common disability in the United States and the **most prevalent** handicapping condition in childhood.
- **8 to 12 million** school age children are at risk from undetected vision impairments

The bottom line is: Your child's ability to see clearly in school will have an enormous impact on their ability to learn. As parents, you can ensure that your child's academic performance is maximized from the beginning of their education career by having their eyes tested. Undiagnosed and, therefore, untreated vision problems among our children represent one of the most serious, yet overlooked, health issues facing our nation.

Under the "Clear Vision, Bright Future" Initiative, Wisconsin optometrists have partnered with parents, school district administrators, school nurses and other health providers to encourage students to receive the eye health and vision care they need. This Initiative provides the opportunity not only to enhance the academic future of your child, but also to provide a strong foundation for those who may be at-risk for visual learning problems.

Parents & Teachers-Please do *not* assume that a child has healthy eyes and no problems seeing in school. That assumption could risk the child's future eye health and school achievement. Have their eyes examined.

### **Tips for parents scheduling comprehensive eye exams for their children:**

- 1. Schedule the exam early in the day, at least 3-4 months before school starts**
- 2. Let your child know that there won't be any shots involved**
- 3. Make a game of it; practice looking at pictures and making it fun**

### Wisconsin Law

A current Wisconsin law, Statute Chapter 118.135 states: Each school board shall request each pupil entering kindergarten to provide evidence that the pupil has had his or her eyes examined by an optometrist or evaluated by a physician.

### Financial Assistance for Eye Exams

Many children in Wisconsin do not have insurance coverage for eye examinations. Member doctors of the Wisconsin Optometric Association (WOA) provide free eye examinations for children who do not have insurance and who cannot afford such care. **Please contact the WOA's VISION USA Program at (877) 435-2020 to request an application form or for more information regarding this special program.**

# KINDERGARTEN DENTAL SLIP
