5th and 8th Additional Science Test

Make sure students finish a test before they go to the next test.

You can launch more than one test for students to finish a test they have already started.

*Students will report to their first period class. Mr. Pettis will be in Mrs. Rekemesiks room.

Testing will be campus wide from 8:00-9:25

If your students don't have stamina for that I would adjust to a shorter time period.
