

Prescription Savings

Strategies to Save

The average American spends about \$1,200 each year on prescription drugs. And with drug prices on the rise, 1 in 4 Americans are paying more today than they were a year ago. Consider the following ways to help lower your bills for pills:

- › Go generic or ask your doctor or pharmacist if there's a similar drug with a generic version.
- › Compare prices by using an app, like GoodRx, to find the least expensive option. Call stores and pharmacies as well.
- › Order a 90-day supply and look into a mail-order program.
- › Sign up for a drugstore or chain store reward program to receive coupons and accumulate points.
- › Use a preferred pharmacy in your network.

If you have prescription drug questions, talk to your pharmacist for additional cost-cutting tips and guidance.

GoodRx

Stop paying too much for your prescriptions! With the GoodRx Comparison Tool, you can compare drug prices at over 70,000 pharmacies, and discover free coupons and savings tips.

Isn't health insurance all I need?

Your health insurance provides valuable prescription and other health benefits, but a smart consumer can save much more,

especially for drugs that are not covered by health insurance (weight-loss medications, some antihistamines, etc.), drugs that have limited quantities, drugs that can be found for less than your copay, or drugs with a lower priced generic.

How can I find these savings?

The GoodRx Comparison Tool provides you with instant access to current prices on more than 6,000 drugs at virtually every pharmacy in America.

1. On the web: <https://www.goodrx.com/>
Instantly look up current drug prices at CVS, Walgreens, Walmart, Costco, and other local pharmacies.
2. On your phone: Available in the App Store or Google Play. Or, simply visit m.goodrx.com from your phone.

Please Note:

- › Prescription drug pricing displayed on the GoodRx Comparison Tool may be more or less than your insurance drug card.
- › Please be sure to compare all discount pricing options before you purchase.
- › Check your insurance carrier's pharmacy benefit before purchasing a 90-day supply.
