

## 2024 Community Resource Providers

### Funding Resources:

Division of Services for Persons with Disabilities (DSPD)- This is a government agency that serves and provides funding for individuals with severe disabilities. Individuals must go through a qualifying process before receiving funding/services. DSPD receives funding through appropriations from the legislature. More often than not, DSPD is not able to offer immediate services to eligible individuals so they are placed on a waiting list. Because of this, it is important to get on that waiting list as soon as possible. Go to the DSPD website for more information on how to apply, and what information is required.
