Leadership Day

Sunrise Leadership Day is scheduled for February 29th. The council talked about inviting more community members to attend than in the past. Council members decided that the better way for community members to understand the Leader In Me program is by attending a program lead by the students rather than attend individual classrooms. The program will showcase student talents, explain the program, etc..

Leader In Me Information to Parents

Toni Gibbons suggested that more information on what the children are learning and doing considering the Leader In Me program be available to parents through the Newsletter. Kathy asked that Katelyn Ballif work on providing that.
