A program of Department of Workforce Services – Office of Work & Family Life, Office of Child Care & Utah State University – College of Education & Human Services, Department of Family Consumer and Human Development. Utah State University is an affirmative action/equal opportunity employer.

Why Are Summer Activities Important?

Seventy-six percent of all Utah school age children 5-12 years old have parents in the work force, creating the potential for many children to be left unattended. Many children are not prepared to be left home alone. Children in self-care are more likely to engage in risky behaviors, be truant from school, experience stress, have poor grades and abuse substances. They are susceptible to feelings of loneliness, fear and boredom.

Summer activities are a wonderful way to offer fun, constructive activities to occupy your children's time. Summer activities can give your children learning opportunities that not only help to ease their boredom, but can also help them become well-rounded, socially capable adults.

We, at Care About Childcare - USU, have gathered this list of possible summer activities that may be of interest to you and your children. We hope that you will take the time to talk to your children and help them choose the activities that are best suited to their interests and your needs. Please let us know if we can be of any further service to you.

Take a step back in time and experience Living History at the American West Heritage Center. Come to our Historic Adventures June 7th – August 20th and learn what life was like between the years of 1820-1920. Spend your summer days enjoying hands-on-activities at each of our sites. Try your hand at milking the cow, throwing tomahawks, making ragdolls, and panning for gold. Train and pony rides are included in the ticket price.

Our summer camps are a great way for your children to enjoy the outdoors, meet new friends and make memories that will last a lifetime. Incoming 1st – 6th grade students will enjoy activities on the 1917 Farm, our Pioneer and our Mt. Man & Shoshone site. Students can also participate in our fishing and hot shots camps. Please visit our website for all of the details.

Join us for our Pioneer Day Celebration on Saturday, July 23rd. Enjoy old fashioned activities such as pioneer games, two-man log sawing, cow milking, pie eating contest and tomahawk throwing.

Are you planning a family reunion, handcart trek, youth conference, or girl's camp? We have the perfect solution for you. Reserve your spot in Camp Rendezvous today!

Free Storytime for preschoolers June 1st – September 7th. Pre-registration is required and can be done by calling the front desk. Space is limited.

The American West Heritage Center is great place for you and your family to volunteer.

Please check the website for times and prices of our events.

 Web site: www.willowparkzoo.wix.com/home

Willow Park Zoo is nestled in the heart of Northern Utah in Cache Valley. 220 animals call Willow Park Zoo home. The collection includes a wide variety of species, including muntjac deer, yak, capuchin monkey, bobcat, red fox, green iguana, king snake, insects, and a wide variety of exotic pheasants, water fowl, and tropical birds.

The Zoo's animal collection also includes rare and endangered animals.

WPZ's endangered African grey crowned cranes hatched and raised 2 chicks in 2014. The Zoo is home to NeNe geese, trumpeter swans, bald eagle, citron cockatoo, Canadian lynx, uromastix lizard and other rare species.

The zoo began in 1970, but since breaking away from the city of Logan and becoming a non-profit organization in 2014, it has seen ever-expanding growth and change, including a new entrance and a petting zoo in 2016.

We offer adult and youth classes at night, zoo camps all summer long, daily animal encounters, and a number of special events.

The best way to find out what is coming up is to find us on Facebook at:

<https://www.facebook.com/WillowParkZoo/> or look us up on our website

We are open 10-6 Monday - Saturday June through August. Closed Sundays.

Music for the Small and Tall

Ewa Wilczynski

(435) 755-0853

Website: www.music4st.weebly.com

This is a program for young children, ages 6 months to 5 years, based on the Orff Schulwerk approach to teaching music. In this approach, children make music with activities that are enjoyable and natural for them such as simple songs, rhythms, and movements. Kids play on pitched and non-pitched percussion instruments that are colorful, kid-friendly and safe. During the learning process children improve their concentration, coordination, sensitivity to rhythm and tone, singing, and playing instruments. The participation and modeling of parents and teacher is essential to a child's music growth. Music can be one of the most wonderful and strong forms of communication that parents and their child can experience together.

 Email: heather@overlymusical.com
 Website: www.playwithmemusic.com

The objective for Play with Me Music classes is for caregivers to have positive musical experiences with their infants and children to encourage bonding. Classes will be full of singing, chanting, movement and dance, playing rhythmic instruments, musical games, listening, and exploring a variety of music. Music will aid in your infants development of language and literacy, fine and gross motor skills, social-emotional skills, and cognition (thinking). "Music and music experiences also support the formation of important brain connections that are being established over the first three years of life" (Carlton 2000).

**Individual Tutoring for Elementary Aged Students**

Using a game approach with hands-on practice and use of technology, TIME Clinic tutors focus instruction on the individual needs of the student as determined from diagnostic testing. Tutoring sessions are individual, one-to-one, instruction provided by a specialist in mathematics education. All sessions are held in the Emma Eccles Early Childhood Center at Utah State University and are typically one hour in length. Cost is \$35 per session. However, thanks to a generous donation, we will be able to offer tutoring at reduced rates (\$5 to \$15) to struggling students who qualify for either of the following research projects:

Number Fluency– 1st – 4th Grade Students

Students will participate in 20 to 25 one-to-one 45-minute tutoring sessions. Sessions will focus on the deepening of students' math fact fluency and strengthening their ability to compose and decompose numbers.

Fractions – 4th and 5th Grade Students

Students will participate in 8 one-on-one 45-minute tutoring sessions focusing on equivalent fractions and problem solving. Instruction will focus on the use of manipulatives, technology, activities and games designed to strengthen students' understanding of basic fraction concepts.
