## SKY VIEW

Where the mountain peaks  
meet the starry sky,  
Where the green hills  
meet the blue,  
Stands a place close by  
with its standards high,  
It's our school,  
our own Sky View.  
There's the blue and white  
and a golden hue  
We will long remember too,  
It's a place close by,  
with its standards high,  
It's our school,  
our own Sky View.  
We will always say  
as we go our way,  
And of this it can be told,  
The friendships dear  
we have made while here  
Are a treasure more than gold.  
Where the mountain peaks  
meet the starry sky,  
Where the green hills  
meet the blue,  
Stands a place close by  
with its standards high,  
It's our school,  
our own Sky View.

# BOARD of EDUCATION

1905 saw our school board operating from one room in the county courthouse and consisting of one member — the Superintendent.

The brisk pace of Cache Valley's progress brought the consolidation of all personnel into a district office in North Logan with a roll call of nineteen members by the school year 1967-68.

We, at Sky View and all Cache County schools, sat back and thoroughly enjoyed the benefits we reaped from the grand system which was run by our school board.

Superintendent C. Bryce Draper directed this great system of ours and was assisted by six members, all of whom were elected by the people of Cache County and donated their free hours for us after their regular jobs were done.

They spent this time settling problems ranging from time allotted to sick leave, to renting buildings, and debating subjects like the new vocational school. All this added up to hundreds of meetings.

The outcome was the new pie-shaped vocational school, increased participation in adult high school completion programs until more people were going to Sky View at night than in the day, and plans for a new electronics lab at Sky View. Two-hundred and seventy-five teachers and personnel in addition to fifty supporting workers carried out the school board's plans.

Our school board was worth more than we could ever thank them for — worth more than gold.

Dear Students,

It is not fair to state simply that another year has passed. For most of you, it has been an unforgettable year. Each of you has had experiences that you will remember all the days of your life. I hope they will be pleasant memories.

As we reminisce over this memorable year, may I express my gratitude to those who have contributed in any way to the fine year we have had at Sky View. It is a satisfying experience to watch your progress toward graduation. It is my hope that you have felt a sense of pride in your own individual accomplishments and your continued efforts as a studentbody to strengthen Sky View's position as one of the finest high schools in America. It is my sincere feeling that all of you are entitled to hold your heads high for the honors and reputation you have brought to yourselves and to your school.

Seniors, as we say good-bye to you, it is my wish that you will enjoy happiness and success throughout your lives. May you look back on your years at Sky View as happy and productive ones. May you continue to develop your minds and keep them open to the pleasures of learning.

To those of us who will continue to shape the destiny of Sky View, may we always remember that it should be our goal to make our school the essence of honor, friendliness and high achievement.

Sincerely,

*J. Kenneth Webb*

Principal

Mr. Irel Eppich  
*Vice-Principal*

One smile that no one could have helped but smile back at will be remembered as Mr. Eppich's. The manner in which he helped the constant stream of students and faculty members with all student activities from assemblies and ballgames to co-ordinating clubs and advising student government showed two things: love of work and love for the people worked with. Mr. Eppich said 1967-68 was one of Sky View's "best yet". Everyone knows he helped make it that way.

"I'm ready to go! I am proud to be a part of Sky View!"  
These enthusiastic feelings spoken by Mr. Glen Oliverson on the first day of school showed up every day of the year in his work—work to provide special school services for us, to co-ordinate new programs, to watch attendance in relation to academic achievement, to help us make vocational decisions and to help us develop our treasures.

Mr. Glen Oliverson  
*Co-ordinator*

# COUNSELORS

Mr. Thurston, Mr. Nelson and Mr. Taggart were three giants who carried the problems of 1340 students for 180 days and co-ordinated their many schedules while helping their classes with assemblies, dances, parties, and other activities.

At one time or another we frantically tried to locate them or vice versa. They respected all students for what they were and spent many hours helping them with information and tests for now and the future. Understanding was the air we breathed in their offices.

# SECRETARIES

Remember sudden panic when you had been charged for a \$5 library book that someone else checked out, or you were absent or had to leave school early?

At least one of these experiences happened to all of us, and we were all familiar with the place where they occurred and the four women who always had just the right solution—the secretaries.

From registration through checking out and all during the summer while preparing for the next year, they worked and remained calm. We all depended on them.

# CUSTODIANS

A clean school, well-kept facilities, hearty well-balanced meals, and the safest transportation to and from school and to state activities . . . This made for ideal school functioning and those were the very conditions that Sky View operated under, thanks to our custodians, cooks, and bus drivers.

Each day we enjoyed the newness and beauty of our school building and grounds as we used its facilities. Everything always looked perfect and operated that way as well. To keep repaired the many parts of our huge school that all 1340 of us constantly wore down was the continuous work of our custodians.

Though we roamed mid texts, tests, and assignments by noon there was no place like the lunchroom. The pleasant-faced cooks, the informal atmosphere, enticing aromas, and large quantities of food welcomed us each day and received acclaim from us and Utah administrators.

Always there, always on time, and always a smile and a helping hand. That's our bus drivers! They transported 1125 students regularly, kept four activity buses running to all parts of the valley later in the evening and provided transportation of the studentbody to all kinds of athletic and academic contests.

With all of the responsibility and work it took to accomplish their jobs, we might have thought that these school helpers would become just so many cold machines. They did not. Anyone who went to Sky View knew these people as friends—ones who worked hard at their jobs and yet took time for being friendly and helping us with our activities.

Top to bottom: Angus Esplin, Alden Hodges, Conrad Bailey, Orvid Pitcher, Keith Hillyard, Edward Hyden. Absent when picture was taken: Hans Dewey.

# BUSINESS

Trying to decipher a friend's note written in shorthand led one to wonder about the Business Department. Further investigation showed that two hour blocks were taught to prepare students for employment. One semester classes included: key punch, a new dictation-transcribing unit, notehand, shorthand, type, bookkeeping, business law, and distributive education.

This well staffed department added interest with such new methods as individual shorthand instruction by tape recordings.

Shorthand skills are improved by hard work and diligent practice.

# FINE ARTS

At stake conferences, in USU stadium, marching down the streets of Smithfield, in San Diego, at CSU, on display in our own halls . . . Everywhere we looked our choir, band, and art classes were there representing us with their best. They were well rewarded for the many school and after school hours they spent. They received acclaim from everyone!

Mr. Loosle led the a cappella choir, the special boys' glee, the new performing girls' glee, and all other choirs. Mr. Roe taught a full day of art design, painting and ceramics. Mr. Manning directed the bands. An orchestra class was taught for the first time by Mr. Pack.

# LANGUAGE ARTS

Language Arts at Sky View stood for extensive literary and grammatical study and delved into methods of dramatizing literary works and the excitement of learning a foreign tongue. The library, in the center of the department, was an area of exploration for the entire school.

Foreign language classes brought the rest of the world closer by teaching about customs and people as well as their dialects. English classes for sophomores were filled with literature and grammar while juniors were occupied with American literature. Seniors took these skills and applied them in preparation for college.

## SPECIAL EDUCATION

Lonnie Archibald and Keith Buist of the Special Education class aid janitors through the Work Study Program.

Sky View took pride in saying she had a place for everyone and that her classes gave everyone a good purpose in life. Such was the Special Education Department whose objective was to train and make happy the exceptional student.

The home assistance program was also under this department. The teachers worked hard to keep the hospitalized and homebound students informed on studies they were missing and made them feel part of school life even while away from it.

# MATHEMATICS

A mammoth slide rule, black boards filled with thought provoking numbers, letters, and symbols, and desk tops covered with writing that was supposed to be there—this was a description of the classrooms in our Mathematics Department.

Basic and practical math, plane and solid geometry, Algebra I and II, introductory analysis, trigonometry, basic analytic geometry, and calculus were the classes which put to good use the well-equipped classrooms. The students would not have gone far if it had not been for the patient guidance of a well-educated staff of teachers. They stood by until problems were understood, and we could seek further.

# PHYSICAL EDUCATION

It was a welcome change to go to a class where we could exercise and play just as hard as we wished. Football, volleyball, basketball, baseball, gymnastics, track, all kinds of exercises and modern dance were taught in the girls P.E. Department. Modern dance classes created artistic dance forms and presented a memorable concert with original costumes.

Football, basketball, volleyball, trampoline, horizontal bars, mats, weightlifting and wrestling rooms, and the swimming pool—the finest facilities and coaching staff made up the boys P.E. Department.

# SCIENCE

There is so much knowledge that is known about the world around us and not very many of us will delve far enough into its depths to make new discoveries of our own. The Science Department carried out its program in such a way that it captured all students; not just those especially interested in biology, botany, zoology, chemistry, physiology, or physical science as part of a future career.

Lab equipments, specimens, films, visual aids, and models brought realism to the classroom. The teachers welcomed students eager questions. They got us interested and taught us more.

# SOCIAL SCIENCE

World history, world civilizations, American history, American problems, sociology, economics, and psychology were classes taught in the Social Science Department. The future world was up to us. The teachers of this department worked to help us realize this and be ready for it.

An intriguing method of reading literature that was written during the same period of history that was being studied in class was an addition to the curriculum. Along with the newest of texts and visual aids the teachers of this department did everything they could for us - - - then it was our turn.

# INDUSTRIAL ARTS

To the students that didn't have electronics, woodwork, crafts, power mechanics, automotive technology, drafting, mechanical architecture, or photography as part of their daily schedule the maze of equipment that filled these classrooms appeared complicated.

Under the direction of Mr. Benson, department head, Mr. Baird, Mr. Gilgen, Mr. Maughan and Mr. Blotter, students soon learned to operate and care for this equipment. In 1967-68 an entire new electronics lab was built outside by the P.E. buildings, and an amateur radio station was established.

Only in such a free land as America and a school district such as ours could students gain such opportunity.

The Homemaking and Vocational Science classes were for the most part classes that we could attend during the day and begin using that same night.

Everyone was drawn to the Home Economics Department by the friendly, sunny rooms and the tantalizing smells that never failed to slip under the doors. The students loved to be there and were taught how to sew, cook, choose a husband, purchase a trousseau, manage a budget and care for children—skills that each future homemaker needed. All the girls loved Mrs. Reynolds and Mrs. Swapp for their practical advice.

Appreciation of advisors carried over into the adjacent building where Mr. Mauchley taught Ag Science which involved animal and soil science. Mr. Campbell worked with Ag Mechanics and taught beginning skills, construction, power, and welding where students worked to repair farm machinery.

# EXECUTIVE COUNCIL

Every council member was an individual. They were as varied as songs . . . "Climb every mountain, ford every stream, follow every rainbow, pursued his dreams". . . These words show why we were so proud of Craig Jessop, Executive Council Chairman and leader of the studentbody. "Born free to follow your heart; born free and life is worth living, because you're born free!" Bruce Jorgensen, Vice-Chairman in charge of clubs and organizations, was known for his feelings which were so closely associated with this song. Jill Petersen, Secretary, helped plan activities along with keeping minutes, records, and writing letters and was just "Super-cali-fragilistic-expi-ali-docious!" Nancy Budge was the "Sugar and spice and everything nice" who compiled the school scrapbook. Paul Miller, Executive in charge of athletics, reminded everyone of "Now there's a guy I'd like to know, he's got that good old Sky View pep and go!" "Girls in white dresses with blue satin sashes, snowflakes that stay on nose and eyelashes" and Helen Godfrey, Executive in charge of socials, were all "favorite things!" A boy who was "f-i-n-e fine and we l-o-v-e loved him all the t-i-m-e time" was Rod Ellis, Execu-

tive in charge of publications. Executive in charge of culture, Doug Lemon, was known to have "dreamed impossible dreams and fought unbeatable foes" and won.

The Executive Council harmonized for hours and hours with the theme "A Treasure More Than Gold" and perfected their performance before presenting it to us. They gave us the best—new school sweaters, the first school calendar and pennants, improved floor shows, quality not quantity assemblies, Dear Deer Day, Big Blue days, better hall posters, increased club activity, the best Homecoming yet, pep assemblies closer to game time, a spring carnival, and increased outside publications. This is but a small part of the entire score which was played with STANDARDS as the accompaniment. What a happy year! Thank you Executive Council, with all the deep appreciation that can not be shown even with a gift of gold.

# STUDENT SENATE

If one had chanced to pass any homeroom class on the mornings after Student Senate, they probably would have found a class involved in great discussion. What might have been involved in the debates? Anything about Sky View. "Should the football team have been allowed to nominate the homecoming queen candidates? Should a present school organization have been allowed to put on the alumni assembly? Should assemblies and rights to the bookstore and apple machine be terminated because of a few ill-mannered students?"

These were just a few of the questions which came before the Student Senate while they served the student-body in an advisory manner as a legislative body. They were elected by their homerooms and met once a month under the direction of Mr. Eppich and the Executive Council.

The 1967-68 student senators can always be proud of a job well-done through their efforts.

## CO ORDINATING COUNCIL

At the first of every month, every second hour the Executive Council, class presidents, club presidents, editors of school publications, cheerleaders, songleaders, and boy's and girl's association representatives were excused from class and sent to the auditorium for a meeting. Here was the chance for these students to have a voice in student government while representing their organizations and listening to other student's ideas.

As events and activities like Homecoming, assemblies, half-time shows at games, show case decorations, and hall posters needed to be organized this body took over. Tongues and minds clicked away in these meetings and an hour didn't seem like enough time to get everything accomplished.

Co-ordinating Council meetings were a testing block for new ideas and how they would effect the school. It provided the foundation for the beginning of all plans.

SENIORS . . . What a class! United as Sophomores they won the assembly trophy and when Juniors repeated the performance, plus a "mystic" Junior Prom. Soon they were Seniors. Vaughn Cook, class president, never ceased to amaze his associates. He always found something different to do, something "better than the best". Vice-president, Steve Saunders, was a "loyal and true" Bobcat who always "fought on" for the class. Janet Balls, secretary, gave her all and was seen "smilin' at everybody she met". This statement by Vaughn Cook showed the hard work and enthusiasm generated by the Seniors. "Our purpose was to get an education, have fun, and graduate. We yelled the loudest at games and pep rallies, sponsored the best dance and assembly of the year, and worked our guts out!"

JUNIORS . . . Just through being Sophomores and thinking about what they would do when they became Seniors. "The smile, the style, the winning way" were phrases which described none other than Steve Spackman, the president, behind all of those activities. Mike Wolford was the "swonderful" vice-president who contributed his ideas in planning class events. "Happiness was the world around her" described Kathy Allen, the very busy secretary. With the accomplishments of a Homecoming float, class party, assembly, concert, and Junior Prom in hand, the Juniors looked forward to that long awaited Senior year.

SOPHOMORES . . . The newest class that always looked into the new faces around them with fright and hoped that they would not do anything wrong. They began by electing class officers. "F-I-G-H-T" was what Terry Vinson did for the Sophomore class as their president. Vice-president Dennis Alvey was a steady, ready guy who was a loyal Sky View Bobcat all the "T-I-M-E" time and a "Spoonful of Sugar" was Cathy Jibson the efficient secretary. They wasted no time in getting their class organized and moving and won first place on their Homecoming float entry. They added much to the holiday spirit with their Christmas Dance and Assembly. Our 1967-68 Sophomores fit right in and everyone enjoyed their willingness to become part of Sky View.

# ORGANIZATIONS

*Who went to school just  
For classwork?  
Not Sky View students  
Or teachers!  
We put a part of us  
Into each class  
And looked for yet another way  
To take part at Sky View.  
"I'll do anything!"  
"I can stay after  
Every night this week!"  
"I'd really like to help!"  
As we joined together,  
We found teachers  
Who were interested  
In the same things we were.  
Here Juniors and Seniors  
Were given  
The chance and a challenge  
For leadership.  
Sophomores eagerly took part.  
The organizations competed,  
Were successful and with  
Accomplishments came  
A sense of pride.  
We remember fellow members - - -  
ALL  
Because we got involved.*

# AURORA

Nothing but the truth. That is what the AURORA staff told each other about everything to find the best way to record 1967-68. Nature's wild unknowns were invaded as Vaughn and the girls sought backgrounds for pictures to fit those "perfect dummies" which were constantly "bled". A relay telephone system helped in the day to day hit-or-miss classes job of coordinating the staff and deadlines. Mutual sweat, tears and laughter created a bond of permanent adherence between the staff and advisors. Their efforts are shown in these 184 pages which depict "the time of our lives" with a silent narration now.

# CATONIAN

In 1967-68 the CATONIAN doubled the number of issues previously published. Double issues, double deadlines, double work, double fun and a double good staff. Delightful to chew? Well, only Charlie Mouse knew that. (He got their pop corn.) The papers were scheduled whenever possible to come out for special events, productions, dances, assemblies, vacations, and ball games. This kept the students informed and shot school spirit "sky high". The "Pub" was put to good use and kept partially clean. A few decorations were put up and the Christmas tree lasted way into the New Year. That was our CATONIAN and the staff that created it—a vital part of a growing Sky View.

# CATALYST

Our teachers woke up our imaginations and encouraged us to think for ourselves. One publication of our school printed poetry, short stories, art work and photography. It recognized deserving students in these fields. Its name—the CATALYST. The CATALYST was first published during Sky View's second year as a school. Students concentrated on perfecting their submitted material. Then came the staff's mammoth job of selecting only a few of the hundreds of articles, sculptures, and pictures that were entered. The CATALYST improved every year and the 1967-68 staff strove for newer and better heights.

# GIRLS' AND BOYS' ASSOCIATION

A. Mix snakes, snails, and puppy dogs' tails, yield: one boy. B. Mix sugar, spice, and everything nice, yield: one girl. C. Mix enough of A. and B. as to yield approximately 1300, and you get the Sky View Boys' and Girls' Associations. Sprinkle with films, basketball pointers for the boys and fashion shows for the girls for an active organization.

Girls' Association officers included Lorelee Demler, secretary; Sue White, president; and Jackie Smith, vice-president.

Leading the Boys' Association were Dennis Geary, secretary; Brent Meikle, president; and Joe Folkman, vice-president.

## ARCHERY CLUB

They shot their arrows into the air. They fell to earth . . . where? In the boys' gym where the Archery Club held their gatherings. It was a larger club than ever before and the competition helped to improve their skill. The club also provided handicraft for some of the archers who made their own bows and arrows.

Pep Club advisors were Miss Hall and Mrs. Stevens.

With a flash of white gloves and a hearty yell of "Go! Sky View, go!" our Pep Club bravely pinned victory badges on our team and lead the studentbody with a fiery spirit that dared any school to yell louder. Meetings were held regularly to plan and organize activities. They sponsored the new activity calendars that were sold for the first time this year. A "Once Upon A Time" Homecoming assembly was a credit to their united efforts. The members attended every game and usually went early to sponsor or be guests at pre-game teas which offered a great chance to become acquainted with students of other schools. They had club parties and pre-game dinners, sold programs at games and served at school banquets. Words do not sufficiently express the school's pride in "our Pep Club".

There was an advisor, Mrs. Gines, who practically lived in the gym. She had twenty-three talented girls, and she knew just what to do with them. The girls practiced twice a week all summer and continually with the band after school. Bake sales and record hops helped finance new uniforms and their many trips. They each claimed twenty-two sisters. . . .

## WALLABIES

"Forward roll, backward roll" were common commands for the members of the Wallabies. The club was organized for all students interested in gymnastics. Members displayed their skill on the poles, balance bar and trampoline during a January basketball half time. The members claim, "You don't have to be a professional, but it's fun trying."

## ACTIVITIES

*Sky View had a  
Treasury of  
Student Participation  
In all activities  
Which outshone even  
Midas's "golden touch"  
In the vast wealth  
Of fun, friendship and  
Success that it held.  
We drew from it  
Endlessly for the  
"Just right" dance theme,  
The production of  
Ever-challenging  
Plays and musicals, and  
While vying for the  
Assembly trophy,  
"Something better than  
The best" for a  
Class assembly.  
It was stored in  
The students  
And faculty and was  
Kept radiant with use.  
Never dying,  
Constantly multiplying-  
Let's hear it  
For participation in  
Sky View activities  
Yea!*

# HOMECOMING

Once upon a time . . . desiring to present a memorable honor to Sky Viewites who were part of her four year history, the 1967-68 Executive Council began planning for Homecoming early. Their efforts presented us with "WOW" events themed to "Once Upon a Time."

Excitement began with a special assembly when the Homecoming Queen Becky Harris and her attendants Laurie Israelsen and Jill Petersen were announced. The blast off for a fast succession of activities was the Thursday evening parade through downtown Smithfield. The night rally took place at the football field. WELCOME ALUMNI was cut in the grass, Sky View was written in lights, a bear cave went up in blazes, fireworks blasted, the pep band and pep speakers livened spirit — the songleaders and cheerleaders had presented the greatest pep rally ever! . . .

As winners of the first place float, the Sophomores prepared to 'ride' over Bear River.

In traditional bonfire, Sky View made things pretty hot for the Bears.

We're loyal and true to our white and our blue; fight on you Bobcats!

# "ONCE UPON A TIME"

. . . At 10:00 a.m. the alumni were back to register. The Pep Club and Alumni presented the assembly which aided an amnesic king in recalling his long agos. The Bobcats went out to banish the Bears in a 1:30 game. As time got down to those last crucial minutes, the score was 13-0 for the Bears. Then it seemed the magic of Homecoming took over and a mighty Bobcat squad tied the score in the last thirty-five seconds. Whew! What a thriller!

At 8:30 music drifted out of a glowing, dreamy pink cafeteria. We found the orchestra playing from an "Ole King Cole" setting with a gigantic wishing well, story book garden, theme corner and Queen of Hearts throne. We danced and danced and too soon it was over . . . a perfect once upon a time.

At half time, the queen and her attendants made their royal entry.

"We've got the ball now. Let's go!"

"Aw-oh-ow! Which rat in the audience told you my name was Rumble-Bobcat?"

# "ON A CLEAR DAY"

The 1967-68 Harvest Ball royalty was Rosemary Anderson, queen; Owen Hatch, king; Dennis Alvey and Mary Lee Hillyard, second attendants; Judy Gyllenskog and Craig Harris, first attendants.

Come November, it was the girls turn to watch the boys and choose one to take to the Harvest Ball. "On a Clear Day You Can See Forever" was the theme chosen for the dance which was co-sponsored by the FHA and FFA. Each wall was enhanced with a romantic setting from a corner of the world. North—Aurora Bourealis, South—South Sea Islands, East—oriental garden, West—setting sun, campfire and drifting sands. Preceding the announcement of the royalty, a song was sung that set each scene. The royalty was announced and honored with the theme song as they stood on an oriental bridge 'neath cherry blossom trees. The Weber College dance band set the mood for each couple to dream.

"Look! There's the queerest photographer over there, I wonder what he's up to?"

The last dance should last forever.

"I'm not afraid."

TIME: 33 A.D.  
PLACE: Jerusalem, Athens, and Rome

"Though I love Diana, and I always shall, I cannot deny Jesus!"

"On the night that my Lord needed me most, I, His best friend, denied Him three times, and still He forgave me."

"Trophy, trophy, put the Robe on Marcellus, put it on."

Mrs. Carlson handed out the scripts of *The Robe*. From then on *The Robe* was relived in Sky View's auditorium, ticket booth, back stage, stage craft room, speechlab, speech classes and most important of all, it was mutually shared in the hearts and minds of everyone involved for a long time after the last curtain call and the Pizza House party.

This is how it all began . . . The crucifixion was over. As the earth trembled the drunken soldiers rolled dice for the Galilean's Robe. Marcellus Gallio won. At a banquet that night in Pilate's palace, he is forced to put on the Robe. As he does so, it appears as if an unearthly power has engulfed him. He orders his slave, Demetrius, to destroy the Robe. Marcellus and Demetrius returned to Rome by the order of Tiberius. The Gallio family rejoice at Marcellus's homecoming but are greatly distressed by his apparent insanity which has enamoured him since he put on the Robe. Marcellus holds his young love, Diana, to no promises and leaves with Demetrius for Greece, hoping once again to find himself.

After a hopeless search, Marcellus begs Demetrius to let him take his life. Demetrius offers him the Robe which he has wisely kept. Marcellus gradually becomes calm and gains solace through the source of his torment — The Robe . . .

"Take my son to Athens, Demetrius, and do anything you can to help Marcellus regain his mind."

# THE ROBE

"And maybe the Emperor himself makes mistakes, hmmm?"

"Marcellus, my son, we have missed you so much."

Demetrius encounters difficulty in defending the honor of the Eupolis family.

"A slave does not sit in the presence of his master's sister."

... Marcellus is ordered by the emperor to go to Jerusalem and find out more about the Jew he has crucified. While searching Marcellus becomes a Christian and gains further peace when he confesses to Simon Peter that he had crucified their Lord. He returns to Capri, at peace with himself and more deeply in love with Diana who promises to marry him. Tiberius promises Diana, his granddaughter, to Caligula when Marcellus refuses to give up Christianity. Marcellus escapes and soon after Tiberius dies. Demetrius rescues Diana and takes her to Marcellus. Their love is at last made one. Caligula does not rest until he has captured Marcellus and has Diana by his side. Caligula commands Marcellus to deny Christ. He refuses. Diana speaks against Rome and they are sentenced to die. They went into a better kingdom.

"Any soldier respects the orders he is given."

"It's all right Mother, I have no false hopes about Demetrius."

"My Lord Jesus, take me, take me."

"The Emperor requests the immediate return of Marcellus to Rome."

# "HOLIDAY OF LOVE"

"Dashing through the snow," "tiny tots with their eyes all aglow," "city street lights, busy street lights," "here comes Santa Claus, here comes Santa Claus . . ." With just such Christmas fantasy the Sophomores transformed the cafeteria into a red and green wonderland. Giant packages were opened during the floor show by three anxious boys and three little dolls were announced as the 1967-68 royalty. The dolls were Sheila Baxter, queen; Jackie Godderidge, first attendant; and Jill Maughn, second attendant. The anxious boys were their escorts, Doug Pehrson, king; Dennis Alvey, first attendant; and Neil Matthews, second attendant. The Sophomores had set the mood for a "Holiday of Love."

. . . and a live doll for Tim Taggart. The Chimney Sweeper rides again.

"My goodness, Grant Taylor, don't just stand there. Do something about that mistletoe!"

Steve Saunders catches an unidentified flying object.

Love was a Sky View dance sponsored by the Boys' and Girls' Association. Love was a girls' choice dance, especially to the male part of the school. Love was a softly draped blue and white ceiling, lots of hearts, and a cozy tunnel of love entrance. "Love Is Blue" was the theme. Our Sweetheart Ball royalty, Seniors, Nancy Budge and Dennis Peterson; Juniors, Debbie Clark and Ken Thompson; Sophomores, Cathy Jibson and Brad Pickett were everyone's favorite valentines. Lovely was the mood as the orchestra played dance songs or music to just dream by, and "Love Is Blue" soon was no longer a dream.

Leap year made it official for girls to invite boys to Sweetheart Ball.

Enchanted by the lilting strains of the "Carousel Waltz," Julie Jordan falls in love with carousel barker, Billy Bigelow. The Carousel closes but Julie remains with Carrie Pipperridge. Mrs. Mullins fights with Billy over Julie and fires him. Billy and Julie sing "If I Loved You" . . . They are married. At a June clambake Carrie announces her engagement to Enoch Snow and Julie tells Billy that he's soon to be a father. That night Billy is killed in a wharf skirmish while attempting to steal money to get ready for "his little girl or boy". Fifteen years later Billy is allowed to come down from heaven for a day. He sees his daughter's graduation and conveys to Julie that he did love her with the words "You'll Never Walk Alone" . . .

"Go ahead, call names, but I got him back just the same."

"We'll build a lot more rooms, our dear little house will get bigger."

Mrs. Mullins gives a contented glance as her carousel begins.

"On a night like this I start to wonder what life is all about!"

"When the children are asleep we'll sit and dream."

"This one's finished. Please hang it over Philadelphia, Brother Joshua."

"Fresh and alive and gay and young, June is a love song sweetly sung."

"If I'd had more sense I wouldn't have had thirteen children."

# CAROUSEL

. . . This was the story of Sky View's Carousel — "Mr. Roe, we think dry ice might work." "Mr. Loosle, are we coming down the aisles for the opening song?" and Mr. Schwartz, "Where should we block the love scene?" These three directors and four student directors chose the cast at the first of the year and soon had the spirit of Carousel whirling. Box office, accompanists, publicity, properties, photography, costume, and program managers plus set design, construction, painting, technical and make-up crews soon hopped on the carousel too. The dancing ensembles, orchestra, ushers and stage chorus were not far behind in the merry chase of practice and sacrifice to perfect the musical because it was for Sky View.

"Main thing now is to keep on livin', keep on carin'. Remember those words? When you walk. . ."

*Right:* "I'll go out and make it or steal it or take it or die."

"I tell you Billy, it's as easy as selling cakes."

"There's something I never told, scared you'd laugh at me, but I'll tell you now, I love you!"

"I loved you Julie."

"... and listen to the wind a whistlin' in the soul."

"My little girl."

# PEP ASSEMBLIES

11:40. The cheerleaders, songleaders, pep club, pep band and all others with excuses ran from their classes and headed toward the gym. 11:45. Students began pouring out of classrooms and moving in the same general direction. Was it a fire-alarm? An epidemic? Before long hearty laughter at a skit, clapping for a pep speaker or earth-shaking cheering began raising the roof over the gym. The secret was out — it was a Sky View pep assembly. School organizations backed the cheerleaders and songleaders as they boosted pep. Students witnessed such favorites as Custard's Last Stand in Reverse, a live (?) radio conversation with Mr. Webb in India, plus kum-bi-ae and Coach Tuellie's trampoline love-in.

Sky View school spirit is transmitted to Mr. Webb in India.

# ASSEMBLIES

On the first day of school Sky View began with an orientation assembly and the movie "Fluffy". From then on we assembled once a week. We were brought together as a studentbody to settle school problems, to be informed, to be entertained, to have the opportunity of developing talents and to enjoy friendly competition for the ASSEMBLY TROPHY. The Executive Council constantly searched and planned for a higher quality of assembly. Through their efforts outstanding assemblies were presented by the USU Balladiers, representatives of the United States space team, a soldier with films of Viet Nam, Grant Ballam concerning the use of drugs and the Skyline orchestra. One of the first assemblies was appropriately titled "It's Great to be a Sophomore?" The Pep Club co-sponsored the Homecoming assembly with the alumni, and the FFA and FHA presented the Harvest Ball Assembly. The Sophomore and Junior class assemblies were next. The Boys' and Girls' Associations presented fashion shows and teacher basketball games. The end of the year brought the campaign assembly, awards assembly and finally the Senior assembly.

Sophomore quartet sings of class secretary.

"Z is for zoo", says Auntie Marianne Miller.

Tapping heels and clicking castanets brought the spirit of Spain to Sky View.

Logan City Police Force demonstrates the use of dogs in their work.

Fairy Godmother, Vickie Anderson, reveals Rumpel-Bobcat's name to Kathy Smith.

"Ole!"

"My mother told me there would be days like this."

Rick Downs learns what goes up must come down.

Many hard hours of practice by modern dance classes helped develop grace and creativity.

# JUNIOR PROM WEEK

"There will never be, a portrait of my love" were the lyrics chosen by the Junior Class as their prom theme. Love lyrics, love letters, a combo that played love music, and acts of love, such as mother bringing a glass of water in the middle of the night, completed the scenes. January 27, the day of the dance, dawned clear and warm and added to the anticipation. Six o'clock and all was not well — it began to snow, and as the hours passed it did not stop. Nothing daunted SV students; not even the snowed-in parking lot. All those who could plow in or plod in on horseback brought their dates to a gym that was transformed into an elegant blue ballroom with huge crystal chandeliers. The royalty stood on a framed platform which turned slowly. By the end of the prom week, the Juniors had painted an unforgettable "memory" portrait.

Decorations provide enchanting background for Rosemary Anderson and Scott Maughan.

Michael Ballam sings theme song "Portraits of My Love".

Connie Anderson, Jeanine Rigby and Mary Ann Cooley work on centerpiece that framed Junior Prom royalty.

Heavy snowstorms didn't keep some students from the dance.

Go! Go! Go! Go! And Sky View sports were split wide open with the mighty zest of the varsity kicking off. Four hours of hard turf practice every day for four weeks plus a lot of sweat and liniment, and the Bobcats were ready. School and squad turned out with anticipation for the season opener with Roy. The battle ended with Roy on top, 12-6. Ben Lomond over SV, 34-6; Ogden defeated SV 27-6, but the scoreboard failed to proclaim the Bobcat story of continual pep and determination. Bonneville skinned by in a 7-6 scorcher. Weber edged us by one TD and a punt for a score of 27-13.

## JUNIOR VARSITY

... On Friday the thirteenth the outlook for a Homecoming win looked dim. Twenty seconds were left in the game and the score stood 13-0 for Bear River. Our never-say-die squad burned up the home field with two TD's and completed the punt to tie the score before time ran out! We tied Box Elder 13-13 in the next game. The grid season ended in a 12-6 battle with Weber winning only after a valiant fourth quarter.

Push through, Bobcats! Push through!

Final games proved that Sky View could expect a lot more gridiron greats.

# BASKETBALL

Get up there and get that—jump ball! Get up there and get that—jump ball! Bobcats began basketball region play on December 8 with a lot of potential, a dogged determination to make something of it and a reputation of qualifying for the state tournaments. The first game at Box Elder ended in a disappointing loss for Sky View. The next three games with Weber, Bear River and Intermountain were sweated out and ended in three rallying wins. Logan and Bonneville then threw us for two losses. Nothing rocked the faith that the studentbody and Cache Valley fans had in their salty crew and captain "Ike". They kept working out plays and searching for the five who could work best together. They barreled on to defeat Ben Lomond, Roy, Logan, Ogden, Intermountain and Box Elder, with only Bear River breaking the winning streak.

The team finished second in Division 1 and third in Region 1 . . .

All for one, one for all, everyone for the good of Sky View — that described the Bobcat basketball players.

# WRESTLING

Fight! Fight! Fight! That was what it took to wrestle — FIGHT. Bobcat wrestlers struggled with teammates for a position on the squad, swabbed liniment on stiff muscles, suffered mat burns, ran through the halls sixth hour covered with sweat suits and coats and fought with their appetites to keep their weight low enough for pre-game weigh-in's. Beginning in the late fall and continuing until early spring, the wrestlers spent sixth hour and after school hours in the gym balconies — WORKING. A big pay-off for the team's continual efforts came when they could post a final 9-1 record at the end of the season. The Bobcat matmen defeated Bonneville, Box Elder, Bear River, Intermountain, Roy, Weber, Ogden, Marsh Valley and Clearfield. Ben Lomond, the state champs, beat them by eleven points for their only loss. The Varsity also won the Sky View Invitational for the fourth time. The Junior Varsity ended the mat season with a 10-1-1 mark while the Sophomore grapplers gained the Sophomore tournament trophy for the third time. The team placed seventh in the Region 1 Meet, although the win-loss record placed SV second.

The wrestling mats were soon rolled up for another year, but the school's pride in 1967-68's wrestlers was always on display.

# SWIMMING

Swimmers, take your marks—get set—Go! Hours of practice consisting of swimming 100 lengths and perfecting diving and stroke skills prepared the swimming team for competition with other schools. Coach Jensen scheduled a meet every Thursday from November 6 to February 17. The Bobcat tankers came out third in region competition and broke five school records during the 1967-68 season. Six of the swimmers represented SV at state. The SV swimming team conditioned bodies and, more important, developed fine young men.

# BASEBALL

Ahh! Spring appeared and Sky View's fancy turned to diamonds—baseball diamonds. With grueling bat cracking, base sliding, muddy cleats and arms in need of liniment, the baseball hungry Bobcats began their season. The spring of '68 provided some ideal skies, and coaches Robertson and Ransom began practice early in March. Persistent practice was held during sixth hour and after school until the last weeks of May as often as "old man weather" would allow. Exercises, batting, fielding and working out special plays ate up the work-out time. The Seniors exhibited precision during their final season of action while the Juniors and Sophomores lent enthusiasm and skill—all learned together. Intersquad games sharpened the friendly competition and prepared the teams for league play. It was the time of the year when our nation's favorite sport sprouted wings, and the Sky View diamond nine were no exception.

Up, up and over.

# TRACK and FIELD

Sky View's literally breathtaking spring sports, track and field, started early, thanks to extra warm and dry March weather, only to be abruptly interrupted by a March 18 snowfall. Runners, jumpers, and hurlers burned up sod and cinders in feats that required extreme endurance, strength and speed. High jumps, relays, pole vaults, javelin throws and hurdles completed the Bobcat schedule of events. Aching muscles, tired bodies, sweat, injuries and disappointments did not by pass track and field any more than they did other sports. This was only the physical outlook, however. The temporary one that was ignored in gaining victory in training the man and against other teams. It was completely dissolved in the fervor of the team huddle at the end of each meet.

Rod Anderson and Wayne Ashcroft stress muscle co-ordination in the hurdles.

Determination, desire and endurance are three elements necessary in track.

# CROSS COUNTRY

As the school year began, Sky View's cross country team was off like a shot—running over one of the roughest courses in the region. The test of endurance started out on the track and ran south to the road. A turn east took the runners one-half mile, then it was north for three blocks and west for six blocks. The course then swerved south one block, traveled across the football practice field, and ended with a heated lap around the track. Endurance and a strong will for the win were the obvious requirements of success in running the unusual course of the cross country marathon. Coach Jensen and seven team members gave their all to cross country and Sky View in capturing a record of four wins and three losses.

# GOLF

As soon as the grass made a showing in the spring, Sky View golf fans headed for the nearby green and spent all of the time they could keeping their eyes on small white balls, holes, and swinging clubs. Coach Jensen directed course practice and coached the teams on during the ten scheduled region meets. Enthusiastic and skilled team members were ready to do their best in vying for state qualification.

A 3.7 grade point average or above—a statement that was required often in filling out applications, a statement that had great meaning for those who earned it. This achievement would bring future rewards.

# YOUNG AMERICANS

"Who wrote in olde English?" "Who was buried sitting up?" "Who said the roads were too slick!?" . . . and who searched for the answers to these queries? Sky View's first ten delegates for KSL television's Young Americans quiz show. Participants Courtney Smith, Bruce Jorgensen, Doug Lemon and Gwen Grimshaw totalled 150 points to beat Box Elder while the six alternates and advisors Mrs. White and Mrs. Shaeffer cheered them on. The two weeks before the show had been filled with a general review in science, English, art, history, economics and math.

Row one: Dixie Toolson, Gwen Grimshaw. Row two: Courtney Smith, Marianne Miller, Ronald Axtell. Row three: Jay Mauchley, Brad Buetler. Row four: Tim Taggart, Bruce Jorgensen, Doug Lemon.

# SCIENCE FAIR

Doug Lemon, Mary Lynn Evans, Philip Rasmussen.

# BAND of AMERICA

Row one: Von Hansen, Randall Coleman. Row two: Kent Poulsen, Steve Thunnell, Gregg Olsen.

It was at the conclusion of a delightful March concert that Mr. Manning announced five band members who were to participate in the School Band of America. These students were to tour Europe with this band for a month during the summer of 1968. Talent and extra practice made this experience possible.

# STATE INTERPRETIVE

Following the Region Speech meet, the trophy was placed in the hands of Mrs. Carlson for the fourth time. Success had depended upon individual effort and genuine support of the group. A one act play, mono-acts, pantomimes, dramatic readings, storytelling and humorous readings were the fields of competition. The speech students went to the state meet with an attitude of "we will do our best", and returned with the third place plaque.

Row one: Craig Jessop, Helen Godfrey, Jackie Smith, Marcia Cooley, Laurie Israelsen, Vicky Anderson, Marcene Oliverson, Brad Beutler. Row two: Elaine Morrill, Janis Haslam, Marianne Miller, Janet Balls, Suzanne Maughan, Sue McGreagor, Patti Budge, Dave Herschi. # NATIONAL HONOR SOCIETY

Official white cards stating that one was a member of the National Honor Society, Cum Laude, were presented to these Bobcats as an honor for their efforts in their three years at Sky View. A 3.7 grade point average, citizenship and participation in school activities were the qualifications. Mr. Keller advised the society which met to enjoy parties and college discussions.

Row one: Jane Bischoff, Dixie Toolson, Janis Haslam, Bonnie Balls, Jackie Smith, Kathy Krebs, Shirleen Affleck. Row two: Tamara Lewis, Flora Pope, Vicki Maughan, Vicky Anderson, Marianne Miller, Jill Peterson, Peggy Hyden, Kathryn Olsen. # ADMINISTRATOR TOURS WORLD

On February 7, 1968, Mr. Webb left Sky View for a six and one-half weeks' visit to India and a trip around the world. Our principal was selected with seventeen other educators from the United States to go to India and work with Indian educators to improve their school system. Mr. Webb was the only educator from Utah that was honored to attend the Seminar.

The President of India had the privilege of meeting our Principal, Mr. Webb, during his trip to India.

## STATE FORENSICS

Debaters, extempors, radio speakers, orators and legislators participated in pre-region meets to prepare for the USU Regional. Constant review on current issues aided the debaters and extempors. The orators searched for topics which they felt strongly about. The radio speakers practiced by recording and legislators studied Robert's Rules of Order. Those qualifying for state represented Sky View proudly.

Row one: Pat Plowman, Kathy Krebs, Dave Herschi, Meridene Hansen, Kathy Smith, Shauna Karren. Row two: Bruce Fleming, Courtney Smith, Jackie Smith, Craig Jessop, Philip Rasmussen, Vicky Anderson. Row three: Randy Simmons, Mike Duersch, Doug Lemon, Bruce Jorgensen, Tim Taggart, Jay Mauchley.

# STERLING SCHOLARS

# DEPARTMENT

## AWARDS

Three years of development and pursual of talent and knowledge were honored in the Awards Assembly. Plaques were presented to the outstanding students for physical development in P.E.; dexterity and knowledge in science, industrial arts and agriculture; and for experience gained through business and home-making projects. Students were rewarded for an understanding of the world through social science and English, for an understanding of music plus hours of practice in vocal and instrumental music and for speed and accuracy in business. A general scholarship award was given to the student with ability in "everything". Departmental awards had a lot to do with devotion—the kind which these students gave.

# Born to lead... who needs him?

We do.

We in America need every leader  
we can get.

Our country is rich, it has resources.  
But it takes leaders to make wise use of  
resources, manpower, and human skills.

The colleges educate most leaders,  
but they are facing rising costs and  
increasing enrollments.

The colleges need classrooms,  
science facilities, libraries and—above  
all—more good teachers.

If we want the colleges to help us,  
we must help them.

It's everybody's concern, so—Give  
to the college of your choice.
