The Time You Invest Daily Now Will Pay Off In The Future Success Of Your Child

- Before you know it, your child will be in 12th grade. Where will the next years lead them?
- What will they be doing after High School?
- Will they be applying for college?
- Together we play a major role in his/her future!

Future Success Begins Now!

- Purpose - The purpose of today to assist you in preparing your son/daughter to be a successful student, which will lead to success not only in his/her Elementary years, but also in Junior High, High School and College.
- How?- Through collaboration between parents with Meadow Green staff. With your consistent overseeing of your child's academics daily.

Structure in the Home Today for Success Tomorrow

- Manners and respectfulness. Parent modeling. Hold high expectations.
- Talk with your child daily about what they are learning in school.
- Homework area and structured time daily. No TV, or distractions. Read as a family.
- Create clear rules and rewards and have consequences for undesired behavior.
- Be a parent, not a friend of your child.
- Ask questions regarding academics.
- Seek our assistance and support as well. We are in this together for one reason: Academic and social success now and in the future.

Be Aware of All Areas of Your Child's Development

- Set homework time for success.
- Have breaks in between homework and the end of school.
- Structured activities are great, but be careful not to overload.
- Set them up for success different from your success as a child. We are all different learners.
- Always compliment and reward hard work even though the reward is small.
- Have fun outside of homework and school.
- Be aware of friendships.

Daily Meadow Green Campus Expectations

Believe in Our Children, Believe in PTA

~ ~

~ ~ ~ ~ ~

- We promote family engagement via membership, meeting attendance, and volunteering.
- We are an avenue to address topics important to Meadow Green parents, teachers and students.
- Our mission is to positively impact the lives of all children and families.

Why Family Engagement??

“...[C]ommunicating and doing things with your student, your student’s teacher or your student’s school to support your student’s learning and success. Parents, family members and other caregivers can be involved in a student’s education in many ways.” - California Department of Education

Several Ways to support your student via PTA:

- Enrich school events by sharing a special skill, talent or experience.
- Plan or run a PTA or school program, activity or event.
- Prepare PTA materials, mailings or packets at home.

Parent-Teacher Communication is Key

Strong interaction, teamwork and partnership between families and teachers create the optimal environment for student success. Parents make a difference by staying up to date on classroom and school news, attending school events whenever possible and addressing concerns or questions honestly, openly and early on.

Just a few opportunities:

- Attending meetings and sharing the parent view on school-related issues.
- Working with other school and community leaders as a PTA volunteer to devise programs, policies and practices that support student achievement

How do to join and contact PTA?

Sign up for PTA with any one of the PTA board members.

'Join the PTA' flyers will be sent home with your back to school packets
