[Government Code Section 66001(e)]

## Item 1– Description of Fee and Use

- A fee is levied on new residential and commercial/industrial construction and construction projects greater than 500 square feet on existing residential and commercial/industrial property located within the District.
- The fees are used for costs related to making changes to improve capital assets.

## Item 2 – Amount of Current Fees

The District collected \$2.13 per square foot for residential construction.

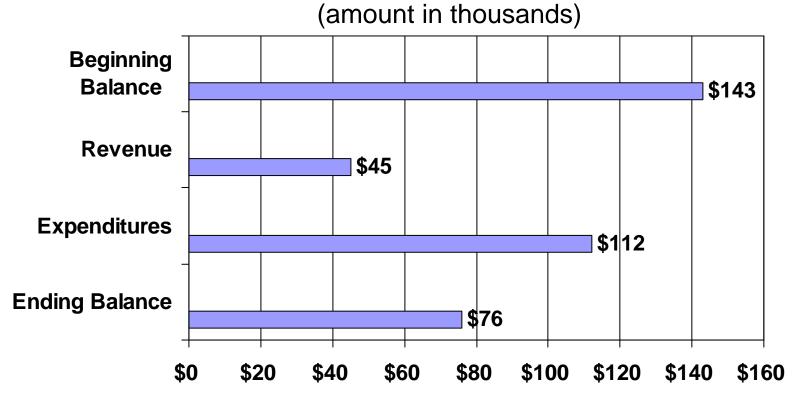

The District collected \$0.34 per square foot for commercial construction.

# Criteria to Levy Level II Fees

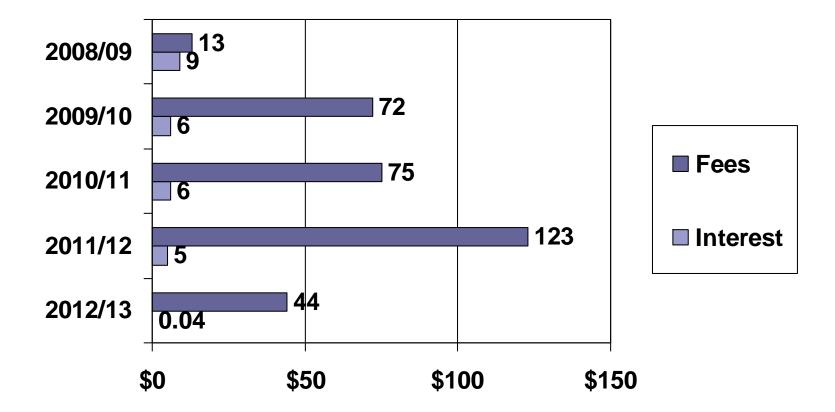

Under provisions of SB50 (1998), fees cannot exceed the statutory amount unless two of four criteria are met:

- Substantial amount of students are on multi-track yearround schools;
- □ District has placed a local bond on the ballot;
- District has issued debt equivalent to 30 percent of bonding capacity; and
- □ At least 20 percent of the teaching stations are relocatable classrooms.
