### **Supplementary Instructional Materials**

With the approval of the Superintendent or designee, teachers may use supplementary instructional materials that are relevant to curriculum objectives and compatible with district goals and objectives

Teachers shall carefully preview all supplementary instructional materials in order to ensure that, in their professional judgment, the materials are:

1. Directly related to the course of study in which they are being used
2. Appropriate for students' ages and maturity levels

Supplementary instructional materials must also be consistent with criteria developed for the selection and evaluation of other instructional materials. If the teacher believes that the materials may be in conflict with district criteria, the teacher shall confer with the principal or designee before using them.

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

When using supplementary materials, teachers shall provide appropriate introductory and follow-up activities. In addition, teachers shall ensure that supplementary materials do not supplant the use of basic texts or teaching activities.

(cf. 6162.6 - Use of Copyrighted Materials)

### **Films**

When a teacher desires to show a film that has not been approved by the district or county for use in the grade level taught, the teacher shall preview the film to determine whether in his/her professional judgment it is consistent with district criteria for the selection of instructional materials. All films must be appropriate for the curriculum and the students' ages. Any film not previously approved must be approved by the Superintendent or designee prior to its showing.

If the teacher has any questions about how established district criteria apply to the film, he/she shall confer with the principal or designee before showing the film.
