

Dear Parents,

I will begin assessing our high frequency words for the 2nd Nine Weeks Report Card on Thursday, December 12th. In order to be counted as a word read accurately, your child must read the word automatically -- within 3 seconds without blending.

This is the breakdown for the 2nd Nine Weeks Report Card:

4 = Your child can read the list of all 50 words accurately and automatically multiple times.

3 = Your child can read 22-49 sight words accurately and automatically.

2 = Your child can read 11-21 sight words accurately and automatically.

1 = Your child can read 10 or fewer sight words.

By the end of 1st semester, 43 sight words will have been taught. Of these 43 words, there are only 22 that your child is expected to have mastered by the end of 1st semester. These are the words:

a like at go an

no for we find be

is me and as so

he you the I can

she am

Thank you for your support at home!
