MCS Phone Policy: Cell phones and earbuds/headphones will not be allowed to be used during classroom instruction time. ***Phones and earbuds/headphones will be put away in a location designated by the teacher and placed in silent mode.*** In secondary schools, students will have access to their phones and earbuds/headphones outside of classroom instruction time, such as between classes and lunch. Failure to follow these procedures will result in a disciplinary referral to the office.

Turnitin Notice: The majority of writing assignments in this course will be submitted to Turnitin via the Schoology learning platform. The primary focus of this software is to help students become better writers and scholars. Turnitin generates a report on the originality of student writing by comparing it with a database of periodicals, books, online content, student papers, and other published work. This program will help students discern when they are using sources relatively, citing correctly, and paraphrasing effectively—skills essential to all academic work. Students will have the opportunity to review their Turnitin originality report and will have the chance to make revisions before submitting their work for grading. Once their work is submitted, teachers have the opportunity to view the students' originality reports and grade them accordingly.

AI Notice: Students are prohibited from using AI or any AI-generated content to complete assignments, exams, projects, or any other form of academic work unless expressly permitted by the instruction or institution for specific educational purposes.
