October 18, 2013

To the Board of Directors Lane County School District No. 32 Lane County, Oregon

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lane County School District No. 32, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the lane County School District No. 32, as of June 30, 2013, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The District adopted the provisions of GASB Statement No. 63, *Financial Reporting of deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, for the year ended June 30, 2013. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated October 18, 2013, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

ROY R. ROGERS, CPA PAULY, ROGERS AND CO., P.C.

MAPLETON SCHOOL DISTRICT #32

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2013

As management of Mapleton School District #32 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2013.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets of the District exceeded its liabilities on June 30, 2013 by \$1,306,026. The District's governmental funds report a combined ending fund balance of \$1,175,168 on June 30, 2013. At the end of the fiscal year unassigned fund balance for the General Fund was \$395,554 which represents 18.14% of the total General Fund expenditures. On June 30, 2013 the District's total long-term liabilities totaled \$600,000.
- The total cost of all District programs was \$2,665,232 for the fiscal year, an increase of \$44,796.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components:

1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The **statement of net position** presents information on all of the assets and liabilities of the District as of the date on the statement. Net position is the amount remaining after the liabilities have been paid off or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The **statement of activities** will present information showing how the net position of the District changed during the most recent fiscal year. Revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

In the *government-wide financial statements*, the District's activities are shown in one category as governmental activities. The governmental activities include services related to education K-12. These activities are primarily financed through property taxes, Oregon's State School Fund, and other intergovernmental revenues.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District maintains eight funds: the General Fund, the Special Revenue Fund, the Capital Improvement Fund, the QZAB Fund, the Transportation Reserve Fund, the Food Service Fund, the Student Body Accounts Fund, and the Scholarship Fund. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for three funds.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 14-25 of this report.

Government-Wide Financial Analysis

Statement of Net Position. As noted earlier, net position may serve as a useful indicator of a government's financial position over time. Total Assets, Liabilities and Net Position were as follows:

	<u>June 30, 2012</u>		<u>Ju</u>	ne 30, 2013	<u>Tc</u>	<u>otal Change</u>
Assets						
Current Assets	\$	1,518,883	\$	1,314,664	\$	(204,219)
Capital Assets		747,622_		698,187		(49,435)
Total Assets	\$	2,266,505	\$	2,012,851	\$	(253,654)
Liabilities						
Current Liabilities	\$	157,671	\$	106,825	\$	(50,846)
Long Term Liabilities		622,000		600,000		(22,000)
Total Liabilities	\$	779,671	\$	706,825	\$	(72,846)
Net Position				·		
Invested in Capital Assets	\$	124,647	\$	98,187	\$	(26,460)
Restricted		666,072		720,905		24,833
Unrestricted		696,115		486,934		_(179,181)_
Total Net Position	\$	1,486,834	\$	1,306,026	\$	(180,808)

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets includes land, buildings and improvement, site improvements, vehicles and equipment. The remaining assets consist of cash and investments, and receivables. As of June 30, 2013 the District had invested \$698,187 in capital assets, 34.68% of total assets. Depreciation expense for the year totaled \$49,435. There were no capital asset additions that met the capitalization criterion.

The District uses the capital assets to provide services to students and other District residents; consequently these assets are not available for spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Long-term debt. At the end of the current fiscal year, the District had a total debt outstanding of \$600,000 consisting of the QZAB debt.

The District's revenues and expenses for the last two years were as follows:

	<u>Jı</u>	ıne 30, 201 <u>2</u>	ne 30, 2013	Net <u>Change</u>	
Revenues:				÷	
Charges for Services	\$	11,301	\$	5,669	\$ (5,632)

Support Services		1,133,147		1,127,489	(5,658)
Community Services		102,925		114,685	11,760
Total Expenses	\$	2,620,436	\$	2,665,232	\$ 44,796

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's *governmental funds* is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

On June 30, 2013 the District's governmental funds reported combined ending fund balances of \$1,175,168.

The *General Fund* is the chief operating fund of the District. As of June 30, 2013 unassigned fund balance was \$395,554 while total assets reached \$544,528.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to Oregon law and is based on accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The net change in the General Fund Balance for the year ending June 30, 2012 and 2013, respectively is as follows:

	Ji	June 30, 2012		ine 30, 2013	i	Net Change	
Revenues:							
Local Sources	\$	593,023	\$	553,534	\$	(39,489)	
Intermediate Sources		33,523		3,281		(30,242)	
State Sources		1,581,535		1,454,435		(127,100)	
Federal Sources		84,556		11,711		(72,845)	
Total Assets	\$	2,292,637	\$	2,022,961	\$	(269,676)	
Expenditures:							
Instruction	\$	1,095,282	\$	1,120,960	\$	25,678	
Support Services		1,069,904		1,028,818		(41,086)	
Community Services		4,697		-		(4,697)	
Capital Outlay		19,253		31,137		11,884	
Total Expenditures	\$	2,189,136	\$	2,180,915	\$	(8,221)	

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The most significant economic factor for the District is the State of Oregon's State School Fund Formula. The formula consists of a General Purpose Grant, a Transportation Grant, and certain local revenues. The state of Oregon's State School Fund formula is awarded on a per pupil basis. When the District's student count goes up, our state revenue will increase, likewise, when the student count goes down, our state revenue will decrease. Over the course of the last couple of years our student population has remained stable. Although our student count has remained stable, the state of Oregon's financial crisis has impacted the dollars per pupil and has greatly reduced the District's funding from the state.

Looking forward to the next biennium, the District will benefit from the Oregon State Legislature 2013 Special Session. HB 5101 increases the biennial appropriation to the Department of Education for the State School Fund for the 2013-15 bienniums. The additional revenue will be distributed to school districts and Education Service Districts (ESDs) through the established distribution formula, beginning July 1, 2014.

Salary and benefit costs will increase in 2013-2014 based on negotiated contracts. These established contracts and salary schedules, for classified and certified employees, are set to expire June 30, 2014.

The District's Budget Committee and School Board considered all of these factors when preparing the District's annual budget.

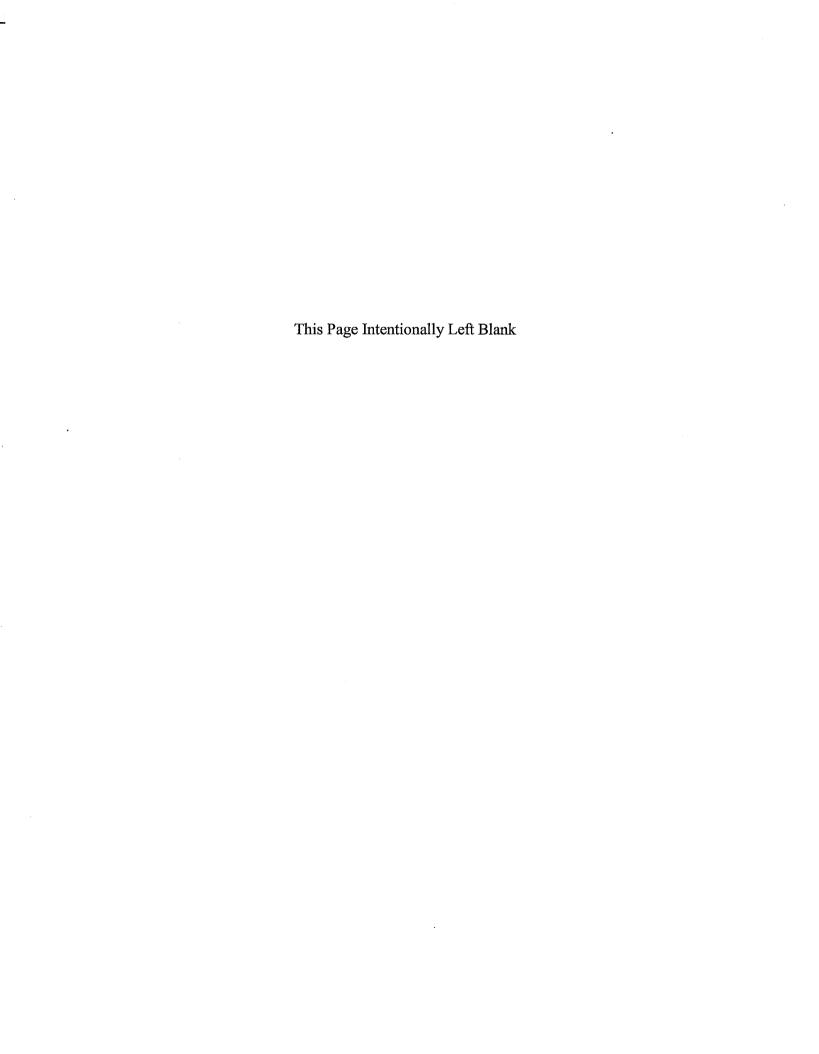

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager, at 10868 E. Mapleton Rd., Mapleton, OR 97453.

Jodi O'Mara, Superintendent

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2013

Total Net Changes in Fund Balances - Total Governmental Funds	\$	(149,140)
Repayment of capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Additions to capital leases are expenses for the Statement of Net Position but not the Governmental Funds.		
Long-Term Debt Principal Payments		22,975
Compensated absences are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities the net payment represents a reduction in liability.		(6,999)
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeds depreciation.		
Depreciation Expense		(49,435)
Property tax in the Statement of Activities differs from the amount reported on the governmental funds. In the governmental funds, which are on the modified accrual basis, the District recognizes an unearned revenue for all property taxes levied but not available to satisfy current obligations; however, in the Statement of Activities, there is no deferred revenue and the full property tax receivable is accrued.		1,791
Change in Net Position of Governmental Activities	\$	(180,808)
	<u> </u>	(100,000)

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Basic Financial Statements of Lane County School District No. 32 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

A. REPORTING ENTITY

The Lane County School District No. 32 is a municipal corporation governed by an elected five-member board, organized under provisions of Oregon Statutes Chapter 332 for the purpose of providing kindergarten through high school education. Accounting principles generally accepted in the United States of America require that these financial statements present Lane County School District No. 32 (the primary government) and all component units, if any. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61, are separate organizations that are included in the reporting entity because of the significance of their operational or financial relationships with the District. There are no component units.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

Government Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the District as a whole.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses of assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-Exchange Transactions." Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All direct expenses are reported by function in the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Program revenues derive directly from the program itself or from parties outside the taxpayers or citizenry, as a whole. Program revenues reduce the cost of the function to be financed from general revenues and include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Fund Financial Statements

The accounts are organized and operated on the basis of funds. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Funds are maintained consistent with legal requirements.

Governmental Fund Types

Governmental funds are used to account for general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions and certain compensated absences which are recognized as expenditures because they will be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The following major governmental funds are reported:

General Fund

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

QZAB Fund

This fund accounts for the earnings and reserve activity for funds needed to pay the Qualified Zone Academy Bond at maturity.

Other Programs Fund

This fund accounts for revenues and expenditures of federal grants.

The following non-major governmental funds are reported:

Other Governmental Funds

The Other Governmental Funds account for the aggregate of all non-major governmental funds.

Interfund Transfers

The interfund transfers reported on the combined statement of revenues, expenditures and changes in fund balances are operating transfers. Operating transfers are legally authorized transfers from a fund receiving revenue to the fund where they are to be expended.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Property Taxes

Ad valorem property taxes are levied and become a lien on all taxable property as of July 1. Property taxes are payable on November 15. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15. Property taxes unpaid and outstanding on May 16 are considered delinquent. Property taxes are collected from taxpayers by the Lane County Department of Assessment and Taxation and are remitted to the District.

Uncollected property taxes are shown in the balance sheet. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

Grants

Grants are recognized as revenue in the accounting period in which they become both measurable and available and in which all eligibility requirements have been met. When expenditure is the prime factor for determining eligibility, the revenue is recognized when the expenditure is made. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability on the combined balance sheet.

<u>Inventories of Supplies</u>

Inventories are valued at cost (first-in, first-out method). Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased in the government-wide statements but expensed when purchased in the fund statements.

Accounts Receivable

The accounts receivable are all current and are considered by management to be fully collectible. Therefore, no provision for uncollectable accounts has been made.

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment, are reported in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. The capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements 15 to 50 years
Furniture 20 years
Vehicles and Equipment 5 to 15 years

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. As permitted by GASB Statement No. 34, the cost of bond issuance will be amortized prospectively from the date of adoption of GASB Statement No. 34.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Retirement Plans

Substantially all employees are participants in the Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged to expenditures as funded.

Accrued Compensated Absences

Accumulated accrued compensated absences for vacation pay are recorded as liabilities in the government-wide financial statements as the entire amount is expected to be liquidated with expendable available resources. Accumulated sick pay does not vest and therefore, no expense is recorded until leave is taken.

Net Position

Net position is comprised of the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – consists of external constraints placed on assets used by creditors, grantors, contributors or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There are restricted assets for Future Debt Payments, Student Body, Transportation, Food Service, Other Programs and Scholarships.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District does not have any items that qualify for reporting in this category.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District does not have any items that qualify for reporting in this category.

C. FUND EQUITY

In March 2009, the GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

- <u>Nonspendable fund balance</u> represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. The authority to classify portions of ending fund balance as Assigned is granted to the Superintendent and the Business Manager. Such assignments cannot exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no committed fund balances as of June 30, 2013.

The District has established an unassigned targeted minimum fund balance of ten percent of the annual operating revenues of the General Fund.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

NOTES TO BASIC FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

A budget is prepared and legally adopted for each governmental fund in accordance with Oregon Local Budget Law. These budgets are all prepared using the modified accrual basis of accounting. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America with the exception that capital outlay expenditures are expensed when purchased, depreciation is not recorded, inventories of supplies are budgeted as expenditures when purchased, debt, capital leases and compensated absences are expensed when paid, and property taxes received greater than 60 days after yearend are not considered budgetary resources in the funds.

The budgeting process begins by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts and appropriation transfers approved by the Board. Appropriations lapse at the end of each fiscal year.

For the year ended June 30, 2013, expenditures of the various funds were within authorized appropriation levels, except in the Other Programs Fund where Community Services expenditures exceeded appropriations by \$1,818, and the Food Service Fund had Community Services expenditures exceeding appropriations by \$11,683.

NOTES TO BASIC FINANCIAL STATEMENTS

3. CASH AND CASH EQUIVALENTS

A. DEPOSITS

Deposits with financial institutions are comprised of bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. At June 30, 2013 all depository accounts were held at approved depositories identified by the Treasury.

At fiscal year-end, cash and equivalents were as follows:

Deposit with Financial Institutions:

Local Government Investment Pool	\$ 259,191
Demand Deposits	404,903
Cash with Fiscal Agent (see note 6)	566,555
Total Cash and Investments	\$ 1,230,649

Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2013, \$500,000 of the bank balance of \$1,019,683 was covered by FDIC, and the remaining balance was adequately collateralized.

B. INVESTMENTS

Policy is to follow state statutes governing cash management. Statutes authorize investing in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB), which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2013.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. As of June 30, 2013 the fair value of the position in the LGIP is the approximate value of the pool shares as reported in the Oregon Short Term Fund audited financial statements. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

NOTES TO BASIC FINANCIAL STATEMENTS

3. CASH AND CASH EQUIVALENTS (CONTINUED)

B. INVESTMENTS (CONTINUED)

As of June 30, 2013 the District had the following investments and maturities:

	Investment Maturities (in months)						
Investment Type]	Fair Value		Less than 3		More than 3	
State Treasurer's Investment Pool	\$	259,191	\$	259,191	\$	<u>-</u>	
Total	\$	259,191	\$	259,191	\$		

Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

Credit Risk

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

Concentration of Credit Risk

At June 30, 2013 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument. Oregon Revised Statutes require no more than 25 percent of the moneys of local government to be invested in bankers' acceptances of any qualified financial institution. At June 30, 2013, there was compliance with all percentage restrictions.

4. RECEIVABLES

Receivables at June 30, 2013 consist of the following:

- A. Property taxes receivable represent delinquent amounts due for property taxes levied in the current and prior years.
- B. Grants receivable represent amounts due for claims for reimbursement of costs under various Federal grant programs.

NOTES TO BASIC FINANCIAL STATEMENTS

5. CAPITAL ASSETS

The changes in capital assets for governmental activities for the fiscal year ended June 30, 2013 are as follows:

	Balance			Balance	
	July 1, 2012	Additions	Deletions	June 30, 2013	
Land	\$ 46,410	\$	\$ -	\$ 46,410	
Total Non-Depreciable	46,410	<u> </u>		46,410	
Buildings and Improvements	8,532,860	-	-	8,532,860	
Equipment	213,957	-	-	213,957	
Vehicles	481,903			481,903	
Total Depreciable	9,228,720			9,228,720	
Accumulated Depreciation:					
Buildings and Improvements	(8,029,908)	(23,682)	_	(8,053,590)	
Equipment	(205,494)	(1,812)	_	(207,306)	
Vehicles	(292,106)	(23,941)	-	(316,047)	
Total Accumulated Depreciation	(8,527,508)	\$ (49,435)	\$ -	(8,576,943)	
Government Activities:					
Capital Assets, net	\$ 747,622			\$ 698,187	

Depreciation was allocated to the following functions:

Instruction	\$	26,171
Support Services		21,157
Enterprise and Community Services		2,107
Total	. \$	49,435

NOTES TO BASIC FINANCIAL STATEMENTS

6. LONG-TERM DEBT

The following changes occurred in the long-term debts during the fiscal year ending June 30, 2013:

	itstanding ly 1, 2012	Addi	tions	Redu	ictions	itstanding e 30, 2013	ue Within One Year
QZAB Note Payable Capital Leases	\$ 600,000 22,975	\$	- -	\$	- 2,975	\$ 600,000	\$ 600,000
Total	\$ 622,975	\$	-	\$ 2	2,975	\$ 600,000	\$ 600,000

In June 2001, an installment purchase agreement was entered into with the Siuslaw Valley Bank (the Bank). The purpose of the loan was to provide financing for equipment purchases as well as general renovation and improvement of the high school, middle school and elementary school. The agreement is structured so as to qualify as a "Qualified Zone Academy Bond" or "QZAB" pursuant to Section 1397E of the Internal Revenue Code.

The terms of the installment purchase agreement requires annual deposits of \$46,154, beginning June 20, 2002, through June 20, 2014. The payments are deposited into a certificate of deposit account in the name of the District. On June 20, 2014 the Bank is to receive a \$600,000 balloon payment, which is the sum of the annual deposits, in payment of the debt and the District will receive 2.27% interest earned over the life of the certificate of deposit. The balance of the certificate of deposit account and deposits in transit as of June 30, 2013 was \$566,556. There is no interest payable on this installment purchase agreement.

In July 2008, an installment purchase agreement was entered into with the Blue Bird Financial Services. The purpose of the loan was for the lease of a bus for student transportation. The terms of the installment purchase agreement requires annual payments that vary from year to year beginning February 26, 2009 for five years, with an interest rate of 5%. This was fully paid off as of June 30, 2013.

Future maturities of long-term debt are as follows:

Ending June 30,	QZAB				
2014	\$	600,000			
Total	\$	600,000			

NOTES TO BASIC FINANCIAL STATEMENTS

7. PROPERTY TAX LIMITATION

The State of Oregon imposes a constitutional limit on property taxes for schools and non-school government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

8. DEFINED BENEFIT PENSION PLAN

Plan Description

Contributions are made to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the contributions for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs. The Pension Program, the defined benefit portion of the plan, applies to qualifying employment following a six-month or greater break in service. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contributions portion of the plan. PERS members retain their existing PERS accounts, but any future contributions are deposited into the member's IAP, not the member's PERS accounts.

Both PERS plans provide retirement and disability benefits, post-employment healthcare benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR 97281-3700, or by calling (503) 598-7377.

Funding Policy

Members of PERS are required to contribute 6.00% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. ORS 238.225 requires contributions at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. The OPERF and the OPSRP rates in effect for the year ending June 30, 2013 are 19.48% and 17.97%, respectively. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature.

LANE COUNTY SCHOOL DISTRICT NO. 32 <u>LANE COUNTY</u>, <u>O</u>REGON

NOTES TO BASIC FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONT.)

Annual Pension Cost

Contributions made to PERS for the years ending June 30, 2013, 2012 and 2011 were \$312,992, \$307,550, and \$244,067, respectively, equal to the required contributions for each year.

Management has determined, based upon the District's small impact on the state-wide pool, that no material implicit rate subsidy exists and there for there is no OPEB obligation for implicit post-employment benefits.

9. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize its exposure to these risks. Settled claims have not exceeded this commercial coverage for the last three years.

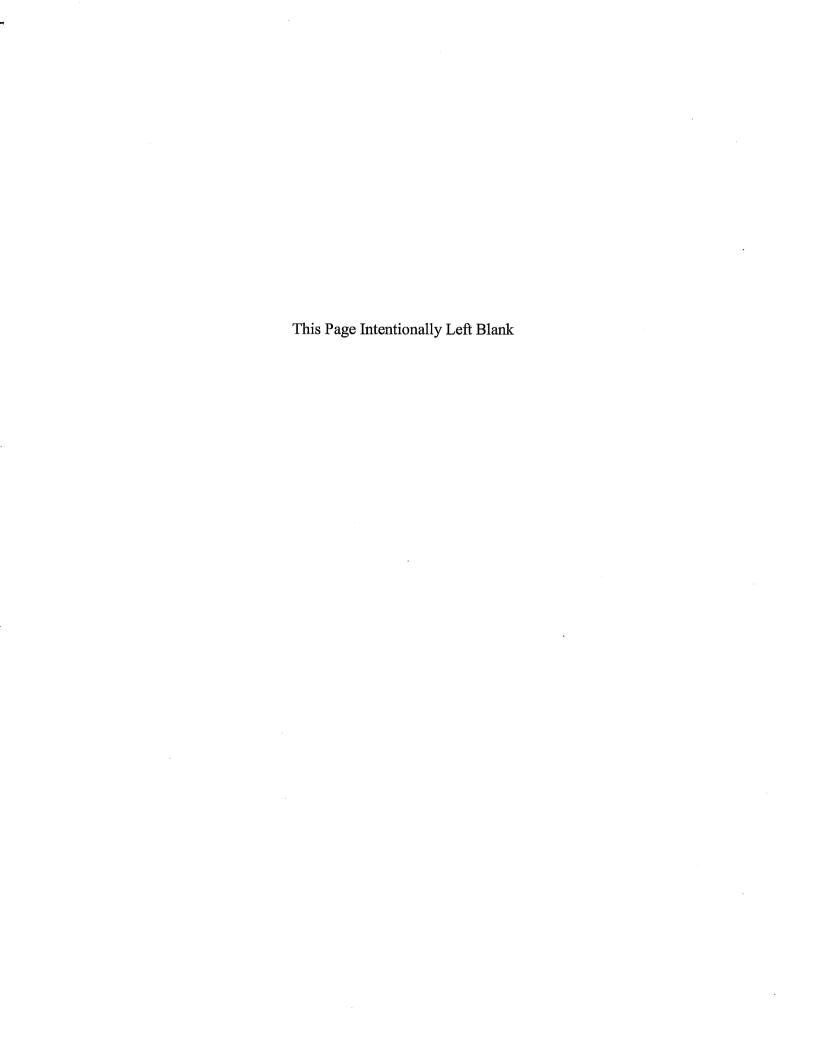

10. COMMITMENTS AND CONTINGENCIES

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determine at this time, although management expects such amounts, if any, to be immaterial.

October 18, 2013

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Lane County School District No. 32 as of and for the year ended June 30, 2013, and have issued our report thereon dated October 18, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Authorized investment of surplus funds (ORS Chapter 294).
- Programs funded by outside sources.
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing nothing came to our attention that caused us to believe Lane County School District No. 32 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations except as follows:

- 1. Expenditures of the various funds were within authorized appropriations except as noted on page 19.
- 2. We noted two instances where a teacher's years of experience in the District was over-reported by one year.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal control over financial reporting.

We noted matters involving the internal control structure and its operation that we consider to be significant deficiencies under standards established by the American Institute of Certified Public Accountants, which are noted in our separately issued management letter dated October 18, 2013.

This report is intended solely for the information and use of the Board, management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Koy R Rogers, CPA
