Please tell us how much you agree with each of the following statements.

The district is meeting my student's academic needs.

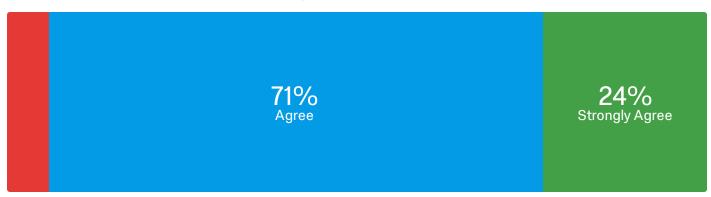

Mapleton schools are safe and welcoming.

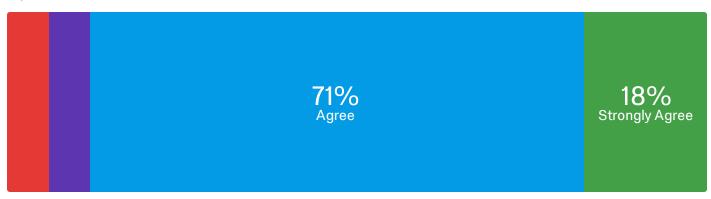

The district is meeting my student's behavioral and social/emotional needs.

The district has a vision that all students are capable of success.

My student has access to intervention and enrichment services.

The school ensures that my student has equitable access and opportunity to..

I am actively engaged in understanding and monitoring my student's academic...

In what ways can the school district involve the community in supporting Mapleton... Parent/Guardian In what ways can the school district involve the community in supporting Ma... Stop the bullying. And stop treating kids as number, to the money coming in to stay open. Increase communication about events. Increase use of District facilities for community events. Work to reduce barriers to participation in school activities. More fund raisers. Car washes. Bake sales. Get the pool up and running and have swim classes. Include student in a reading to the elderly field trip one time a month. Making a larger playground for the children or fixing the bigger playground. Fixing the pool for More oppurtunities for the youth of our town. Getting support&funding for carnivals and fun for the school events. For instance bounce houses and more games available. 4th,5,6 grade camp (letting the kids spend a week at camp learning about science, math, and English outside of the classroom. More field trips. I feel that these trips truly are something our children look forward to and enjoy beyond what I could explain. All in all it is an amazing school and I hope to see positive changes in the future to benefit the community. Parent night, neighborhood watch, fundraisers, etc. **Think** More fundraisers besides those for sports. More parental chaperones rather than faculty chaperones, more activities at the school like festivals, holiday programs, fairs, and assemblies! Maybe a parent/teach council that is similar to student council in which they talk about how to bring more outside community members and events into the school via fundraisers or just coming together to have fun.
