

OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 8/11/2020

Under ODE's **Ready Schools, Safe Learners** guidance, each school¹ has been directed to submit a plan to the district² in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the <u>Ready Schools, Safe Learners guidance</u> document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,³ parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation.

1. Please fill out information:

SCHOOL/DISTRICT/PROGRAM INFORMATION		
Name of School, District or Program	Mapleton Elementary School, Mapleton SD	
Key Contact Person for this Plan	Jodi O'Mara	
Phone Number of this Person	541-268-4312 ext. 202	
Email Address of this Person	jomara@mapleton.k12.or.us	
Sectors and position titles of those who informed the plan	Superintendent, Elementary Principal, Special Education Director, Transportation/Maintenance Supervisor, Food Service Coordinator, Business Manager/HR Specialist, K-6 Elementary Teachers, K-12 Counselor	
Local public health office(s) or officers(s)	Lane County Public Health	
Name of person Designated to Establish, Implement and Enforce Physical Distancing Requirements	Jodi O'Mara	
Intended Effective Dates for this Plan	September 2020-June 2021	
ESD Region	Lane ESD	

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

¹ For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings. ² For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

³ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

As a District, we collected survey data from Spring Distance Learning for All regarding successes and struggles, technology availability/needs for next school year, preference of parents and students regarding learning model for 2020-2021 school year and intent to send students onsite (if available) for instruction for the 2020-2021 school year. The survey link was provided to all students, families and staff members to ensure effective representation and data from all levels of students, including demographics and our underserved and marginalized students/community group. We provided paper copies of the survey upon request.

During onsite Registration in early August, we again surveyed our parents and students regarding the Comprehensive Distance Learning Model of instruction, access to nutrition services, technology needs and internet availability.

Approximately 80% of our families fall into the underserved and marginalized student population. Our survey data collected both electronically and in person represents those families.

3. Indicate which instructional model will be used.

Select One:

- 4. If you selected Comprehensive Distance Learning, you only have to fill out the green portion of the Operational Blueprint for Reentry (i.e., page 2 in the initial template).
- If you selected On-Site Learning or Hybrid Learning, you have to fill out the blue portion of the Operational Blueprint for Reentry (i.e., pages 3-19 in the initial template) and <u>submit online</u>. (<u>https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a</u>) by August 17, 2020 or prior to the beginning of the 2020-21 school year.

* Note: Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

REQUIREMENTS FOR COMPREHENSIVE DISTANCE LEARNING OPERATIONAL BLUEPRINT

This section must be completed by any school that is seeking to provide instruction through Comprehensive Distance Learning. For Private Schools, completing this section is optional (not required). Schools providing On-Site or Hybrid Instructional Models do not need to complete this section.

Describe why you are selecting Comprehensive Distance Learning as the school's Instructional Model for the effective dates of this plan.

Mapleton Elementary School will be providing Comprehensive Distance Learning through mid-October, until state and county metrics are met. At that time, we will transition to a hybrid model, allowing students to return to onsite learning in alternating groups. We recognize that distance learning has significant impacts on our families and are thankful for the continued sacrifice of our staff and community. By beginning the 2020-2021 school year in CDL, it will allow staff and families to plan for a return to onsite/hybrid learning and the new protocols that will be in place.

Health and safety of our staff and community are top priority and while we would much prefer in-person instruction, we will scale towards these models in purposeful ways. Although Mapleton is a rural and remote school that may be allowed to have students on campus under the most recent guidelines we believe, as a District we have decided to begin the 2020-2021 school year in CDL. As decisions are made regarding shifting to K-3 and limited on-site instruction, we will utilize our equity decision making tools to prioritize students who are not finding success in the comprehensive distance learning model, as well as students who have limited access to internet, students navigating poverty, homelessness, and foster care, students of color, students learning English, and students with disabilities when determining which students will attend for limited on-site instruction.

Finally, we learned a lot from Distance Learning for All in the Spring, both what works and what does not work. This fall, our CDL model will be far better because of the lessons learned and the feedback from our community. We will continuously seek feedback from our students, families, and staff. Our goal is to maximize connection, care, and learning from a distance until we can learn together in person.

In completing this portion of the Blueprint you are attesting that you have reviewed the Comprehensive Distance Learning Guidance. <u>Here is</u> <u>a link to the overview of CDL Requirements.</u> Please name any requirements you need ODE to review for any possible flexibility or waiver.

Mapleton School District has reviewed the comprehensive district learning (CDL) requirements detailed in the Oregon Department of Education document entitled: "Comprehensive Distance Learning: A Companion to Ready School, Safe Learners." Our comprehensive distance learning model complies with all required guidelines.

Describe the school's plan, including the anticipated timeline, for returning to Hybrid Learning or On-Site Learning consistent with the *Ready Schools, Safe Learners* guidance.

Mapleton School District will monitor state and county data continuously and make decisions that meet the health, safety, and learning needs of our students, families, and staff. The guidance prioritizes K-3 on-site instruction and limited on-site instruction (allowable in the exceptions). While Mapleton meets the rural and remote exception to provide K-3 and limited in person on site instruction, we recognize that the data is unpredictable and ever-changing, adding an extra layer of complexity in our decisions to reopen before the statewide metrics are met. We will continue to explore possibilities for on-site instruction for our youngest students, as well as limited on-site instruction for our students who qualify under limited on-site instruction.

Our hope is that students will be able to return to campus for a hybrid learning model by the last week of October. A district team will review the weekly metrics as shared by ODE each Monday. Should Lane County and the State begin trending in the right direction for two weeks, we will plan to return to campus the week following the third week with state metrics met.

The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.

ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models. Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

0. Community Health Metrics

METRICS FOR ON-SITE OR HYBRID INSTRUCTION

□ The school currently meets the required metrics to successfully reopen for in-person instruction in an On-Site or Hybrid model. *If this box cannot yet be checked, the school must return to Comprehensive Distance Learning but may be able to provide some in-person instruction through the exceptions noted below.*

EXCEPTIONS FOR SPECIFIC IN-PERSON INSTRUCTION WHERE REQUIRED CONDITIONS ARE MET

- The school currently meets the exceptions required to provide in-person person education for students in grades K-3 (see section 0d(1) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the exceptions required to provide limited in-person instruction for specific groups of students (see section 0d(2) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the exceptions required for remote or rural schools in larger population counties to provide in-person instruction (see section 0d(3) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the exceptions required for smaller population counties to provide in-person instruction (see section 0d(4) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the exceptions required for schools in low population density counties (see section 0d(5) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the exceptions required for small districts to provide in-person instruction (see section 0d(6) of the *Ready Schools, Safe Learners* guidance).

1. Public Health Protocols

OHA/ODE Requirements Hybrid/Onsite Plan Implement measures to limit the spread of COVID-19 within the school setting. Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19. Designate a person at each school to establish, implement and enforce physical distancing requirements, consistent with this guidance and other guidance from OHA. Include names of the LPHA staff, school nurses, and other medical experts who provided support and resources to the district/school policies and plans. Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the <u>Oregon School Nurses Association COVID-19 colkit</u>. If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1 do the <i>Ready Schools, Safe Learners</i> guidance). If a student(s) is not part of a stable cohort, then an individual student(s) is not part of a stable cohort, then an individual student/cohort 			
 distancing is maintained to the maximum extent possible. Protocol to notify the local public health authority (<u>IPHA Directory</u> <u>by County</u>) of any confirmed COVID-19 cases among students or staff. Plans for systematic disinfection of classrooms, offices, bathrooms and activity areas. Process to report to the LPHA any cluster of any illness among staff or students. Protocol to cooperate with the LPHA recommendations. Provide all logs and information to the LPHA in a timely manner. Protocol for screening students and staff for symptoms (see section 1f of the <i>Ready Schools, Safe Learners</i> guidance). Protocol to isolate any ill or exposed persons from physical contact with others. Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the <i>Ready Schools, Safe Learners</i> guidance). Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the <u>Oregon School Nurses</u> Association COVID-19 Toolkit. If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1d of the <i>Ready Schools, Safe Learners</i> guidance), the daily log may be maintained for the cohort. If a student(s) is not part of a stable cohort, then an individual student(s) is not part of a stable cohort, then an individual student(s) must be maintained.

Child's name			
Drop off/pick up time			
Parent/guardian name and emergency contact information			
All staff (including itinerant staff, district staff, substitutes,			
and guest teachers) names and phone numbers who interact			
with a stable cohort or individual student			
Protocol to record/keep daily logs to be used for contact tracing			
for a minimum of four weeks to assist the LPHA as needed.			

OH	A/ODE Requirements	Hybrid/Onsite Plan
	Process to ensure that all itinerant and all district staff (maintenance, administrative, delivery, nutrition, and any other staff) who move between buildings keep a log or calendar with a running four-week history of their time in each school building and	
	who they were in contact with at each site. Process to ensure that the school reports to and consults with the LPHA regarding cleaning and possible classroom or program closure if anyone who has entered school is diagnosed with COVID-	
	19. Protocol to respond to potential outbreaks (see section 3 of the Ready Schools, Safe Learners guidance).	

1b. HIGH-RISK POPULATIONS

	1b. HIGH-RISK POPULATIONS		
OH/	A/ODE Requirements	Hybrid/Onsite Plan	
	Serve students in high-risk population(s) whether learning is		
	happening through On-Site, Hybrid (partially On-Site and partially		
	Comprehensive Distance Learning models), or Comprehensive		
	Distance Learning models.		
Me	lically Fragile, Complex and Nursing-Dependent Student		
Req	uirements		
	All districts must account for students who have health conditions		
	that require additional nursing services. Oregon law (ORS 336.201)		
	defines three levels of severity related to required nursing		
	services:		
	1. Medically Complex: Are students who may have an unstable		
	health condition and who may require daily professional		
	nursing services.		
	2. Medically Fragile: Are students who may have a life-		
	threatening health condition and who may require immediate		
	professional nursing services.		
	 Nursing-Dependent: Are students who have an unstable or life-threatening health condition and who require daily, 		
	direct, and continuous professional nursing services.		
	Staff and school administrators, in partnership with school nurses,		
	or other school health providers, should work with		
	interdisciplinary teams to address individual student needs. The		
	school registered nurse (RN) is responsible for nursing care		
	provided to individual students as outlined in ODE guidance and		
	state law:		
	• Communicate with parents and health care providers to		
	determine return to school status and current needs of the		
	student.		
	Coordinate and update other health services the student may		
	be receiving in addition to nursing services. This may include		
	speech language pathology, occupational therapy, physical		
	therapy, as well as behavioral and mental health services.		
	 Modify Health Management Plans, Care Plans, IEPs, or 504 or 		
	other student-level medical plans, as indicated, to address		
	current health care considerations.		
	• The RN practicing in the school setting should be supported to		
	remain up to date on current guidelines and access		
	professional support such as evidence-based resources from		
	the Oregon School Nurses Association.		
	 Service provision should consider health and safety as well as legal standards. 		
	0		
	 Appropriate medical-grade personal protective equipment (PPE) should be made available to nurses and other health 		
	providers.		
	 Work with an interdisciplinary team to meet requirements of 		
	ADA and FAPE.		

1c. PHYSICAL DISTANCING

ОН	A/ODE Requirements	Hybrid/Onsite Plan
	Establish a minimum of 35 square feet per person when	
	determining room capacity. Calculate only with usable classroom	
	space, understanding that desks and room set-up will require use	
	of all space in the calculation. This also applies for professional	
	development and staff gatherings.	
	Support physical distancing in all daily activities and instruction,	
	maintaining six feet between individuals to the maximum extent	
	possible.	
	Minimize time standing in lines and take steps to ensure that six	
	feet of distance between students is maintained, including marking	
	spacing on floor, one-way traffic flow in constrained spaces, etc.	
	Schedule modifications to limit the number of students in the	
	building (e.g., rotating groups by days or location, staggered	
_	schedules to avoid hallway crowding and gathering).	
	Plan for students who will need additional support in learning how	
	to maintain physical distancing requirements. Provide instruction;	
	don't employ punitive discipline.	
	Staff should maintain physical distancing during all staff meetings	
	and conferences, or consider remote web-based meetings.	

1d. COHORTING

OHA	/ODE Requirements	Hybrid/Onsite Plan
	 Where feasible, establish stable cohorts: groups should be no larger than can be accommodated by the space available to provide 35 square feet per person, including staff. The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases. 	
	Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week. Schools should plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure.	
	Each school must have a system for daily logs to ensure contract tracing among the cohort (see section 1a of the <i>Ready Schools, Safe Learners</i> guidance).	
	Minimize interaction between students in different stable cohorts (e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Cleaning and disinfecting surfaces (e.g., desks, door handles, etc.) must be maintained between multiple student uses, even in the same cohort.	
	Design cohorts such that all students (including those protected under ADA and IDEA) maintain access to general education, grade- level academic content standards, and peers.	
	Staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.	

1e. PUBLIC HEALTH COMMUNICATION			
OHA/ODE Requirements	Hybrid/Onsite Plan		
Communicate to staff at the start of On-Site instruction and at periodic intervals explaining infection control measures that are being implemented to prevent spread of disease.			
 Develop protocols for communicating with students, families and staff who have come into close contact with a confirmed case. The definition of exposure is being within 6 feet of a COVID-19 case for 15 minutes (or longer). 			
Develop protocols for communicating immediately with staff, families, and the community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.			
 Provide all information in languages and formats accessible to the school community. 			

	1f. ENTRY AN	D SCREENING
ОН	A/ODE Requirements	Hybrid/Onsite Plan
	 Direct students and staff to stay home if they, or anyone in their homes or community living spaces, have COVID-19 symptoms, or if anyone in their home or community living spaces has COVID-19. COVID-19 symptoms of concern: cough, fever (<i>temperature</i> greater than 100.4°F) or chills, shortness of breath, or difficulty breathing. Note that muscle pain, headache, sore throat, new loss of taste or smell, diarrhea, nausea, vomiting, nasal congestion, and runny nose are also symptoms of ten associated with COVID-19. More information about COVID-19 symptoms is available from CDC. In addition to COVID-19 symptoms, students should be excluded from school for signs of other infectious diseases, per existing school policy and protocols. See pages 9-12 of OHA/ODE Communicable Disease Guidance. Emergency signs that require immediate medical attention: Trouble breathing Persistent pain or pressure in the chest New confusion or inability to awaken Bluish lips or face (lighter skin); greyish lips or face (darker skin) Other severe symptoms Screen all students and staff for symptoms on entry to bus/school every day. This can be done visually and/or with confirmation from a parent/caregiver/guardian. Staff members can self-screen and attest to their own health. 	
	 <u>See table "Planning for COVID-19 Scenarios in Schools."</u> Additional guidance for nurses and health staff. 	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Follow LPHA advice on restricting from school any student or staff known to have been exposed (e.g., by a household member) to COVID-19. <u>See table "<i>Planning for COVID-19 Scenarios in Schools.</i>"</u>	
	Staff or students with a chronic or baseline cough that has worsened or is not well-controlled with medication should be excluded from school. Do not exclude staff or students who have other symptoms that are chronic or baseline symptoms (e.g., asthma, allergies, etc.) from school.	
	Hand hygiene on entry to school every day: wash with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.	

1g. VISITORS/VOLUNTEERS

ОΗ	A/ODE Requirements	Hybrid/Onsite Plan
	Restrict non-essential visitors/volunteers.	
	Examples of essential visitors include: DHS Child Protective	
	Services, Law Enforcement, etc.	
	• Examples of non-essential visitors/volunteers include: Parent	
	Teacher Association (PTA), classroom volunteers, etc.	
	Screen all visitors/volunteers for symptoms upon every entry.	
	Restrict from school property any visitor known to have been	
	exposed to COVID-19. See table "Planning for COVID-19 Scenarios	
	<u>in Schools."</u>	
	Visitors/volunteers must wash or sanitize their hands upon entry	
	and exit.	
	Visitors/volunteers must maintain six-foot distancing, wear face	
	coverings, and adhere to all other provisions of this guidance.	

	1h. FACE COVERINGS, FACE SHIELDS, AND CLEAR PLASTIC BARRIERS			
OH/	A/ODE Requirements	Hybrid/Onsite Plan		
	Face coverings or face shields for all staff, contractors, other			
	service providers, or visitors or volunteers following <u>CDC guidelines</u>			
	for Face Coverings. Individuals may remove their face coverings			
	while working alone in private offices.			
	Face coverings or face shields for all students in grades			
	Kindergarten and up following <u>CDC guidelines for Face Coverings</u> .			
	If a student removes a face covering, or demonstrates a need to			
	remove the face covering for a short-period of time:			
	 Provide space away from peers while the face covering is 			
	removed. In the classroom setting, an example could be a			
	designated chair where a student can sit and take a 15 minute			
	"sensory break;"			
	 Students should not be left alone or unsupervised; 			
	 Designated area or chair should be appropriately 			
	distanced from other students and of a material that is			
	easily wiped down for disinfection after each use;			
	Provide additional instructional supports to effectively wear a			
	face covering;			
	 Provide students adequate support to re-engage in safely 			
	wearing a face covering;			
	Students cannot be discriminated against or disciplined for an			
	inability to safely wear a face covering during the school day.			
	Face masks for school RNs or other medical personnel when			
	providing direct contact care and monitoring of staff/students			
	displaying symptoms. School nurses should also wear appropriate			
	Personal Protective Equipment (PPE) for their role.			
	 <u>Additional guidance</u> for nurses and health staff. 			
Pro	tections under the ADA or IDEA			
	If any student requires an accommodation to meet the			
	requirement for face coverings, districts and schools should limit			
	the student's proximity to students and staff to the extent possible			
	Page 9	3 of 20		

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	to minimize the possibility of exposure. Appropriate	
	accommodations could include:	
	• Offering different types of face coverings and face shields that	
	may meet the needs of the student.	
	• Spaces away from peers while the face covering is removed;	
	students should not be left alone or unsupervised.	
	 Short periods of the educational day that do not include 	
	wearing the face covering, while following the other health	
	strategies to reduce the spread of disease;	
	 Additional instructional supports to effectively wear a face 	
	covering;	
	For students with existing medical conditions and a physician's	
	orders to not wear face coverings, or other health related	
	concerns, schools/districts must not deny any in-person	
	instruction.	
	Schools and districts must comply with the established IEP/504	
	plan prior to the closure of in-person instruction in March of 2020.	
	• If a student eligible for, or receiving services under a 504/IEP,	
	cannot wear a face covering due to the nature of the	
	disability, the school or district must: 1. Review the 504/IEP to ensure access to instruction in a	
	 Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in 	
	the student's plan including on-site instruction with	
	accommodations or adjustments.	
	 Placement determinations cannot be made due solely to 	
	the inability to wear a face covering.	
	 Plans should include updates to accommodations and 	
	modifications to support students.	
	• Students protected under ADA/IDEA, who abstain from	
	wearing a face covering, or students whose families	
	determine the student will not wear a face covering, the	
	school or district must:	
	1. Review the 504/IEP to ensure access to instruction in a	
	manner comparable to what was originally established in	
	the student's plan.	
	2. The team must determine that the disability is not	
	prohibiting the student from meeting the requirement.	
	 If the team determines that the disability is 	
	prohibiting the student from meeting the	
	requirement, follow the requirements for students	
	eligible for, or receiving services under, a 504/IEP	
	who cannot wear a face covering due to the nature of the disability,	
	 If a student's 504/IEP plan included 	
	supports/goals/instruction for behavior or social	
	emotional learning, the school team must evaluate	
	the student's plan prior to providing instruction	
	through Comprehensive Distance Learning.	
	3. Hold a 504/IEP meeting to determine equitable access to	
	educational opportunities which may include limited in-	
	person instruction, on-site instruction with	
	accommodations, or Comprehensive Distance Learning.	
	For students not currently served under an IEP or 504, districts	
	must consider whether or not student inability to consistently	
	wear a face covering or face shield as required is due to a	
	disability. Ongoing inability to meet this requirement may be	
	evidence of the need for an evaluation to determine eligibility for	
	support under IDEA or Section 504.	
	If a staff member requires an accommodation for the face covering	
	or face shield requirements, districts and schools should work to	

Page 9 of 20

OHA	A/ODE Requirements	Hybrid/Onsite Plan
	limit the staff member's proximity to students and staff to the	
	extent possible to minimize the possibility of exposure.	
L	······································	
	1i. ISOLATION A	ND QUARANTINE
ОНА	A/ODE Requirements	Hybrid/Onsite Plan
	Protocols for exclusion and isolation for sick students and staff	
	whether identified at the time of bus pick-up, arrival to school, or	
	at any time during the school day.	
	Protocols for screening students, as well as exclusion and isolation	
	protocols for sick students and staff identified at the time of arrival	
	or during the school day.	
	• Work with school nurses, health care providers, or other staff	
	with expertise to determine necessary modifications to areas	
	where staff/students will be isolated. If two students present	
	COVID-19 symptoms at the same time, they must be isolated	
	at once. If separate rooms are not available, ensure that six	
	feet distance is maintained. Do not assume they have the	
	 same illness. Consider required physical arrangements to reduce risk of 	
	disease transmission.	
	 Plan for the needs of generally well students who need 	
	medication or routine treatment, as well as students who	
	may show signs of illness.	
	Additional guidance for nurses and health staff.	
	Students and staff who report or develop symptoms must be	
	isolated in a designated isolation area in the school, with adequate	
	space and staff supervision and symptom monitoring by a school	
	nurse, other school-based health care provider or school staff until	
	they are able to go home. Anyone providing supervision and	
	symptom monitoring must wear appropriate face covering or face	
	 shields. School nurse and health staff in close contact with 	
	symptomatic individuals (less than 6 feet) should wear a	
	medical-grade face mask. Other Personal Protective	
	Equipment (PPE) may be needed depending on symptoms	
	and care provided. Consult a nurse or health care professional	
	regarding appropriate use of PPE. Any PPE used during care of	
	a symptomatic individual should be properly removed and	
	disposed of prior to exiting the care space.	
	After removing PPE, hands should be immediately cleaned	
	with soap and water for at least 20 seconds. If soap and water	
	are not available, hands can be cleaned with an alcohol-based	
	hand sanitizer that contains 60-95% alcohol.	
	• If able to do so safely, a symptomatic individual should wear a face covering.	
	 To reduce fear, anxiety, or shame related to isolation, provide 	
	a clear explanation of procedures, including use of PPE and	
	handwashing.	
	Establish procedures for safely transporting anyone who is sick to	
	their home or to a health care facility.	
	Staff and students who are ill must stay home from school and	
	must be sent home if they become ill at school, particularly if they	
	have COVID-19 symptoms. Refer to table in <u>"Planning for COVID-</u>	
	<u>19 Scenarios in Schools."</u>	
	Involve school nurses, School Based Health Centers, or staff with	
	related experience (Occupational or Physical Therapists) in	
	development of protocols and assessment of symptoms (where	
	staffing exists).	
	Record and monitor the students and staff being isolated or sent	
	home for the LPHA review.	

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the Ready Schools, Safe Learners guidance).

(Note: Section 2a does not apply to private schools.) Hybrid/Onsite Plan OHA/ODE Requirements Enroll all students (including foreign exchange students) following the standard Oregon Department of Education guidelines. □ The temporary suspension of the 10-day drop rule does not change the rules for the initial enrollment date for students: The ADM enrollment date for a student is the first day of the student's actual attendance. A student with fewer than 10 days of absence at the beginning of the school year may be counted in membership prior to the first day of attendance, but not prior to the first calendar day of the school year. If a student does not attend during the first 10 session days of school, the student's ADM enrollment date must reflect the student's actual first day of attendance. Students who were anticipated to be enrolled, but who do not attend at any time must not be enrolled and submitted in ADM □ If a student has stopped attending for 10 or more days, districts must continue to try to engage the student. At a minimum, districts must attempt to contact these students and their families weekly to either encourage attendance or receive confirmation that the student has transferred or has withdrawn from school. This includes students who were scheduled to start the school year, but who have not yet attended. □ When enrolling a student from another school, schools must request documentation from the prior school within 10 days of enrollment per OAR 581-021-0255 to make all parties aware of the transfer. Documentation obtained directly from the family does not relieve the school of this responsibility. After receiving documentation from another school that a student has enrolled, drop that student from your roll. Design attendance policies to account for students who do not attend in-person due to student or family health and safety concerns. When a student has a pre-excused absence or COVID-19 absence, the school district should reach out to offer support at least weekly until the student has resumed their education. When a student is absent beyond 10 days and meets the criteria for continued enrollment due to the temporary suspension of the 10 day drop rule, continue to count them as absent for those days and include those days in your Cumulative ADM reporting.

2a. ENROLLMENT

2b. ATTENDANCE

(Note: Section 2b does not apply to private schools.)

OHA/C	DDE Requirements	Hybrid/Onsite Plan
🗌 Gi	rades K-5 (self-contained): Attendance must be taken at least	
or	nce per day for all students enrolled in school, regardless of the	

ОН,	A/ODE Requirements	Hybrid/Onsite Plan
	instructional model (On-Site, Hybrid, Comprehensive Distance	
	Learning, online schools).	
	Grades 6-12 (individual subject): Attendance must be taken at	
	least once for each scheduled class that day for all students	
	enrolled in school, regardless of the instructional model (On-Site,	
	Hybrid, Comprehensive Distance Learning, online schools).	
	Alternative Programs: Some students are reported in ADM as	
	enrolled in a non-standard program (such as tutorial time), with	
	hours of instruction rather than days present and days absent.	
	Attendance must be taken at least once for each scheduled	
	interaction with each student, so that local systems can track the	
	student's attendance and engagement. Reported hours of	
	instruction continue to be those hours in which the student was	
	present.	
	Online schools that previously followed a two check-in per week	
	attendance process must follow the Comprehensive Distance	
	Learning requirements for checking and reporting attendance.	
	Provide families with clear and concise descriptions of student	
	attendance and participation expectations as well as family	
	involvement expectations that take into consideration the home	
	environment, caregiver's work schedule, and mental/physical	
	health.	

	2c. TECHNOLOGY		
OHA	/ODE Requirements	Hybrid/Onsite Plan	
	Update procedures for district-owned or school-owned devices to		
	match cleaning requirements (see section 2d of the Ready Schools,		
	Safe Learners guidance).		
	Procedures for return, inventory, updating, and redistributing		
	district-owned devices must meet physical distancing		
	requirements.		

2d. SCHOOL SPECIFIC FUNCTIONS/FACILITY FEATURES

OH/	A/ODE Requirements	Hyb	orid/Onsite Plan
	Handwashing: All people on campus should be advised and encouraged to wash their hands frequently.	•	Handwashing:
	Equipment: Develop and use sanitizing protocols for all equipment used by more than one individual or purchase equipment for	•	Equipment:
	individual use.	٠	Events:
	Events: Cancel, modify, or postpone field trips, assemblies, athletic events, practices, special performances, school-wide parent	•	Transitions/Hallways:
	meetings and other large gatherings to meet requirements for physical distancing.	•	Personal Property:
	Transitions/Hallways: Limit transitions to the extent possible.		
	Create hallway procedures to promote physical distancing and minimize gatherings.		
	Personal Property: Establish policies for personal property being		
	brought to school (e.g., refillable water bottles, school supplies,		
	headphones/earbuds, cell phones, books, instruments, etc.). If		
	personal items are brought to school, they must be labeled prior to entering school and use should be limited to the item owner.		
	entering school and use should be limited to the item owner.		

2e. ARRIVAL AND DISMISSAL

ОН	A/ODE Requirements	Hybrid/Onsite Plan
	Physical distancing, stable cohorts, square footage, and cleaning	
	requirements must be maintained during arrival and dismissal	
	procedures.	
	Create schedule(s) and communicate staggered arrival and/or	
	dismissal times.	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Assign students or cohorts to an entrance; assign staff member(s)	
	to conduct visual screenings (see section 1f of the Ready Schools,	
	Safe Learners guidance).	
	Ensure accurate sign-in/sign-out protocols to help facilitate	
	contact tracing by the LPHA. Sign-in procedures are not a	
	replacement for entrance and screening requirements. Students	
	entering school after arrival times must be screened for the	
	primary symptoms of concern.	
	 Eliminate shared pen and paper sign-in/sign-out sheets. 	
	• Ensure hand sanitizer is available if signing children in or out on an electronic device.	
	Ensure alcohol-based hand sanitizer (with 60-95% alcohol)	
	dispensers are easily accessible near all entry doors and other	
	high-traffic areas. Establish and clearly communicate procedures	
	for keeping caregiver drop-off/pick-up as brief as possible.	

2f. CLASSROOMS/REPURPOSED LEARNING SPACES

OH/	A/ODE Requirements	Hybrid/Onsite Plan		
	Seating: Rearrange student desks and other seat spaces so that	•	Seating:	
	staff and students' physical bodies are six feet apart to the			
	maximum extent possible while also maintaining 35 square feet	•	Materials:	
	per person; assign seating so students are in the same seat at all			
	times.	•	Handwashing:	
	Materials: Avoid sharing of community supplies when possible			
	(e.g., scissors, pencils, etc.). Clean these items frequently. Provide			
	hand sanitizer and tissues for use by students and staff.			
	Handwashing: Remind students (with signage and regular verbal			
	reminders from staff) of the utmost importance of hand hygiene			
	and respiratory etiquette. Respiratory etiquette means covering			
	coughs and sneezes with an elbow or a tissue. Tissues should be			
	disposed of in a garbage can, then hands washed or sanitized			
	immediately.			
	• Wash hands with soap and water for 20 seconds or use an			
	alcohol-based hand sanitizer with 60-95% alcohol.			

2g. PLAYGROUNDS, FIELDS, RECESS, BREAKS, AND RESTROOMS

OHA	/ODE Requirements	Hybrid/Onsite Plan
	Keep school playgrounds closed to the general public until park	
	playground equipment and benches reopen in the community (see	
	Oregon Health Authority's Specific Guidance for Outdoor	
	Recreation Organizations).	
	After using the restroom students must wash hands with soap and	
	water for 20 seconds. Soap must be made available to students	
	and staff.	
	Before and after using playground equipment, students must wash	
	hands with soap and water for 20 seconds or use an alcohol-based	
	hand sanitizer with 60-95% alcohol.	
	Designate playground and shared equipment solely for the use of	
	one cohort at a time. Disinfect at least daily or between use as	
	much as possible in accordance with <u>CDC guidance.</u>	
	Cleaning requirements must be maintained (see section 2j of the	
	Ready Schools, Safe Learners guidance).	
	Maintain physical distancing requirements, stable cohorts, and	
	square footage requirements.	
	Provide signage and restrict access to outdoor equipment	
	(including sports equipment, etc.).	
	Design recess activities that allow for physical distancing and	
	maintenance of stable cohorts.	
	Clean all outdoor equipment at least daily or between use as much	
	as possible in accordance with <u>CDC guidance</u> .	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Limit staff rooms, common staff lunch areas, elevators and	
	workspaces to single person usage at a time, maintaining six feet	
	of distance between adults.	
	2h. MEAL SERV	ICE/NUTRITION
OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Include meal services/nutrition staff in planning for school reentry.	
	Prohibit self-service buffet-style meals.	
	Prohibit sharing of food and drinks among students and/or staff.	
	At designated meal or snack times, students may remove their	
	face coverings to eat or drink but must maintain six feet of physical	
	distance from others, and must put face coverings back on after	
_	finishing the meal or snack.	
	Staff serving meals and students interacting with staff at	
	mealtimes must wear face shields or face covering (see section 1h of the Ready Schools, Safe Learners guidance).	
	Students must wash hands with soap and water for 20 seconds or	
	use an alcohol-based hand sanitizer with 60-95% alcohol before	
	meals and should be encouraged to do so after.	
	Appropriate daily cleaning of meal items (e.g., plates, utensils,	
	transport items).	
	Cleaning and sanitizing of meal touch-points and meal counting	
	system between stable cohorts.	

□ Adequate cleaning and disinfection of tables between meal periods.

□ Since staff must remove their face coverings during eating and drinking, staff should eat snacks and meals independently, and not in staff rooms when other people are present. Consider staggering times for staff breaks, to prevent congregation in shared spaces.

2i. TRANSPORTATION

OHA	/ODE Requirements	Hybrid/Onsite Plan
	Include transportation departments (and associated contracted	
	providers, if used) in planning for return to service.	
	Buses are cleaned frequently. Conduct targeted cleanings between	
	routes, with a focus on disinfecting frequently touched surfaces of	
	the bus (see section 2j of the <i>Ready Schools, Safe Learners</i>	
	guidance).	
	Develop protocol for loading/unloading that includes visual	
	screening for students exhibiting symptoms and logs for contact-	
	tracing. This should be done at the time of arrival and departure.	
	 If a student displays COVID-19 symptoms, provide a face 	
	shield or face covering (unless they are already wearing one)	
	and keep six feet away from others. Continue transporting	
	the student.	
	• The symptomatic student should be seated in the first	
	row of the bus during transportation, and multiple	
	windows should be opened to allow for fresh air	
	circulation, if feasible.	
	 The symptomatic student should leave the bus first. After all students exit the bus, the seat and surrounding 	
	surfaces should be cleaned and disinfected.	
	 If arriving at school, notify staff to begin isolation measures. 	
	 If transporting for dismissal and the student displays an 	
	onset of symptoms, notify the school.	
	Consult with parents/guardians of students who may require	
	additional support (e.g., students who experience a disability and	
	require specialized transportation as a related service) to	
	appropriately provide service.	
	The second	

OHA/ODE Requirements	Hybrid/Onsite Plan
Drivers wear face shields or face coverings when not actively driving and operating the bus.	
Inform parents/guardians of practical changes to transportation service (i.e., physical distancing at bus stops and while	
loading/unloading, potential for increased route time due to additional precautions, sanitizing practices, and face coverings).	
 Face coverings or face shields for all students in grades Kindergarten and up following <u>CDC guidelines</u> applying the 	
guidance in section 1h of the <i>Ready Schools, Safe Learners</i> guidance to transportation settings.	

	2j. CLEANING, DISINFECTION, AND VENTILATION			
OH/	A/ODE Requirements	Hybrid/Onsite Plan		
	Clean, sanitize, and disinfect frequently touched surfaces (e.g.			
	door handles, sink handles, drinking fountains, transport vehicles)			
	and shared objects (e.g., toys, games, art supplies) between uses			
	multiple times per day. Maintain clean and disinfected (<u>CDC</u>			
	guidance) environments, including classrooms, cafeteria settings			
	and restrooms.			
	Clean and disinfect playground equipment at least daily or			
	between use as much as possible in accordance with <u>CDC</u> guidance.			
	Apply disinfectants safely and correctly following labeling direction as specified by the manufacturer. Keep these products away from			
	students.			
	To reduce the risk of asthma, choose disinfectant products on the			
	EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide,			
	citric acid, or lactic acid) and avoid products that mix these with			
	asthma-causing ingredients like peroxyacetic acid, sodium			
	hypochlorite (bleach), or quaternary ammonium compounds.			
	Schools with HVAC systems should evaluate the system to			
	minimize indoor air recirculation (thus maximizing fresh outdoor			
	air) to the extent possible. Schools that do not have mechanical			
	ventilation systems should, to the extent possible, increase natural			
	ventilation by opening windows and doors before students arrive			
	and after students leave, and while students are present.			
	Consider running ventilation systems continuously and changing			
	the filters more frequently. Do <u>not</u> use fans if they pose a safety or			
	health risk, such as increasing exposure to pollen/allergies or			
	exacerbating asthma symptoms. Consider using window fans or			
	box fans positioned in open windows to blow fresh outdoor air			
	into the classroom via one window, and indoor air out of the			
	classroom via another window. Fans should not be used in rooms			
	with closed windows and doors, as this does not allow for fresh air to circulate.			
	Consider the need for increased ventilation in areas where			
	students with special health care needs receive medication or			
	treatments.			
	Facilities should be cleaned and disinfected at least daily to			
	prevent transmission of the virus from surfaces (see CDC's			
	guidance on disinfecting public spaces).			
	Consider modification or enhancement of building ventilation			
	where feasible (see <u>CDC's guidance on ventilation and filtration</u>			
	and American Society of Heating, Refrigerating, and Air-			
	Conditioning Engineers' guidance).			

2j. CLEANING, DISINFECTION, AND VENTILATION

2k. HEALTH SERVICES

OHA/ODE Requirements	Hybrid/Onsite Plan
 OAR 581-022-2220 Health Services, requires districts to "maintain a prevention-oriented health services program for all students" including space to isolate sick students and services for students 	

OHA/ODE Requirements	Hybrid/Onsite Plan
 with special health care needs. While OAR 581-022-2220 does not apply to private schools, private schools must provide a space to isolate sick students and provide services for students with special health care needs. Licensed, experienced health staff should be included on teams to determine district health service priorities. Collaborate with health professionals such as school nurses; SBHC staff; mental and behavioral health providers; dental providers; physical, occupational, speech, and respiratory therapists; and School Based Health Centers (SBHC). 	

	21. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY		
OH/	VODE Requirements	Hybrid/Onsite Plan	
	Provide specific plan details and adjustments in Operational		
	Blueprints that address staff and student safety, which includes		
	how you will approach:		
	Contact tracing		
	The intersection of cohort designs in residential settings (by		
	wing or common restrooms) with cohort designs in the		
	instructional settings. The same cohorting parameter limiting		
	total cohort size to 100 people applies.		
	 Quarantine of exposed staff or students 		
	 Isolation of infected staff or students 		
	Communication and designation of where the "household" or		
	"family unit" applies to your residents and staff		
	Review and take into consideration <u>CDC guidance</u> for shared or		
	congregate housing:		
	Not allow more than two students to share a residential dorm		
	room unless alternative housing arrangements are impossible		
	 Ensure at least 64 square feet of room space per resident 		
	Reduce overall residential density to ensure sufficient space		
	for the isolation of sick or potentially infected individuals, as		
	necessary;		
	 Configure common spaces to maximize physical distancing; 		
	Provide enhanced cleaning;		
	Establish plans for the containment and isolation of on-		
	campus cases, including consideration of PPE, food delivery,		
	and bathroom needs.		

2m. SCHOOL EMERGENCY PROCEDURES AND DRILLS

OHA/ODE Requirements	Hybrid/Onsite Plan
□ In accordance with <u>ORS 336.071</u> and <u>OAR 581-022-2225</u> all schools	
(including those operating a Comprehensive Distance Learning	
model) are required to instruct students on emergency	
procedures. Schools that operate an On-Site or Hybrid model need	
to instruct and practice drills on emergency procedures so that	
students and staff can respond to emergencies.	
 At least 30 minutes in each school month must be used to 	
instruct students on the emergency procedures for fires,	
earthquakes (including tsunami drills in appropriate zones),	
and safety threats.	
Fire drills must be conducted monthly.	
 Earthquake drills (including tsunami drills and instruction for 	
schools in a tsunami hazard zone) must be conducted two	
times a year.	
 Safety threats including procedures related to lockdown, 	
lockout, shelter in place and evacuation and other	
appropriate actions to take when there is a threat to safety	
must be conducted two times a year.	
Drills can and should be carried out <u>as close as possible</u> to the	
procedures that would be used in an actual emergency. For	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	example, a fire drill should be carried out with the same alerts and	
	same routes as normal. If appropriate and practicable, COVID-19	
	physical distancing measures can be implemented, but only if they	
	do not compromise the drill.	
	When or if physical distancing must be compromised, drills must	
	be completed in less than 15 minutes.	
	Drills should not be practiced unless they can be practiced	
	correctly.	
	Train staff on safety drills prior to students arriving on the first day	
	on campus in hybrid or face-to-face engagement.	
	If on a hybrid schedule, conduct multiple drills each month to	
	ensure that all cohorts of students have opportunities to	
	participate in drills (i.e., schedule on different cohort days	
	throughout the year).	
	Students must wash hands with soap and water for 20 seconds or	
	use an alcohol-based hand sanitizer with 60-95% alcohol after a	
	drill is complete.	

	2n. SUPPORTING STUDENTS WHO ARE DYSREGULATED, ESCA	LATED, AND/OR EXHIBITING SELF-REGULATORY CHALLENGES
OH/	VODE Requirements	Hybrid/Onsite Plan
	Utilize the components of Collaborative Problem Solving or a similar framework to continually provide instruction and skill-building/training related to the student's demonstrated lagging skills.	
	Take proactive/preventative steps to reduce antecedent events and triggers within the school environment.	
	Be proactive in planning for known behavioral escalations (e.g., self-harm, spitting, scratching, biting, eloping, failure to maintain physical distance). Adjust antecedents where possible to minimize student and staff dysregulation. Recognize that there could be new and different antecedents and setting events with the additional requirements and expectations for the 2020-21 school year.	
	Establish a proactive plan for daily routines designed to build self- regulation skills; self-regulation skill-building sessions can be short (5-10 minutes), and should take place at times when the student is regulated and/or is not demonstrating challenging behaviors.	
	Ensure all staff are trained to support de-escalation, provide lagging skill instruction, and implement alternatives to restraint and seclusion.	
	Ensure that staff are trained in effective, evidence-based methods for developing and maintaining their own level of self-regulation and resilience to enable them to remain calm and able to support struggling students as well as colleagues. Plan for the impact of behavior mitigation strategies on public	
	health and safety requirements:	
	 Student elopes from area If staff need to intervene for student safety, staff should: Use empathetic and calming verbal interactions (i.e. "This seems hard right now. Help me understand How can I help?") to attempt to re-regulate the student without physical intervention. Use the least restrictive interventions possible to maintain physical safety for the student and staff. Wash hands after a close interaction. 	
	 Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs. Student engages in behavior that requires them to be isolated from peers and results in a room clear. If students leave the classroom: 	

ЭНА	/ODE Requirements	Hybrid/Onsite Plan
	 Preplan for a clean and safe alternative space that maintains physical safety for the student and staff Ensure physical distancing and separation occur, to the maximum extent possible. Use the least restrictive interventions possible to 	
	maintain physical safety for the student and staff.Wash hands after a close interaction.	
	 Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs. 	
	 Student engages in physically aggressive behaviors that 	
	preclude the possibility of maintaining physical distance	
	and/or require physical de-escalation or intervention	
	techniques other than restraint or seclusion (e.g., hitting,	
	biting, spitting, kicking, self-injurious behavior).	
	 If staff need to intervene for student safety, staff should: Maintain student dignity throughout and following the incident. 	
	 Use empathetic and calming verbal interactions (i.e. "This seems hard right now. Help me understand How can I help?") to attempt to re-regulate the student without physical intervention. 	
	 Use the least restrictive interventions possible to maintain physical safety for the student and staff Wash hands after a close interaction. 	
	 Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts 	
	occurs, those contacts must be noted in the appropriate contact logs.	
	Ensure that spaces that are unexpectedly used to deescalate behaviors are appropriately cleaned and sanitized after use before the introduction of other stable cohorts to that space.	
	ective Physical Intervention	
	Reusable Personal Protective Equipment (PPE) must be	
	cleaned/sanitized after every episode of physical intervention (see	
	section 2j of the Ready Schools, Safe Learners guidance: Cleaning,	
	Disinfection, and Ventilation).

3c. RECOVERY AND REENTRY

SC. RECOVERT AND REENTRY			
OH.	A/ODE Requirements	Hybrid/Onsite Plan	
	Review and utilize the " <u>Planning for COVID-19 Scenarios in</u>		
	<u>Schools</u> " toolkit.		
	Clean, sanitize, and disinfect surfaces (e.g., playground equipment,		
	door handles, sink handles, drinking fountains, transport vehicles)		
	and follow CDC guidance for classrooms, cafeteria settings,		
	restrooms, and playgrounds.		
	When bringing students back into On-Site or Hybrid instruction,		
	consider smaller groups, cohorts, and rotating schedules to allow		
	for a safe return to schools.		

This section must be completed by any public school that is providing instruction through On-Site or Hybrid Instructional Models. Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance. This section does not apply to private schools.

- □ We affirm that, in addition to meeting the requirements as outlined above, our school plan has met the collective requirements from ODE/OHA guidance related to the 2020-21 school year, including but not limited to requirements from:
 - Sections 4, 5, 6, 7, and 8 of the *<u>Ready Schools, Safe Learners</u>* guidance,
 - The Comprehensive Distance Learning guidance,
 - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
 - Planning for COVID-19 Scenarios in Schools
- □ We affirm that we cannot meet all of the collective requirements from ODE/OHA guidance related to the 2020-21 school year from:
 - Sections 4, 5, 6, 7, and 8 of the *Ready Schools, Safe Learners* guidance,
 - The Comprehensive Distance Learning guidance,
 - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
 - Planning for COVID-19 Scenarios in Schools

We will continue to work towards meeting them and have noted and addressed which requirement(s) we are unable to meet in the table titled "Assurance Compliance and Timeline" below.

🐔 🕺 4. Equity

6. Family, Community, Engagement

<u>م</u>جم

7. Mental, Social, and Emotional Health

8. Staffing and Personnel

Assurance Compliance and Timeline

If a district/school cannot meet the requirements from the sections above, provide a plan and timeline to meet the requirement.

List Requirement(s) Not Met	Provide a Plan and Timeline to Meet Requirements Include how/why the school is currently unable to meet them
