

Joseph Brown Elementary School

School Letter Grade: **C**

What are School Letter Grades?

School letter grades, much like student letter grades, provide a snapshot of how your school is doing in meeting the state's expectations for learning and compares those results over time. The School Letter Grades rating system will annually assign schools with an A-F letter grade to help the public easily understand how our schools are doing. School letter grades are updated annually.

How are Letter Grades Determined?

There are several factors that determine letter grades. These include student achievement and academic growth measures for all schools, as well as a measure of college and career readiness just for high schools.

Schools will receive a sub-score for each of the key components, ranging from levels 1-5. Each sub-score will be multiplied by a weight based off the grade band to create a total score, which will then be used to determine the school's letter grade.

INDICATOR	LEVEL	WEIGHT	SCORE	DESCRIPTION
Achievement	2	50%	1	Student achievement is an indicator of how well all the students in your school meet academic standards for a subject at their grade level as measured by the state TCAP test.
Growth	3	40%	1.2	Student growth is an indicator of how well the students in your school are doing, compared to their peers across the state.
Growth of Highest Need Students	3	10%	0.3	The second measure of growth is of the school's highest need students—those who rank in the school's bottom 25% of students based on achievement— which emphasizes the need for schools to focus on supporting these students.
Total Score:				

How Can I Get Involved?

Everyone can play a role in supporting the success of our students and the success of our schools. Engage with your local school by talking to your student's teachers or principal about how to support student learning, and check out these additional helpful resources:
