

## GRADE 2

In Grade 2, Literacy Foundations continue to be essential as a basis for increased proficiency and a bridge to higher levels of instruction. Specificity in the standards remains to develop the needed phonemic awareness and phonics skills to become successful readers and writers. The categories Reading, Listening, Writing, and Speaking have been added to the organization of the standards as students are becoming more proficient in mastering foundational skills. Not every content area will have a standard in every category. In such cases, the category remains blank with the row shaded to indicate that the omission was intentional.

The writing process is integrated throughout the standards as a key to expressive learning. In accordance with the Simple View of Writing (Berninger et al.), foundational writing skills remain in the Literacy Foundations (standards 37-39); however, the written composition skills transition to the Written Expression category in standards 40-46 as students begin using the stages of the writing process more independently to produce narrative, informative, and opinion writings in response to texts. These tasks become more demanding as rigor increases from second to third grade.

The K-3 Recurring Standards for English Language Arts, shown in the chart below, are an important part of every grade level. Through these standards, students learn and practice active listening, utilize word-analysis skills, build background knowledge and vocabulary skills, learn and practice essential digital skills, and utilize a process to create and modify written work. The recurring standards are to be incorporated throughout the grade level.

### RECURRING STANDARDS FOR K-3

### Fluency

11. Apply previously-taught phoneme-grapheme correspondences to multisyllabic words with accuracy and automaticity, in and out of context.
12. Read and reread grade-appropriate text accurately, automatically, and with meaningful expression at a rate which supports comprehension.
13. Read grade-appropriate poetry, noticing phrasing, rhythm, and rhyme.
14. Read high-frequency words commonly found in grade-appropriate text.

*Note: High-frequency words should be taught with the main emphasis of the lesson being on regular correspondences and patterns within the word. The student should be able to read the word accurately three times in a row on different days to be considered accurate enough to add to a personal word box, word ring, or fluency folder for fluency practice. Avoid teaching high-frequency words as “sight words” that need to be memorized as a whole word, unless there are no regular correspondences in the word. “Of” is an example of a word with no regular correspondences.*
