TOWNSHIP SCHOOLS

NORTH CENTRAL HIGH SCHOOL

New Birge Auditorium

New Surfaced Tennis Courts

KEEP UP WITH PROJECT PROGRESS

Construction Timeline

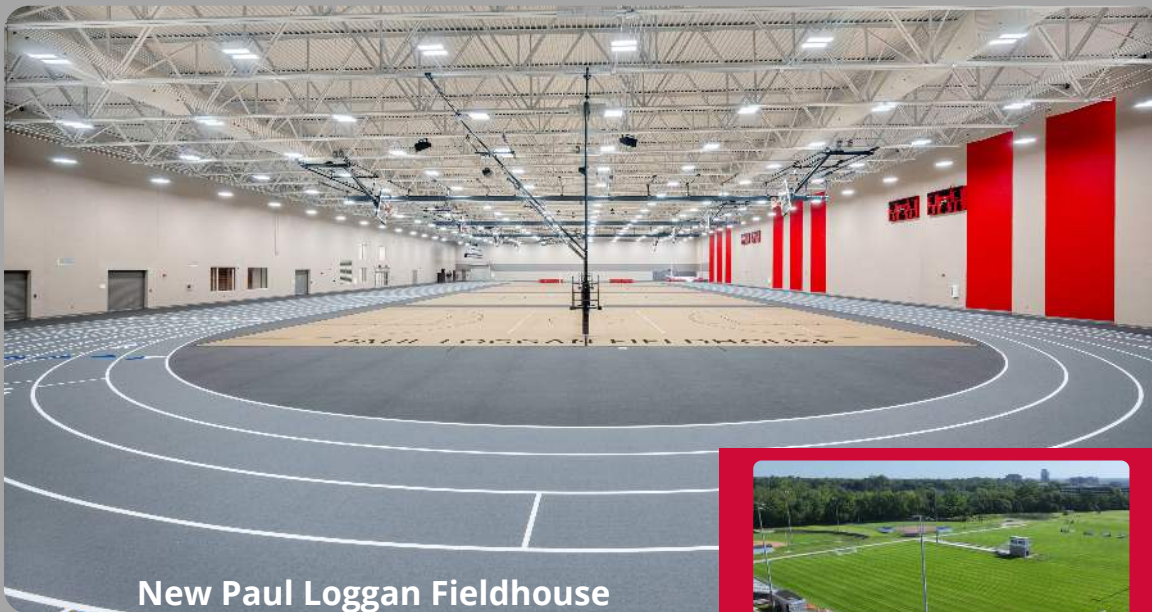

Summer 2021 - Summer 2026

2024 Project Highlights

We are deeply appreciative of the overwhelming support from our WT community for the 2016 and 2020 referenda.

This support has provided the opportunity to renovate all WT facilities, including both the interior and exterior spaces of North Central High School.

*We are grateful for the support from our Washington Township community!
Dr. Woodson and the Board of Education*

New Paul Logan Fieldhouse

New Soccer Press Box

Paul Logan Fieldhouse Community Rooms

Over the last two years, we have made significant progress on the renovation projects at North Central. We have completed a full renovation of the auditorium, constructed the Paul Logan Fieldhouse, upgraded classrooms, and enhanced site safety and circulation around the campus. Additionally, we have completed the construction of a new soccer press box and installed new field lighting and scoreboards. Substantial improvements have also been made to the Football Stadium, including new handicap accessible bleachers, a new press box, updated lighting, a new scoreboard, and a new building featuring visitor restrooms and concessions.

NCHS Stadium Home Side

As with every phase of our projects, the design process for the Football Stadium involved careful scrutiny of the scope and related costs to ensure accountability to the taxpayers of our community. Due to budget constraints caused by the impact of inflation on construction costs, the significant reduction of renovation work for our visiting team facilities had to be reduced to remain within budget. The expanded scope will be considered for future public and private sector funding.

New NCHS Main Entrance

Construction will continue through 2026 with renovations on our Central Campus. These renovations will include a new secure main entrance, an area for use by administrators and support staff, a performing arts addition, improved traffic flow and parking on the northeast side of campus, and full interior renovations of the high school. Additionally, infrastructure and interior renovations of JEL and the conversion of the former Northview Middle School into the Washington Township Services Center are part of future developments for Central Campus. Each of these improvements was funded via the successful public school referendums of 2016 and 2020, overwhelmingly approved by voters in our Washington Township School community.
