SCIENCE FAIR PRESENTATIONS

A few suggestions to help....

You will present your experiment in front of your project board and can bring any materials (safe) to help demonstrate your experiment. Your presentation will be between 5-10 minutes. Your audience may have some questions- so be prepared! ☺

HERE ARE A FEW SUGGESTIONS FOR YOUR PRESENTATION...

Fill in these starters to help get organized.

Hi. My name is -

My Science Fair project is about - (give the topic - and what you tested)

I got this experiment idea from -

Based on my research about - (point out any interesting findings)

I hypothesized that -

After following these procedures - (you can talk about them if you'd like..?)

I found the following results-

Therefore, my hypothesis was / was not supported.
