K-12

English Learner Parent Advisory Council

ELPAC

Come Join the ELPAC !

The ELPAC is a group of parents that give the school district input and advice on how to best educate, support and promote our English Learners.

The Northampton Public Schools wants to draw strength from all that our English Learners and their families bring to our community and our schools by promoting and educating the community about the multilingualism of our students and families.

As a member you will be able to

- Meet and connect with other parents to have discussions.
- Plan fun events or activities for our EL families at school or in the community that celebrates diversity and multilingualism.
- Receive help with communications to your child's school.
- Receive monthly email updates on important news and opportunities related to ELs and their families.
