- 3 Math
- 4 Social Studies
- 5 Science
- 6
- 7 Tech / Music / Art
- 8 Foreign Language
- 9 Support Services

Attendance

Attendance will be mandatory and entered daily.

Special Education Accommodations

- Special Education and general ed teachers will collaborate to provide specific accommodations to students as outlined in IEPs.
- All accommodations and/or services will be provided to students as outlined in 504 plans.
- Psychological Evaluations
 - School Psychologists will conduct evaluations in a face-to-face model using safety protocols.

Teachers

Teachers will instruct 5 classes; 4 in person and 1 remote class.

Assessment

Teachers will use multiple types of authentic assessments (formative and summative). Teachers in similar grades/subjects will set up common grading procedures.

Grading

Numeric grades will be provided each quarter. Pass/ Fail is not a grading option this academic school year.

Technology

The District is purchasing devices for students in grades 2-12 as well as teachers using SSBA funds. These devices will not be ready until mid fall, in the meantime devices will be available for signout upon request. For students in kindergarten and first grade who need access to a device, those cases will be assessed and signed out on an as needed basis. The District will provide students with direct instruction on how to connect with teachers using Google Classroom. WiFi will remain available in the school parking lots and the district will purchase hotspots to help families living in connectivity dead zones or with limited bandwidth in their home service. Families may contact the school if the device becomes inoperable.
