

## PROGRAMS OF ENRICHMENT

The Board of Education is committed to a program of enrichment within the school district and in providing programs to meet the special needs of all students and to prepare the school's professional, instructional, and non-instructional staff to administer, supervise, and teach such enrichment programs.

Consistent with district efforts to develop a continuum of learning experiences which addresses the special gifts and talents of students, the Superintendent of Schools, with input from appropriate school personnel, will develop a district plan for the administration of a program of enrichment.
