

HOMEWORK

Homework is viewed as a potentially valuable and appropriate extension of activities begun in school and is encouraged. It should be meaningful and useful to the individual needs. Homework shall be mandatory on a regular basis for all grade levels. Students vary in interest and skill from one unit of work to another so that the time to be spent by all pupils at a given age level at homework activities shall be left to the professional judgment of the staff. Homework shall be corrected by the teacher with timely feedback to the students.
