

How to Clear Cache, Cookies, and other Website Data on iPads

To clear browsing data on an iPad

Open Safari	
In Safari, tap the tab view button at the top right of the screen	
Once in the tab view, tap the "x" located in the top left corner of each tab until they have all been closed	
Open the Settings app	

Once in the Settings app, scroll down the left side menu until you find the Safari option

Tap Safari

Tap **Clear History and Website Data**

Tap the red **Clear** button
