

Well a teacher, a teacher
Her children are her stars

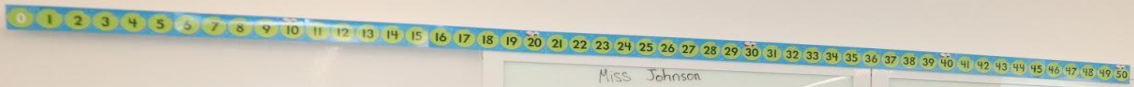

Miss Johnson

Yes she hopes they will go far

And reading and writing

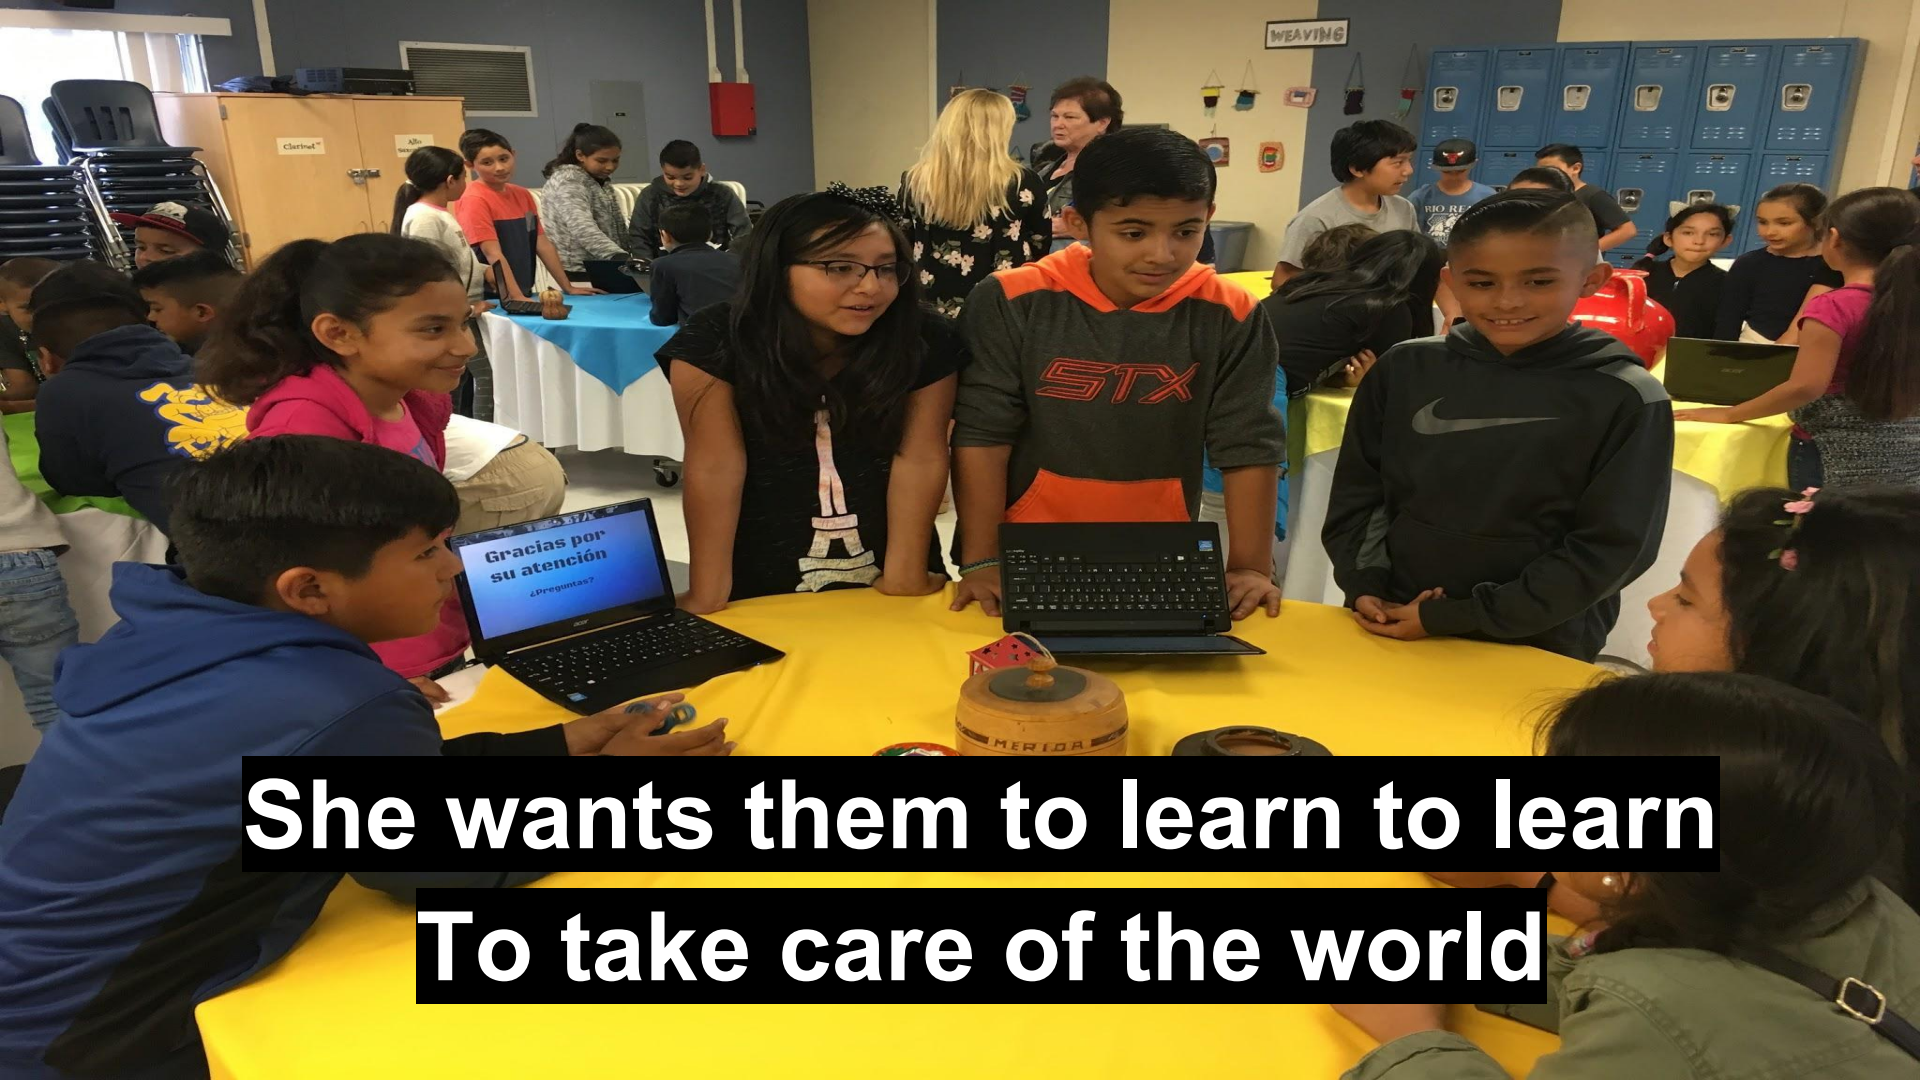

And maths is what they'll do

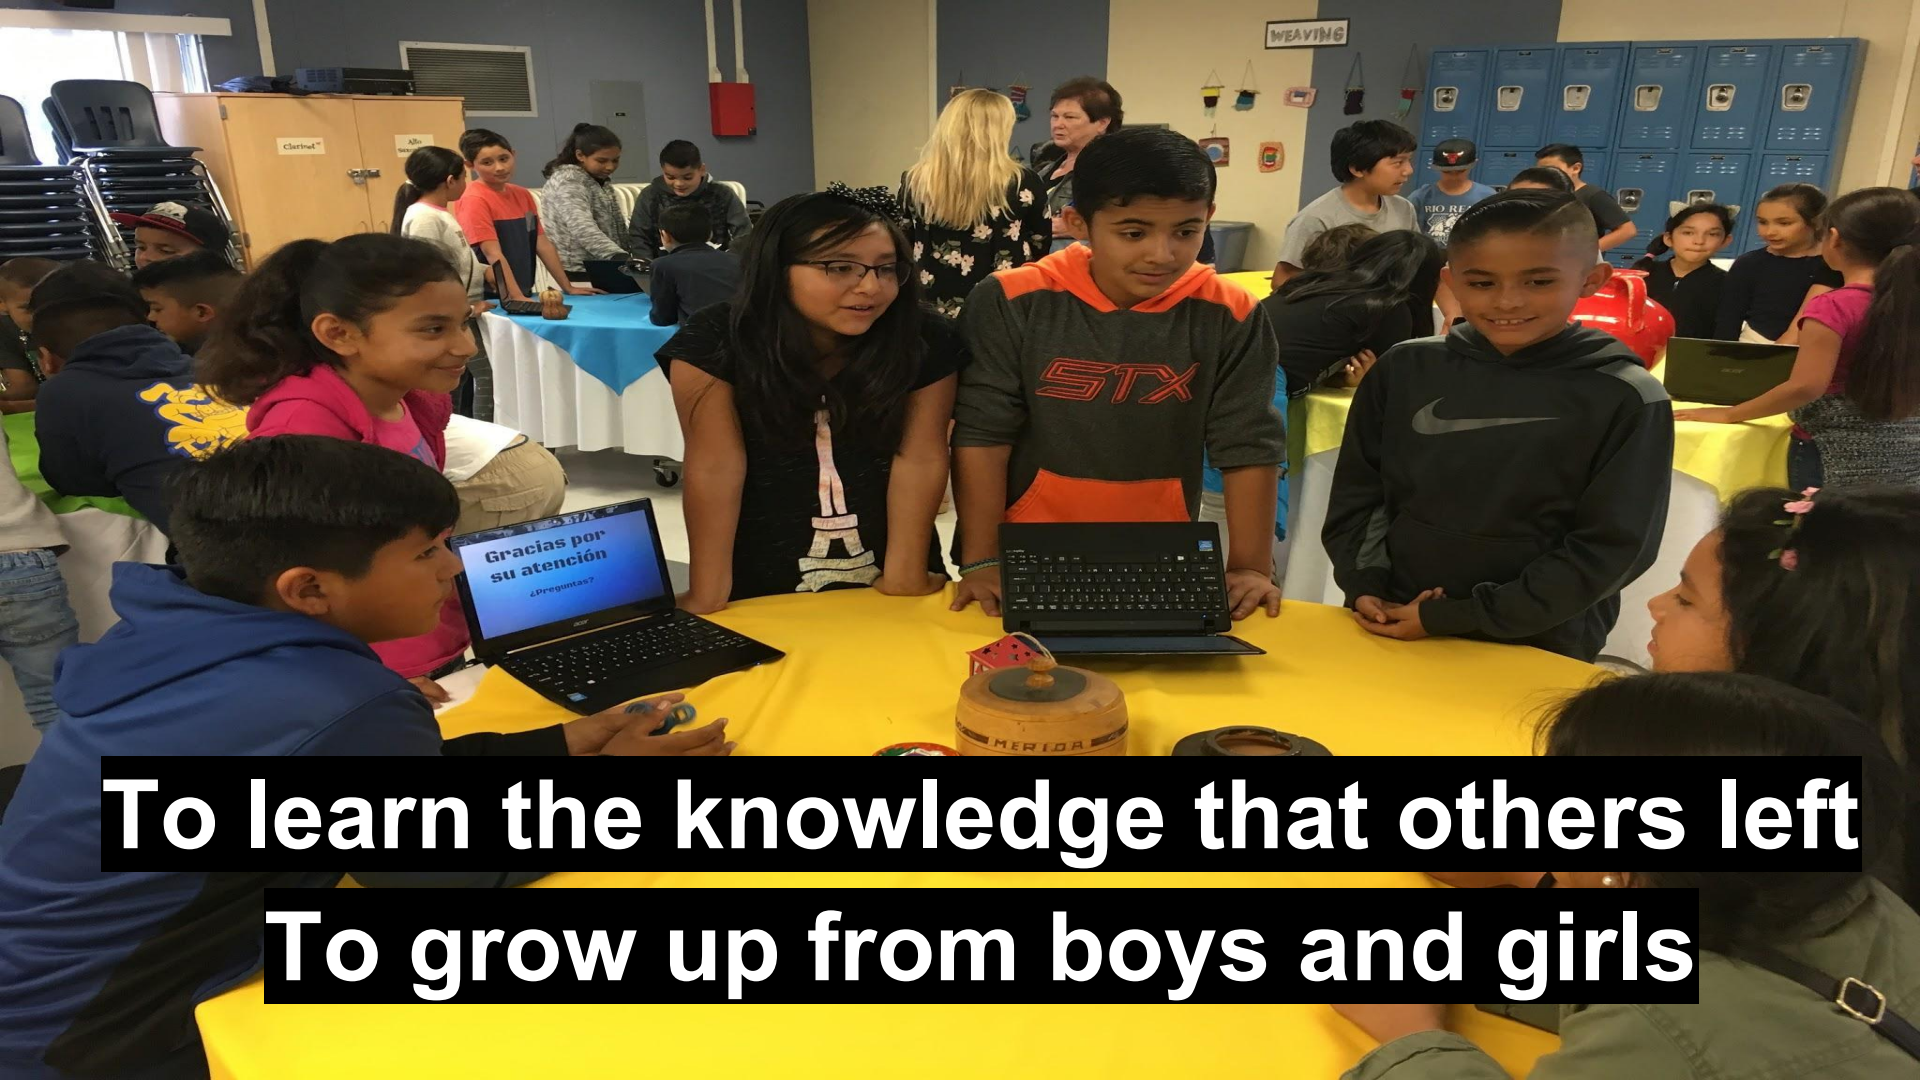

**But she wants them all
To love themselves**

The way good people do

**She wants them to learn to learn
To take care of the world**

**To learn the knowledge that others left
To grow up from boys and girls**

**Well a teacher a teacher
For us they are like glue**

They keep stuck together

The important things

That's what the teachers do

**They glue together a classroom full
With children of every kind**

**They glue together families and schools
That's where communities find**

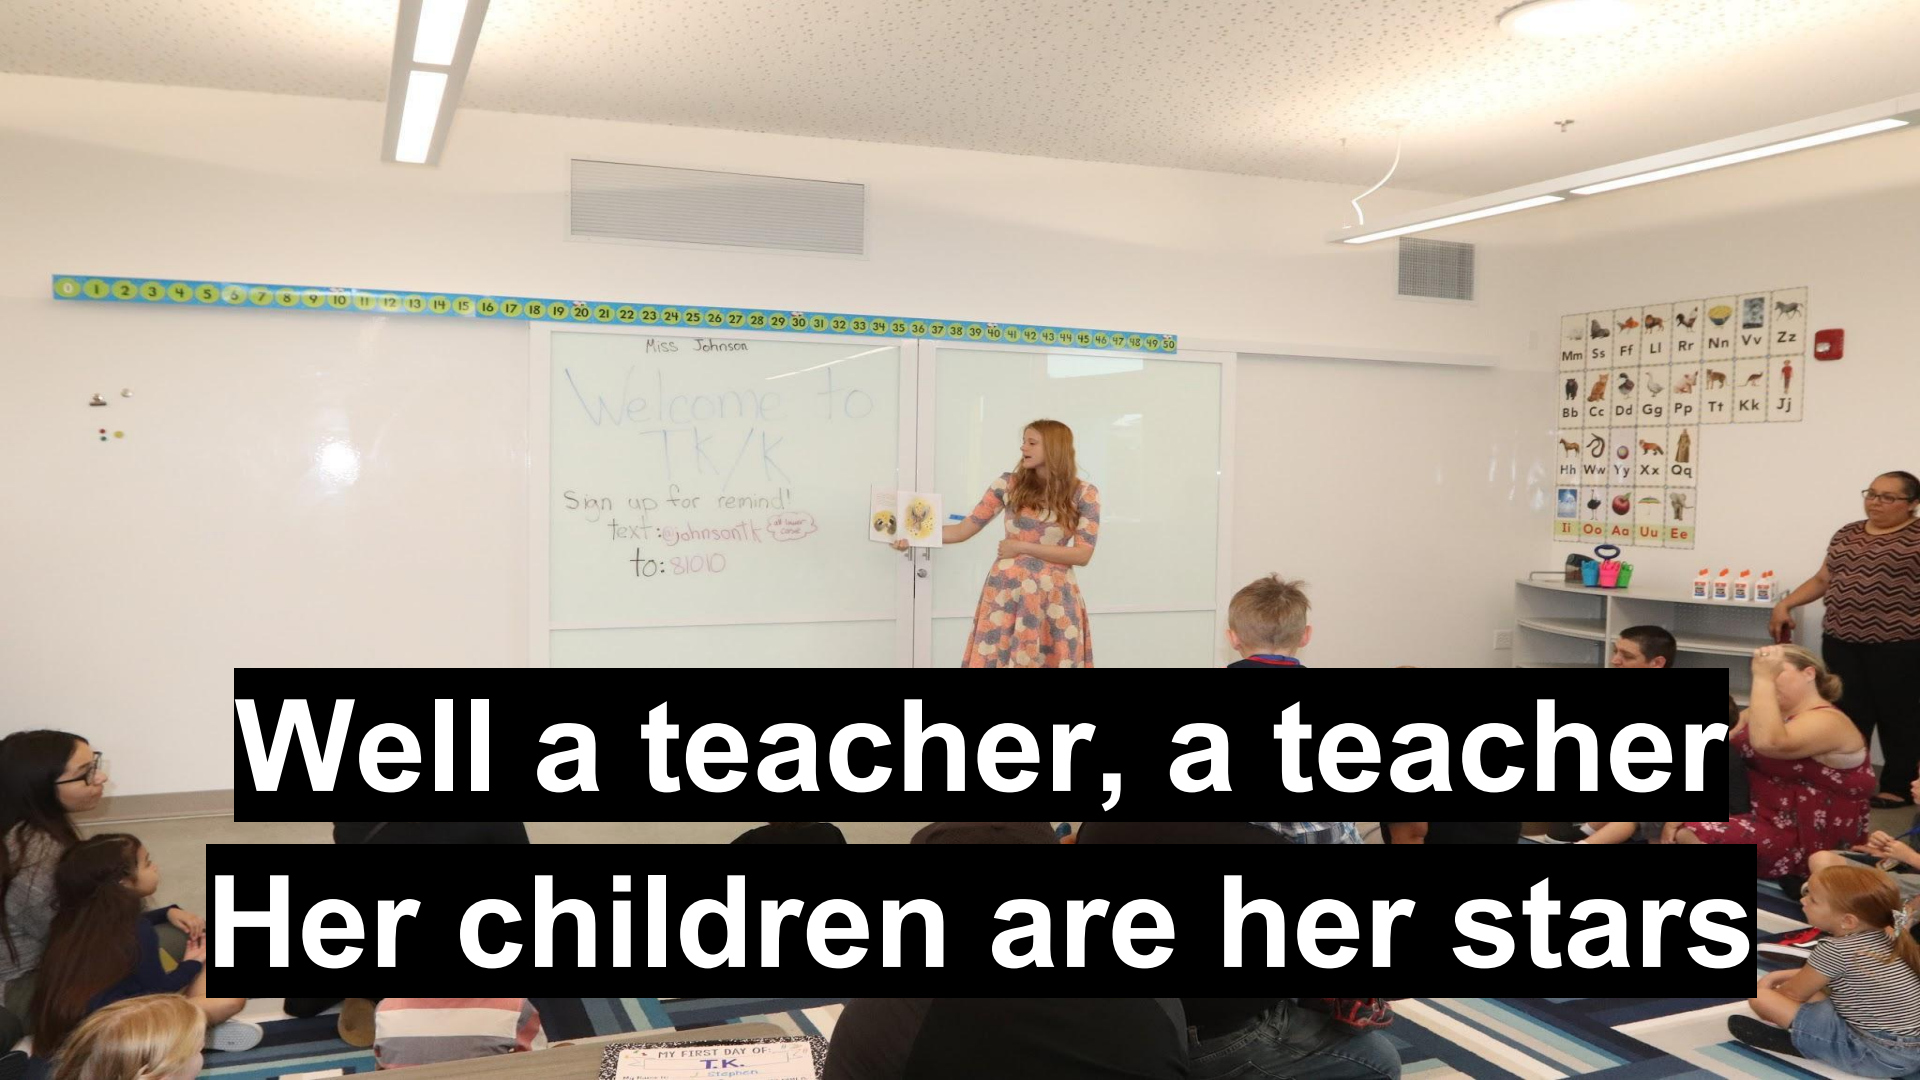

**A common language A love of things
The way that people should do**

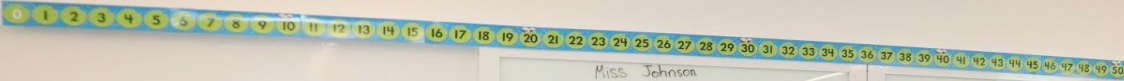

To raise their children

to be happy and free

To make a better world for you

Well a teacher, a teacher
Her children are her stars
