# 404 Riverton State Assessment Review for Budget Considerations

## Riverton USD 404 - District Summary

Based upon your schools Needs Assessment and State Assessment results, please identify the following:

(A) The barriers that must be overcome for each student to achieve grade level proficiency on assessments

(B) The budget actions that should be taken to address and remove those barriers

(C) The amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Board President: Tim Wilson

Date: 06-08-2023

### **(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.**

There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact our School District include, but are not limited to:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Declining enrollment that reduces funding and access to additional services and supports for students
- Difficulty in retaining and attracting highly qualified teachers and replacing teachers as they retire
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Lack of or limited access to quality Pre-K education
- Special Education funding shortfall has limited supports of our highest need students
- High numbers or increasing numbers of single parent families
- High levels or an increase in absenteeism among our student population
- An increasing level of social emotional challenges and needs of students
- High levels or increased student mobility affects the amount of instructional time we have with highly mobile students and creates instructional issues when students move in or out throughout the school year
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

**(B) Identify the budget actions that should be taken to address and remove those barriers.**

Given an appropriate level of funding for both general education and special education, there are a number of budget actions we could take to remove some barriers. Some of them include:

- Increased salary to recruit and retain high quality certified and classified staff
- Increased funding and time for staff development
- Additional substitute teachers for teacher release time
- Maintain low teacher/pupil ratio for greater individualized instruction
- Increase funding for Pre-K programs

**(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.**

There is no way to accurately predict how children will respond to our interventions because we cannot fix the daily challenges they face. Many factors impact students' academic achievement, such as:

- Our ever-changing student population brings a varying degree of cognitive abilities and disabilities which precludes us from being able to guarantee a date when all students will meet a singular level of proficiency.
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency

# Riverton Elementary School Building State Assessment Review

**District:** 404 Riverton

**School:** Riverton Elementary School

**Building Number:** 5620

**Grades Served:** PK-5

## **(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.**

There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact this school include, but are not limited to:

- Difficulty in scheduling and finding more time to provide teacher/staff collaboration that would support improved student learning
- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Declining enrollment that reduces funding and access to additional services and supports for students
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Lack of or limited access to quality Pre-K education
- Special Education funding shortfall has limited supports of our highest need students
- Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss
- High numbers or increasing numbers of single parent families
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- Lack of, limited, or difficulties in engaging parents in the educational process
- We do not receive disaggregated and approved state assessment scores until October of a school year, which limits the amount of time we have to make adjustments based on that data
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

**(B) Identify the budget actions that should be taken to address and remove those barriers.**

Our students face a growing number of barriers to success and this school continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increased funding and time for staff development
- Increase paraeducator support in special education classrooms
- Maintain low teacher/pupil ratio for greater individualized instruction
- Increase funding for Pre-K programs

**(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.**

There is no way to accurately predict how children will respond to our interventions because we cannot fix the daily challenges they face. Many factors impact students' academic achievement, such as:

- The current and future levels of school funding have a significant impact on student learning and any increases or decreases have an affect on student success. Any changes to those funding levels, in either direction, impact the ability of students to meet proficiency criteria.
- Lack of constitutional funding of special education continues to impact our ability to fully meet the needs of all students
- While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency
- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

# Riverton Middle School Building State Assessment Review

**District:** 404 Riverton

**School:** Riverton Middle School

**Building Number:** 5621

**Grades Served:** 6-8

## **(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.**

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Declining enrollment that reduces funding and access to additional services and supports for students
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Special Education funding shortfall has limited supports of our highest need students
- High numbers or increasing numbers of single parent families
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- Diminishing local control limits our ability to provide supports and services specific to our student and community population
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

**(B) Identify the budget actions that should be taken to address and remove those barriers.**

Our students face a growing number of barriers to success and this school continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increased funding and time for staff development
- Allocating budget to focus on prevention, detection and intervention concerning trauma and mental health issues

**(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.**

While our board of education, administration, teachers and classified staff work tirelessly to meet the academic and social emotional needs of all of our students, too many factors come into play that do not allow us to accurately assess when all students will be at a certain level. Some of those factors include:

- While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency
- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

# Riverton High School Building State Assessment Review

**District:** 404 Riverton

**School:** Riverton High School

**Building Number:** 5622

**Grades Served:** 9-12

## (A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Some of the key barriers that must be overcome at this school include:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Declining enrollment that reduces funding and access to additional services and supports for students
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Special Education funding shortfall has limited supports of our highest need students
- Increased or high levels of student discipline issues, including high numbers of suspensions and/or expulsions
- Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss
- High numbers or increasing numbers of single parent families
- High levels or an increase in absenteeism among our student population
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- Lack of, limited, or difficulties in engaging parents in the educational process
- We do not receive disaggregated and approved state assessment scores until October of a school year, which limits the amount of time we have to make adjustments based on that data
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

**(B) Identify the budget actions that should be taken to address and remove those barriers.**

Our students face a growing number of barriers to success and this school continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional substitute teachers for teacher release time
- Maintain low teacher/pupil ratio for greater individualized instruction
- Allocating budget to focus on prevention, detection and intervention concerning trauma and mental health issues

**(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.**

There is no way to accurately predict how children will respond to our interventions because we cannot fix the daily challenges they face. Many factors impact students' academic achievement, such as:

- Our ever-changing student population brings a varying degree of cognitive abilities and disabilities which precludes us from being able to guarantee a date when all students will meet a singular level of proficiency.
