

2024 – 2025 Proposed Budget

BUDGET CODE OVERVIEW

Section 36 of the General Municipal Law prescribes a 'Uniform System of Accounts for School Districts'. This system of accounts is designed to provide uniformity with respect to classification and summarization of data from the books of accounts.

CLASSIFICATION

A classification of accounts is the systematic arrangement of accounts based upon a definite scheme. The purpose in classifying accounts is to provide for recording financial information in such form that comparisons may be made with similar data for other periods and other school districts. The classification thus serves as the basis for accounting, budget preparation and execution, reporting both for administrative control purposes and to the general public, and the compilation of financial statistics on a state and national level.

CODING

Code numbers serve to identify accounts without reference to stated titles. In the classification of accounts, as prescribed by the State, code numbers serve to identify expenditure accounts by function and objects. School Districts have the flexibility of further expanding the object code format to provide more specific data in certain areas. In addition, to further enhance internal accountability, the School District has the discretion of adding location and/or program fields to the budget code.

FUNCTION

The term "function" has reference to the primary classification and description of expenditures as to purpose. It identifies groups of services aimed at accomplishing certain purposes or ends. Each function is composed of a group of related units. For example, "General Support" identifies the board of education, central administration, financial and other general support activities.

OBJECT

The term "object" has reference to the secondary classification and description of expenditures. It identifies expenditures by the article purchased or service obtained in order to carry out a function. The basic objects are Personnel Services, Equipment, Contractual and Supply Expenditures, Principal and Interest on Debt, Employee Benefits and Interfund Transfers.

The attached is a summary breakdown and explanation by main functional unit, and related units, that comprise the proposed budget in total.

Form Due May 13, 2024

2024-2025 Salary Threshold = \$169,000

In response to legislative efforts to encourage greater cost sharing in service provision and local government administration, we now provide a section for districts that share administrative staff to highlight these efforts for the upcoming school year. Each sharing district should identify in the form the other district(s) with which they will be sharing administrative staff for school year 2024-2025.

If you will be sharing a <u>Superintendent</u>, list the other district (or districts) in the text box. If you will be sharing other administrative staff required to be reported, please send an email to <u>EMSCMGTS@nysed.gov</u> indicating the title of the staff persons(s) as well as the other district(s) involved in the cost-sharing.

The salaries, benefits and other compensation reported in the form should reflect only the financial support or commitment that your district will be making. They should not reflect the total amounts budgeted to be paid by all participating districts over the school year.
